## **Making Change Irresistible Overcoming Resistance To Change In Your Organization:**

*Making Change Irresistible* Ken Hultman, 1998 Building on a clear presentation of the psychological factors that determine whether individuals embrace or resist change this far reaching work describes how to identify the source intensity and focus of a person's resistance to change in organizations and provides the tools for overcoming individual resistance and increasing team effectiveness

**Leading Missional Change** Paul J. Dunbar, Tony Blair, 2013-04-02 It seems that nearly everyone is talking about missional change for congregations As a result many church leaders are attempting to drive that kind of change for the ministries they lead Some succeed But many others hit a wall of considerable frustration as they find that congregations resist the very change that is so needed The reasons for this resistance are many and they are explored in this volume What is required to move a church from resistance to readiness Some resistance is deeply rooted in spiritual patterns But there are other reasons as well and they center on trust personal trust in the leaders who offer missional change For this work the authors have done extensive primary and secondary research to identify patterns and behaviors that invite missional leadership More than that they've lived this out in their own ministries as pastors of traditional congregations This book thus offers compelling first person stories and congregational case studies alongside more generalized findings **Leading Missional Change** was written to support pastors and other church leaders who experience resistance to share wisdom and experience that may lead to readiness and to give hope and encouragement toward a re energizing of your own congregation

Rughase, 2006

This book exemplifies one of the most complete and rigorous examples of scholarship relative to its subject matter that I have ever seen Russell L Ackoff University of Pennsylvania US This is a book written by someone who makes a living from helping organizations make strategy It is also though written by a scholar someone who has thought hard about the topic and knows what other scholars think This mix makes a book that is both thorough well argued and yet of great significance for consultants and managers It unashamedly takes an inside out view of strategy making and this is what makes it so practical It focuses on what those who manage want to do with their organization rather than on some notion of what they should do

The book takes the field of strategic management forward by bringing theory and practice together more management writing needs to come from practitioner scholars Colin Eden University of Strathclyde Graduate School of Business UK Olaf Rughase successfully unlocks important insights for creative market strategy development by linking it to central ideas about organizational identity He provides a compelling theoretical rationale and useful practical process insights for how to induce creative market strategy formation through articulating current desired organizational identities The book is clearly written the claims well documented and well illustrated providing a fresh and useful perspective on how to enable market strategies that work Jane E Dutton University of Michigan US In his well researched book Olaf Rughase introduces a new element into the concept of strategy which has so far been neglected to a surprising degree the human factor Strategy development certainly consists of data research analysis and synthesis but after all it is at least as much driven by fear and hope will and might the vision and the experience of the people involved Only approaches that take this into account can claim any relevance for real life strategy making Viewed in this light Olaf Rughase s book fills a gaping hole in the existing world of strategic thinking J rg Fengler Management Consultancy E ON Ruhrgas AG Germany Theorists and practitioners often underestimate the subtlety of each others thinking Rughase s work engages seriously with both groups and as a result is both deep and thoroughly practical This is a genuinely original contribution David Sims Cass Business School London UK this book is not just an academic treatise Its insights grow out of facilitating strategy making and one of these experiences is described in some detail There are many practical observations to be found here Political realities are acknowledged Alternative paths anticipated The ideas advanced here are in combination a genuine departure from past efforts The theoretic development which moves back and forth from experience to academic explanation is convincing From the foreword by Anne S Huff This groundbreaking book explores the relationship between organizational identity and strategy and proposes a practical strategy making process that helps to avoid the typical pitfalls in strategic change processes In doing so the author bridges an important gap in management and strategy literature and explains how to practically link content and process when designing market strategies A new conceptual framework is also presented which emphasizes the importance and dynamics of organizational identity and corresponding time discrepancies for strategy making Whilst most strategists use the economically and analytically best strategy as a measure Olaf Rughase introduces a new measure for strategy making that takes personal feelings values and aspirations of organizational members into account Claiming that individually desired organizational identities which can be seen as individual visions give direction motivation and impetus for strategy action and developme
