Main Idea Scoring Guide:

A Complete Guide to Rubrics Audrey M. Quinlan, 2012 This book takes a developmental perspective at the use of scoring rubrics to assess student work Citing developmental characteristics of each age the author presents examples and adaptations of assessment rubrics on a variety of subjects for teachers from kindergarten through adult college After a presentation of foundation information on rubrics separate chapters are devoted to each grade level from primary through adult Written so that each chapter can be addressed independently the book provides additional chapters devoted to assessing technological topics and using rubrics with students with special needs The final chapters provide practical information to help teachers to create their own rubrics and to covert rubric scores to letter grades An updated annotated listing of recommended rubric websites is included

Measuring Writing: Recent Insights into Theory, Methodology and Practice Elke van Steendam, Marion Tillema, Gert Rijlaarsdam, Huub van den Bergh, 2012-11-20 This volume provides a state of the art overview of theory methodology and practices in the assessment of writing The focus throughout the book is on the construct of writing and its assessment what constitutes writing ability and how can it be defined in various contexts This question cannot be answered without looking into the methodological question of how to validate and measure the construct of writing ability Throughout the book therefore discussions integrate theoretical and methodological issues A number of chapters discusses whether varying definitions and varying operationalizations of writing ability are needed in various contexts such as formative assessments versus summative assessments large scale assessments versus individual assessments different tasks different genres and different languages but also different age groups A range of rating methods is investigated and discussed in this book The ongoing debate on holistic versus analytic ratings and the different underlying conceptions of writing proficiency is a pertinent matter on which a number of chapters in this volume shed new light The matter is discussed and analyzed from various angles such as generalizability of judgements and usability in formative contexts Another fundamental debate concerns computer scoring of written products A nuanced discussion of its validity is presented in this volume
