 Anne O'Byrne, 2023-04-25 We regard genocidal violence as worse than other sorts of violence perhaps the worst there is But what does this say about what we value about the genos on which nations are said to be founded This is an urgent question for democracies We value the mode of being in time that anchors us in the past and in the future that is among those who have been and those who might yet be If the genos is a group constituted by this generational time the demos was invented as the anti genos with no criterion of inheritance and instead only occurring according to the interruption of revolutionary time Insofar as the demos persists we experience it as a sort of genos for example the democratic nation state As a result democracies are caught in a bind disavowing genos thinking while cherishing the temporal forms of genos life they abhor genocidal violence but perpetuate and disguise it This is the genocide paradox O Byrne traces the problem through our commitment to existential categories from Aristotle to the life taxonomies of Linneaus and Darwin through anthropologies of kinship that tether us to the social world the shortfalls of ethical theory into the history of democratic theory and the defensive tactics used by real existing democracies when it came to defining genocide for the U N Genocide Convention She argues that although models of democracy all make room for contestation they fail to grasp its generational structure or acknowledge the generational content of our lives They cultivate ignorance of the contingency and precarity of the relations that create and sustain us The danger of doing so is immense It leaves us unprepared for confronting democracy's deficits and its struggle to entertain multiple temporalities In addition it leaves us unprepared for understanding the relation between demos and violence and the ability of good enough citizens to tolerate the slow burning destruction of marginalized peoples What will it take to envision an anti genocidal democracy **What Makes Life Worth Living** Sherwood Sweet Knight, 1912 *There Is Power in Living* Dustin Vaughn Warncke, 2001 Do you want to change or improve your life Do you want to achieve your dreams and find meaning in your life There is Power in Living by Dustin Warncke is one of the best guides available because it presents both spiritual and practical tactics to help improve your life for the better In this book Warncke explores many topics such as Discovering happiness and inner peace Learning how to leave the past behind and learn from it Exploring how to achieve your goals and follow your dreams Finding meaning in living and loving Understanding yourself and other people As well as much much more Dustin Warncke has helped hundreds of people improve their lives and define ways to achieve their dreams This book combines many insights and experiences together with popular psychology to prove that there is truly power in living **Gospel Herald** , 1915 *The World's Work* , 1922
