Developing a Curriculum Model for Civically Engaged Art Education Sara Scott Shields,Rachel Fendler,2023-07-31 This volume
explores art as a means of engendering youth civic engagement and draws on research conducted with young people in the
United States to develop a unique curriculum model for civically engaged art education CEAE Combining concepts from
civics and arts education chapters posit that artistic thinking making and acting form the basis for creative research into
social and political issues which affect young people and are key to promoting civic participation Focusing on critical creative
and dynamic forms of youth cultural production inspired by local people places and events the text demonstrates how
educators curricular choices can engage students in researching social movements and arts based activism The authors draw
from well established areas such as arts based research civic engagement and maker centered learning to present their
educational model through illustrative examples Offering a timely consideration of the relationship between art education
and civics education this book will appeal to scholars and students of the sociology of education as well as arts and teacher
research and pre service teacher education

Contemporary Art and Feminism Jacqueline
Millner,Catriona Moore,2021-07-05 This important new book examines contemporary art while foregrounding the key role
feminism has played in enabling current modes of artmaking spectatorship and theoretical discourse Contemporary Art and
Feminism carefully outlines the links between feminist theory and practice of the past four decades of contemporary art and
offers a radical re reading of the contemporary movement Rather than focus on filling in the gaps of accepted histories by
adding the missing female queer First Nations and women artists of colour the authors seek to revise broader
understandings of contemporary practice by providing case studies contextualised in a robust art historical and theoretical
basis Readers are encouraged to see where art ideas come from and evaluate past and present art strategies What strategies
materials or tropes are less relevant in today s networked event driven art economies What strategies and themes should we
keep hold of or develop in new ways This is a significant and innovative intervention that is ideal for students in courses on
contemporary art within fine arts visual studies history of art gender studies and queer studies
