Connecting Adult Learning and

Knowledge Management Monica Fedeli, Laura L. Bierema, 2019-11-25 This multidisciplinary book represents an initial attempt to connect adult learning and knowledge management in theory and practice. It provides educators, learners, and organizational development professionals with new strategies and resources for developing active and effective pedagogies which in turn prepare learners and practitioners to manage knowledge in organizations and higher education. To do so, it gathers contributions and case studies from a diverse global team of authors and provides a theoretical and practical outline of new strategies and methods for facilitating adult teaching and learning. It also provides a fresh reading of active learning methods by adopting a knowledge management viewpoint that is broadly applicable whether helping students master content in university courses or helping organizations learn and change. The book is divided into three main sections: a) methods and theories for adult teaching and learning; b) knowledge management in education; and c) case studies and best practices that consider classroom learning, higher education change, and organization development. Handbook of Research on Adult

Learning in Higher Education Okojie, Mabel C.P.O., Boulder, Tinukwa C., 2020-02-01 In today's globalized world, professional fields are continually transforming to keep pace with advancing methods of practice. The theory of adult learning specifically is a subject that has seen new innovations and insights with the advancement of online and blended learning. Examining new principles and characteristics in adult learning is imperative as emerging technologies are rapidly shifting the standards of higher education. The Handbook of Research on Adult Learning in Higher Education is a collection of innovative research on the methods and applications of adult education in residential, online, and blended course delivery formats. This book will focus on the impact that culture, globalization, and emerging technology currently has on adult education. While highlighting topics including andragogical principles, professional development, and artificial intelligence, this book is ideally designed for teachers, program developers, instructional designers, technologists, educational practitioners, deans, researchers, higher education faculty, and students seeking current research on new methodologies in adult education. **Knowledge**

Management and Sustainability David Israel Contreras-Medina, Julia Pérez Bravo, Elia Socorro Díaz Nieto, 2021-12-29 Based on the importance of human beings as creators and managers of knowledge towards the achievement of sustainability in the current digital age, this book is an effort to present many studies taking individuals as centers of knowledge and starting points for environmental, social, and economic development. From various theoretical and empirical studies developed by researchers from Mexico, Colombia, and Brazil, this book presents in an ordered sequence: the individual as the creator of knowledge; the role of human beings as knowledge managers; with and for sustainability; the opportunities for knowledge sharing in virtual research collaborations for sustainability; and the advantages and disadvantages with and for sustainability from a human-centered perspective in the digital era. Moreover, this text describes the antecedents of competitive advantage in a sustainable cooperative network, knowledge management in technology projects, an empirical study of knowledge management of tutorial intervention, a model of processes and knowledge management to increase competitiveness, the role

of Information and Communication Technologies ICT for managing sustainable practices finishing with knowledge management trends with and for sustainability from a human centered perspective in the digital era Offering an innovative approach this book seeks to expand the understanding of the theme of knowledge management and sustainability from the perspective of the human resource as a generator of knowledge There is mounting focus on knowledge intensive work and sustainable development in the corporate world In light of these trends this edited volume will be of value to researchers academics professionals and advanced students in the fields of management environment and sustainability and development studies
