The Oxford Handbook of Networked Communication Brooke

Foucault Welles, Sandra González-Bailón, 2020-01-24 Communication technologies including the internet social media and countless online applications create the infrastructure and interface through which many of our interactions take place today This form of networked communication creates new questions about how we establish relationships engage in public build a sense of identity and delimit the private domain The ubiquitous adoption of new technologies has also produced as a byproduct new ways of observing the world many of our interactions now leave a digital trail that if followed can help us unravel the rhythms of social life and the complexity of the world we inhabit and thus help us reconstruct the logic of social order and change The analysis of digital data requires partnerships across disciplinary boundaries that although on the rise are still uncommon Social scientists and computer scientists have never been closer in their goals of trying to understand communication dynamics but there are not many venues where they can engage in an open exchange of methods and theoretical insights This handbook brings together scholars across the social and technological sciences to lay the foundations of communication research in the networked age and to provide a canon of how research should be conducted in the digital era The contributors highlight the main theories currently guiding their research in digital communication and discuss state of the art methodological tools including automated text analysis the analysis of networks and the use of natural experiments in virtual environments Following a general introduction the handbook covers network and information flow communication and organizational dynamics interactions and social capital mobility and space political communication and behavior and the ethics of digital research

The Ultimate Guide to Excellent Public Service Leadership and Management Dr.

Jeffrey C. Fox, 2018-05-01 This book is for anyone who is interested in becoming a leader manager or who already is in such position For those seeking such responsibilities or promotion those just starting out in a leadership position or those who want to learn new tips and to brush up my hope is that you will find value in this book Public service includes but is not limited to emergency management emergency medical services military personnel fire first responders corrections officers law enforcement dispatchers 911 operators probation and parole officers transportation social services and the list goes on These servants can be found at the local state and federal levels The principles and concepts in this book are just as useful to those in the private sector who have similar duties as well as volunteer groups We will go into detail about how to be the best leader you can be As a caveat the term leader will mainly be used throughout the book As you will see there are differences between leaders and managers but one key point of this book is that one must strive to be both a leader and a manager

Defenseless Under the Night Matthew Dallek, 2016-06-02 In his 1933 inaugural address Franklin D Roosevelt declared that the only thing we have to fear is fear itself Yet even before Pearl Harbor Americans feared foreign invasions air attacks biological weapons and conversely the prospect of a dictatorship being established in the United States To protect Americans from foreign and domestic threats Roosevelt warned Americans that the world has grown so small and eventually established the precursor to the Department of Homeland Security an Office of Civilian Defense OCD At its head Roosevelt appointed New York Mayor Fiorello La Guardia First Lady Eleanor Roosevelt became assistant director Yet within a year amid competing visions and clashing ideologies of wartime liberalism a frustrated FDR pressured both to resign In *Defenseless Under the Night* Matthew Dallek reveals the dramatic history behind America's first federal office of homeland security tracing the debate about the origins of national vulnerability to the rise of fascist threats during the Roosevelt years While La Guardia focused on preparing the country against foreign attack and militarizing the civilian population Eleanor Roosevelt insisted that the OCD should primarily focus on establishing a wartime New Deal what she and her allies called social defense Unable to reconcile their visions both were forced to leave the OCD in 1942 Their replacement James Landis would go on to recruit over ten million volunteers to participate in civilian defense ultimately creating the largest volunteer program in World War II America Through the history of the OCD Dallek examines constitutional questions about civil liberties the role and power of government propaganda the depth of militarization of civilian life the quest for a wartime New Deal and competing liberal visions for American national defense questions that are still relevant today The result is a gripping account of the origins of national security which will interest anyone with a passion for modern American political history and the history of homeland defense
