Liberal Interventionism And Democracy Promotion:

Liberal Interventionism and Democracy Promotion Dursun Peksen, 2012-03-15 Despite growing interest in democracy promotion the nature and extent of external factors impact on democratic transitions to date remains understudied The question of what works under what circumstances is still intensely contested among academics policy makers and practitioners Liberal Interventionism and Democracy Promotion edited by Dursun Peksen contributes to the study of international democracy promotion exploring the extent to which various forms of foreign interventions and policy actors that advocate political liberalization affect the spread of democracy The contributors in this study specifically address issues highly relevant to the academic research and policymaking including the evaluation of the efficacy of four major tools economic sanctions foreign aid external armed interventions and soft power that are often used to advance political liberalization in authoritarian regimes The book also assesses the performance of four major non state actors the International Monetary Fund the United Nations the European Union and transnational human rights organizations that have become increasingly influential in advocating the spread of civil liberties and political rights Liberal Interventionism and Democracy Promotion s comprehensive assessment of the efficacy of major policy instruments and actors that advocate political liberalization offers a greater understanding of what works best and when in the practice of democracy promotion This collection is an essential contribution to the study of democracy promotion and international relations

Liberal Internationalism B. Jahn, 2013-08-15 This study provides an original conception of liberalism that accounts for its internal contradictions and explains the current crisis of liberal internationalism Examining the disjuncture between liberal theory and practice it offers a firmer grasp on the historical role of liberalism in world politics

Connected Empires, Connected Worlds Robert S.G. Fletcher, Benjamin Mountford, Simon J. Potter, 2022-06-01 Connected Empires Connected Worlds Essays in Honour of John Darwin contains diverse essays on the expansion experience and decline of empires The volume is offered in honour of John Darwin s contribution to the study of empire and its endings Written by his former students and colleagues the book s chapters discuss topics from the nineteenth twentieth and twenty first centuries While each author has contributed according to their expertise they also reflect on how John s ideas and approaches continue to stimulate new work in disparate fields Touching on the experience of empire in Europe Africa Asia and Australasia the authors have engaged with concepts from across Darwin s writings including his earlier work on decolonisation decline and the dynamics of territorial expansion As such the work in this volume operates across a number of different scales of analysis from case studies of transnational communities state formation and military intervention to imperial politics inter imperial comparison and global historical frameworks The chapters in this book were originally published as a special issue of The Journal of Imperial and Commonwealth History

United States Foreign Policy and National Identity in the 21st Century Kenneth Christie, 2009 Examines the complex relationship between United States foreign policy and American

national identity as it has changed from the post cold war period through the defining moment of 9 11 and into the 21st century Starting with a discussion of notions of American identity in an historical sense the contributors go on to examine the most central issues in US foreign policy and their impact on national identity including the end of the Cold War the rise of neo conservatism ideas of US Empire and the influence of the War on Terror The book sheds significant new light on the continuities and discontinuities in the relationship of US identity to foreign policy Handbook on Democracy and Security Nicholas A. Seltzer, Steven L. Wilson, 2023-01-06 The Handbook on Democracy and Security offers an insightful new interpretation of the topic that reframes the contemporary challenge of democracy away from competing ideologies or external existential threats and centres on the security of democracy in the minds and lived experience of its citizens

Civilization And Governance: The Western And Non-western World Boy Luethje, 2022-11-08 The rapid rise of emerging economies has produced deep ranging changes in the global order during recent decades At the beginning of the twenty first century the bipolar confrontation of the Cold War seemed to be replaced by a universalized model of political liberalism and economic neo liberalism In recent years however rising nationalism and protectionism indicate the end of unfettered globalization a looming crisis of liberal democracy and a return to ideologies of systemic competition especially vis a vis China Against this background this volume takes a fresh look at the evolution of governance models in Western and non Western civilizations Africa India China and the Muslim world in particular These models have been largely self contained and without intensive interaction for a long time In the wake of globalization systems ideologies and political values have become part of global discourse eventually turning into what Samuel Huntington called a clash of civilizations The chapters in this volume offer perspectives on the diversity of civilizations of governance as a base for a new multilateralism in the global context The contributions explore relevant theoretical concepts of transnational governance law and multiple modernity The empirical focus is on analyzing different governance systems in non Western civilizations and Europe including national states and transnational institutions traditions and networks The volume assembles papers presented at the 2019 International Conference of the Institute of Public Policy at South China University of Technology in Guangzhou China The contributions and the introductory framework have been updated to reflect the unexpected and unprecedented challenges from the coronavirus pandemic and the related economic and social crises *Foreign Pressure and the Politics of Autocratic Survival* Abel Escribà-Folch, Joseph Wright, 2015-09-17 Can coercive foreign policy destabilize autocratic regimes Can democracy be promoted from abroad This book examines how foreign policy tools such as aid economic sanctions human rights shaming and prosecutions and military intervention influence the survival of autocratic regimes Foreign pressure destabilizes autocracies through three mechanisms limiting the regime s capacity to maintain support undermining its repressive capacity and altering the expected utility of stepping down for political elites Foreign Pressure and the Politics of Autocratic Survival distinguishes between three types of autocracies personalist rule party based regimes

and military dictatorships These distinct institutional settings influence the dictators strategies for surviving in power as well as the propensity with which their leaders are punished after a regime transition Consequently the influence of foreign pressure varies across autocratic regime types Further the authors show that when foreign coercion destabilizes an autocracy this does not always lead to democratic regime change because different regimes breakdown in distinct ways While democratization is often equated with the demise of autocratic rule it is just one possible outcome after an autocratic regime collapses Many times instead of democratization externally induced regime collapse means that a new dictatorship replaces the old one This theory is tested against an extensive analysis of all dictatorships since 1946 and historical cases which trace the causal process in instances where foreign policy tools helped oust dictatorships Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford

Conflict Prevention and Peace-building in Post-War Societies T. David Mason, James D. Meernik, 2006-05-02 This volume provides an overview of the costs benefits consequences and prospects for rebuilding nations emerging from violent conflict The rationale for this comes from the growing realization that in the post Cold War era and in the aftermath of 9 11 our understanding of conflict and conflict resolution has to include consideration of the conditions conducive to sustaining the peace in nations torn by civil war or interstate conflict The chapters analyze the prospects for building a sustainable peace from a number of different perspectives examining the role of economic development democratization respect for human rights the potential for renewal of conflict the United Nations and other critical topics In an age when nation building is once again on the international agenda and scholars as well as policy makers realize both the tremendous costs and benefits in fostering developed democratic peaceful and secure nations the time has truly come for a book that integrates all the facets of this important subject Conflict Prevention and Peace building in Post War Societies will appeal to students and scholars of peace studies international relations security studies and conflict resolution as well as policy makers and analysts

International Intervention and State-making Selver B. Sahin, 2015-07-16 This book analyses the changing dynamics of sovereignty resulting from contemporary international state building interventions It aims to highlight how the exercise of exceptional forms of power by intervening agencies impacts on the sovereign capacity of intervened states Drawing upon in depth analyses of three case studies Kosovo East Timor and the Kurdistan Regional Government the book shifts the focus of the debate to the nature of contemporary intervention as an act of statemaking and argues that foreign intervention changes the dynamics of political power upon which sovereignty is structured At the same time it reveals how intervention reproduces the imposed conditions of international state making thus permanently internalising external

regulatory mechanisms International intervention in other words becomes the constitutive element of governance in the newly created state This book will be of much interest to students of statebuilding war and conflict studies global governance security studies and IR *Beyond International Intervention* Katarina Kušić, 2025-03-27 Studies of statebuilding and peacebuilding have been criticized for their disregard of people living the consequences of intervention projects *Beyond International Intervention* takes on the task of engaging with spaces and peoples not usually present in IR scholarship to rethink the very concept of intervention by paying close attention to how people actually experience and make sense of those efforts In particular the book offers a detailed engagement with ethnographic fieldwork in two policy areas in Serbia agricultural policy and non formal youth education By engaging with subjects the book not only enhances our understanding of intervention but also uncovers the limitations of the concept Katarina Kušić argues that the concept limits what we can observe and theorize and it prevents researchers from engaging with the people living in spaces of intervention as coeval political subjects As an alternative she proposes to foreground improvement over intervention This reorientation enables researchers to trace hierarchies beyond the local international dichotomy expands fields of visibility beyond those prescribed by interventions themselves and seriously considers the contradictions at the heart of liberalism Democratic Vanguardism Michael Harland, 2013-10-24 The terrorist attacks of September 11 2001 transformed the way in which Americans and their leaders viewed the world The tragic events of that day helped give rise to a foreign policy strategy commonly referred to as the Bush Doctrine At the heart of this doctrine lie a series of claims about the need to encourage liberal democracy as the antidote to jihadist terrorism President George W Bush proclaimed in a variety of addresses that democracy now represented the single surviving model of political life to which all people aspired In the course of making this argument President Bush linked his policies to an overarching teleology of progress This discourse suggested that the United States might use force to hasten the emergence of liberal norms and institutions in rogue states With a sense of irony some commentators soon referred to the Bush administration's position as Leninist because of its determination to bring about the so called end of history today Yet surprisingly these critics had little more to add This book assesses in greater depth the Bush administration's claim to comprehend the purpose of historical progress Developing a concept termed democratic vanguardism this study investigates the idea of liberal modernity the role of the United States as a force for democracy and the implications of using military intervention in the service of idealistic ends It examines disputes among political theorists public intellectuals and elected statesmen that help to enrich our understanding of the United States efforts under President Bush to bend history to its will **Challenges for America in the Middle East** Richard W. Mansbach, Kirsten L. Taylor, 2016-03-31 *Challenges for America in the Middle East* offers a comprehensive and contemporary analysis of the foreign policy challenges the United States faces in the Middle East It takes a close look at the critical policy dilemmas posed by radical Islam the Arab Spring the Shia Crescent and Israel Palestine relations Authors Richard W

Mansbach and Kirsten L Taylor examine the issues from a historical perspective and in the context of the current state of affairs and analyze options for future action Throughout the text they emphasize the interplay of foreign and domestic issues in the United States and overseas and show how that interplay shapes American policy towards the region *Unsettling the World* Jeanne Morefield,2022-04-29 *Unsettling the World* is the first book length treatment of Edward Said s influential cultural criticism from the perspective of a political theorist Arguing that the generative power of Said s thought extends well beyond *Orientalism* the book explores Said s writings on the experience of exile the practice of contrapuntal criticism and the illuminating potential of worldly humanism Said s critical vision Morefield argues provides a fresh perspective on debates in political theory about subjectivity global justice identity and the history of political thought Most importantly she maintains Said s approach offers theorists a model of how to bring the insights developed through historical analyses of imperialism and anti colonialism to bear on critiques of contemporary global crises and the politics of American foreign policy Comic Democracies Angus Fletcher,2016-06-05 Invites its readers to note the leaders and people who are willing and able to laugh with and at themselves Our political life may depend upon it The Review of Politics For two thousand years democratic authors treated comedy as a toolkit of rhetorical practices for encouraging problem solving pluralism risk taking and other civic behaviors that increased minority participation in government Over the past two centuries this pragmatic approach to extending the franchise has been displaced by more idealistic democratic philosophies that focus instead on promoting liberal principles and human rights But in the wake of the recent democracy recession in the Middle East the Third World and the West itself there has been renewed interest in finding practical sources of popular rule *Comic Democracies* joins in the search by exploring the value of the old comic tools for growing democracy today Drawing on new empirical research from the political and cognitive sciences Angus Fletcher deftly analyzes the narrative elements of two dozen stage plays novels romances histories and operas written by such authors as Aristophanes Menander Plautus Ariosto Machiavelli Cervantes Shakespeare Ben Jonson William Congreve John Gay Henry Fielding and Washington Irving He unearths five comic techniques used to foster democratic behaviors in antiquity and the Renaissance then traces the role of these techniques in Tom Paine s *Common Sense* Jefferson s preamble to the Declaration of Independence Washington s farewell address Mercy Otis Warren s federalist history of the Revolution Frederick Douglass s abolitionist orations and other documents that played a pivotal role in the development of the American Republic After recovering these lost chapters of our democratic past *Comic Democracies* concludes with a draft for the future using the old methods of comedy to envision a modern democracy rooted in the diversity ingenuity and power of popular art Fletcher s main theory is convincing and will open up new fields of inquiry This accessible work is for those interested in political science cultural history and comic theory as well as classical literature Choice **United States and Pakistan in the 21st Century** Syed Tahseen Raza,2020-11-11 This book historically maps and examines the evolving contemporary geostrategic and geopolitical imperatives of the United

States within Pakistan and the South Asian region especially after September 11 2001 It offers a detailed and theoretical account of the rapidly changing context of US foreign policy towards Pakistan after 2001 The history of the US Pakistan relationship has been a complex and inscrutable mix of cooperation and conflict has turned even more challenging after 9 11 This book covers the latest developments and relevant themes from world politics as it discusses the impact of the unprecedented rise in religious extremism in Pakistan stemming from the US War on Terror as well as Pakistan's economic vulnerability and military dictatorship India's offer to support the US in its war in Afghanistan Pakistan's nuclear capability and the US administration's decision to end financial aid to Pakistan The study highlights the fact that from the receding of British influence in the region through the Cold War and post Cold War phases to the post 9 11 period US South Asia policy has been informed by the theoretical paradigm of the grand strategy of primacy This topical book will be useful to scholars and researchers of international relations politics political studies strategic and defence studies security and peace studies foreign policy area studies and South Asian studies It will also interest diplomats politicians policymakers security experts journalists and think tanks interested in India Pakistan and the United States on issues of international politics world affairs and terrorism

America's War on Terror Jason Ralph, 2013-04-25 Following 9 11 the United States faced a situation of exceptional insecurity In that period the Bush administration argued that certain international norms did not apply to US conduct Its argument was underpinned by the claim that the United States was in a state of armed conflict or war with a new kind of enemy The purpose of this book is to examine whether this approach outlasted the moment of insecurity that gave rise to it More than a decade on from those attacks and following a change of administration what influence do these arguments have on American policy To answer this question it focuses on four areas of policy the use of force and the prosecution detention and interrogation of suspected terrorists It demonstrates how the Bush policy programme was contested by liberals and realists from the outset Any expectation that the war on terror would end following the election of President Obama has however proven unfounded Obama consolidated the liberal pushback against aspects of the Bush programme but the US has continued to argue a state of armed conflict exists The scope of the battlefield and the definition of the enemy has been a source of intense debate but the fact that the Guantanamo Bay detention facility remained open long after the President promised to close it is indicative of the underlying continuity It is argued that this is driven in part by domestic politics and in part by an understanding of how the terrorist threat is evolving

The Routledge International Handbook of Education, Religion and Values James Arthur, Terence Lovat, 2013-08-21 The academic fields of religion and values have become the focus of renewed interest in contemporary thinking about human activity and its motivations The Routledge International Handbook of Education Religion and Values explores and expands upon a range of international research related to this revival The book provides an authoritative overview of global issues in religion and values surveying the state of the academic area in contributions covering a wide range of topics It includes emerging controversial and cutting

edge contributions as well as investigations into more established areas International authorities Arthur and Lovat have brought together experts from across the world to examine the complexity of the field of study The handbook is organised around four key topics which focus on both the importance of religion and values as broad fields of human enquiry as well as in their application to education inter agency work and cross cultural endeavours The Conceptual World of Religion and Values Religion and Values in Education Religion and Values in Inter agency Work Religion and Values in Cross cultural Work This comprehensive reference work combines theoretical and empirical research of international significance and will be valuable reading for students researchers and academics in the field of education

American Defense Policy Miriam Krieger, Lynne Chandler Garcia, John Riley, Will Atkins, 2021-08-10 A vital text for understanding the twenty first century battlefield and the shifting force structure this book prepares students to think critically about the rapidly changing world they ll inherit American Defense Policy first published in 1965 under the leadership of Brent Scowcroft has been a mainstay in courses on political science international relations military affairs and American national security for more than 50 years This updated and thoroughly revised ninth edition which contains about 30% all new content considers questions of continuity and change in America s defense policy in the face of a global climate beset by geopolitical tensions rapid technological change and terrorist violence The book is organized into three parts Part I examines the theories and strategies that shape America s approach to security policy Part II dives inside the defense policy process exploring the evolution of contemporary civil military relations the changing character of the profession of arms and the issues and debates in the budgeting organizing and equipping process Part III examines how purpose and process translate into American defense policy This invaluable and prudent text remains a classic introduction to the vital security issues the United States has faced throughout its history It breaks new ground as a thoughtful and comprehensive starting point to understand American defense policy and its role in the world today Contributors Gordon Adams John R Allen Will Atkins Deborah D Avant Michael Barnett Sally Baron Jeff J S Black Jessica Blankshain Hal Brands Ben Buchanan Dale C Copeland Everett Carl Dolman Jeffrey Donnithorne Daniel W Drezner Colin Dueck Eric Edelman Martha Finnemore Lawrence Freedman Francis Fukuyama Michael D Gambone Lynne Chandler Garcia Bishop Garrison Erik Gartzke Mauro Gilli Robert Gilpin T X Hammes Michael C Horowitz G John Ikenberry Bruce D Jones Tim Kane Cheryl A Kearney David Kilcullen Michael P Kreuzer Miriam Krieger Seth Lazar Keir A Lieber Conway Lin Jon R Lindsay Austin Long Joseph S Lupa Jr Megan H MacKenzie Mike J Mazarr Senator John McCain Daniel H McCauley Michael E McInerney Christopher D Miller James N Miller John A Nagl Henry R Nau Ren e de Nevers Joseph S Nye Jr Michael E O Hanlon Mancur Olson Jr Sue Payton Daryl G Press Thomas Rid John Riley David Sacko Brandon D Smith James M Smith Don M Snider Sir Hew Strachan Michael Wesley Richard Zeckhauser

The Lost Peace Richard Sakwa, 2023-01-01 The end of the Cold War was an opportunity our inability to seize it has led to today s renewed era of great power competition An eloquent and persuasive argument about how the world squandered the promise

of the end of the Cold War Maria Lipman Foreign Affairs The year 1989 heralded a unique prospect for an enduring global peace as harsh ideological divisions and conflicts began to be resolved Now three decades on that peace has been lost With war in Ukraine and increasing tensions between China Russia and the West great power politics once again dominates the world stage But could it have been different Richard Sakwa shows how the years before the first mass invasion of Ukraine represented a hiatus in conflict rather than a lasting accord and how since then we have been in a Second Cold War Tracing the mistakes on both sides that led to the current crisis Sakwa considers the resurgence of China and Russia and the disruptions and ambitions of the liberal order that opened up catastrophic new lines of conflict This is a vital strongly argued account of how the world lost its chance at peace and instead saw the return of war in Europe global rivalries and nuclear brinksmanship

International Law, Necropolitics, and Arab Lives Khaled Al-Kassimi, 2022-10-27 International Relations and International Law continue to be accented by epistemic violence by naturalizing a separation between law and morality What does such positivist juridical ethos make possible when considering that both disciplines reify a secular immanent ontology International Law Necropolitics and Arab Lives emphasizes that positivist jurisprudence re conquered Arabia by subjugating Arab life to the power of death using extrajudicial techniques of violence seeking the implementation of a New Middle East that is no longer resistant to Latin European modernity but amenable to such exclusionary telos The monograph goes beyond the limited remonstrance asserting that the problem with both disciplines is that they are primarily Eurocentric Rather the epistemic inquiry uncovers that legalizing necropower is necessary for the temporal coherence of secular modernity since a humanitarian logic masks sovereignty inherently being necropolitical by categorizing Arab Islamic epistemology as an internal external enemy from which nationalist citizenship must be defended This creates a sense of danger around which to unite modern epistemology whilst reinforcing the purity of a particular ontology at the expense of banning and de humanizing a supposed impure Arab refugee This book will be of interest to graduate students scholars and finally practitioners of international relations political theory philosophical theology and legal theory

Reviewing **Liberal Interventionism And Democracy Promotion**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is truly astonishing.
