Liberation Ethics Thomas Louis Schubeck,1993-01-01 Thoroughly researched critically reasoned and well written Schubeck s book is a model of caring and careful discernment Arthur McGovernUniversity of Detroit [Ethics of Liberation](#) Enrique Dussel,2013-02-08 Available in English for the first time a masterwork by Enrique Dussel one of the world s foremost philosophers and a cornerstone of the philosophy of liberation which he helped to found and develop *Enrique Dussel's Ethics of Liberation* Frederick B. Mills,2018-08-20 This book introduces the methodology and basic concepts of Dussel s ethics of liberation Enrique Dussel is one of the principal founders of the philosophy of liberation in Latin America Frederick B Mills discusses how for Dussel we can realize our co responsibility for human life by responding in accord with ethical principles to the appeals of victims of the prevailing capital system Mills shows how these principles when subsumed in the political and economic fields aim at overcoming the ongoing assault on human life and nature and provide a moral compass for forging a path to liberation He makes the case that the study of Dussel is critical to the understanding of liberatory thought in Latin America today This book aims to introduce the ethics of liberation to a broader audience in the Global North where Dussel s ideas are urgently relevant to progressive political and economic theory and praxis **Liberation Ethics** Gérard Fourez,1982 **Ethics and the Theology of Liberation** Enrique D. Dussel,1978 **The Ethics of Liberation--the Liberation of Ethics** Dietmar Mieth,Jacques Marie Pohier,1984 Concilium has long been a household name for cutting edge critical and constructive theological thinking Past contributors include leading Catholic scholars such as Hans K ng Gregory Baum and Edward Schillebeeckx and the editors of the review belong to the international who s who in the world of contemporary theology Published five times a year each issue reflects a deep knowledge and scholarship presented in a highly readable style and each issue offers a wide variety of viewpoints from leading thinkers from all over the world *Ethics and Liberation* Charles L. Kammer,2002-12-26 The introduction to the nature and purpose of Christian ethics presents an ethical theory consistent with the fundamental insights of the Christian tradition Ethics and Liberation outlines an ethic which provides guidelines for responsible stands on contemporary issues be they personal or socio political Exploring both the strengths and weaknesses of traditional Christian ethics Kammer proposes going beyond them to an ethic of theonomous responsibility one based on the precepts of liberation theology Stressing the socio political dimension of ethics Kammer follows the threads of Christian tradition that led to an emphasis on personal salvation and a neglect of social issues Finally he traces the path from Christian realism through liberation theology Ethics and Liberation concludes with a discussion of two serious test cases in contemporary moral issues the distribution of health care and nuclear disarmament **Beyond Philosophy** Enrique Dussel,2003-10-22 Enrique Ambrosini Dussel is and has been one of the most prolific Latin American philosophers of the last 100 years He has written over fifty books and over three hundred articles ranging over the history of the Latin American philosophy political philosophy church history theology ethics and occasional pieces on the

state of Latin American countries Dussel is first and foremost a moral philosopher a philosopher of liberation But for him philosophy must be liberated so that it may contribute to social liberation In one sense beyond philosophy means to go beyond contemporary academicized professionalized and civilized philosophy by turning to all that demystifies the autonomy of philosophy and turns our attention to its sources Beyond philosophy also means to go beyond philosophy in the Marxian sense of abolishing philosophy by realizing it This is the definitive English language collection of Dussel s enormous body of work It will allow the reader to get a good sense of the breath and depth of Dussel s opus covering four major areas ethics economics history and liberation theology **Routledge Encyclopedia of Philosophy** Edward Craig,1998 Volume five of a ten volume set which provides full and detailed coverage of all aspects of philosophy including information on how philosophy is practiced in different countries who the most influential philosophers were and what the basic concepts are

Liberation Ethics John M. Swomley (Jr.),1972 **Thinking from the Underside of History** Linda Martín

Alcoff,Eduardo Mendieta,2000-07-08 Enrique Dussel s writings span the theology of liberation critiques of discourse ethics evaluations of Marx Levinas Habermas and others but most importantly the development of a philosophy written from the underside of Eurocentric modernist teleologies an ethics of the impoverished and the articulation of a unique Latin American theoretical perspective This anthology of original articles by U S philosophers elucidating Dussel s thought offers critical analyses from a variety of perspectives including feminist ones Also included is an essay by Dussel that responds to these essays *Fundamental Ethics* Patricia McAuliffe,1993 In this stimulating rethinking of the basic foundations of ethics Patricia McAuliffe derives a fundamental ethic from liberation theology She asserts that the experience of resisting suffering especially oppressive social suffering must be brought from the fringe to the very center of ethics Arguing for the conceptual priority of ethics over religion McAuliffe defines an innovative ethic based on experience and practice Ethics precedes religion and theology because experience and practice precede theory and interpretation which are the human activities of religion and theology knowledge is based on experience She proposes that ethics can be independent of religion but that while her liberationist ethic can be either Christian or universal finally the poor and oppressed are the paradigm source of the disclosure of God and of final salvation In rethinking the basic foundations of ethics she compares a liberationist ethic including Latin American and women s liberation theology with various classical ethics and examines and critiques the works of Edward Schillebeeckx Juan Luis Segundo Dorothee Soelle James Gustafson and George Lindbeck McAuliffe offers a flexible ethic that balances the absolute and the relative the particular and the universal personal and social creativity and conditioning practice and theory and the ethical and religious Combining superior scholarship with an original and creative approach to ethics this book is likely to create debate in the fields of fundamental ethics theology and philosophy **The Cambridge Companion to Christian Ethics** Robin Gill,2011-11-24 In this second edition of the best selling Cambridge Companion to Christian Ethics Robin Gill brings together twenty essays by leading experts to provide a comprehensive

Philosophy of Liberation Enrique Dussel, 2003-12-02 Argentinean philosopher theologian and historian Enrique Dussel understands the present international order as divided into the culture of the center by which he means the ruling elite of Europe North America and Russia and the peoples of the periphery by which he means the populations of Latin America Africa and part of Asia and the oppressed classes including women and children throughout the world In *Philosophy of Liberation* he presents a profound analysis of the alienation of peripheral peoples resulting from the imperialism of the center for more than five centuries Dussel's aim is to demonstrate that the center's historic cultural military and economic domination of poor countries is philosophically founded on North Atlantic ontology By expressing supposedly universal knowledge European philosophies argue Dussel have served to equate the cultural standards modes of behavior and rationalistic orientation of the West with human nature and to condemn the unique characteristics of peripheral peoples as nonbeing nothing chaos irrationality Hence Western philosophies have historically legitimated and hidden the domination that oppressed cultures have suffered at the hands of the center Dussel probes multinational corporations the communications media and the armies of the center with their counterparts among the Third World elite The creation of a just world order in the future according to Dussel hinges on the liberation of the periphery based on a philosophy that is able to think the world from the perspective of the poor and to reclaim the Third World's distinct cultural inheritance which is imbedded in the popular cultures of the poor Apart from the liberation of the periphery there will be no future the center will feed itself on the sameness it has ingrained within itself The death of the child of the poor will be its own death This is a disquieting but stimulating book for scholars and advanced students of philosophy ethics liberation theology and global politics

Ethics without Principles Roy H. May, 2015-10-21 *Ethics in the West* too often equates morality with universal moral principles thus imposing lifestyles and moral criteria that do not respect differences and local histories Even Christianity proposes ethics that is based on eternal absolute and universal truths or principles independent of sociocultural and historical contexts The problem is that these universal moral laws become a means of social control to exclude those who are different non-Christian religions nonwhite races non-Western

cultures and poor and marginalized social classes everywhere To these can be added minorities marginalized because of sexual orientation physical handicaps and women of all sectors and cultures Another kind of ethics is urgent For these reasons Christians in Latin America and other parts are seeking innovative ways of envisioning ethics from their marginalized and discriminated social locations in order to find another possible ethics an ethics that is not universal and not based on eternal truths or principles but rather is contextual and historical and that takes into account real life realities Only an ethics that does this will be liberative Important steps toward this other possible ethics have been taken by the theology of liberation by developing a contextual and intercultural morality *God, Being and Liberation* Carlyle Fielding Stewart,1989

Feminism in the Study of Religion Darlene Juschka,2001-08-02 Written by feminist scholars over a period of nearly thirty years the selected readings are wide ranging in content offer a multi ethnic and multi cultural perspective and reflect the work of scholars working within religious studies as well as other disciplines The introductory essays link the sections and are packed with useful information on resources issues and the current debates The book illustrates how debates about feminism within the study of religions have been impacted by broader theoretical discussions and provides evidence that feminist scholars working on religion have made their own contribution to feminist theory **Cultural Policy and Cultural Industries in Africa** Last Moyo,2024-06-20 This book argues for the reconstitution of the cultural in African cultural industries and societies It posits that African cultural industries face a deep seated problem of the crisis of normativity that is largely rooted in the colonality of modern cultural policy and an unconscious but pervasive anti Black racism culture in the continent itself The book places hope for re animating African agency and national cultural identities in the decolonization of cultural policy and cultural industries as consciousness industries Only through relevant cultural policy a higher order cross institutional moral and ethical value system for reconstituting the cultural in post colonies can Africa build truly democratic progressive cosmopolitan decolonized and self respecting citizens and societies Using decolonial cultural policy studies the book develops a decolonial cultural critique that locates African culture industries within the racialized power dynamics of capitalist modernity It explores the decolonization praxis of cultural industries and acknowledges the complexity of cultural decolonization initiatives in a continent that is so diverse interconnected globalized and facing newer modes of colonialism that are aggressive and covert *A New Moral Order* Denis Goulet,1974
