Liberty State And Union The Political Theory Of Thomas Jefferson:

Liberty, State & Union Luigi Marco Bassani, 2010 Examines the political ideals of Thomas Jefferson discussing his views on the rights of man and state's rights and describing the political theory that guided Jefferson's decisions as the nation's third president

The Political Theory of the American Founding Thomas G. West, 2017-04-03 This book provides a complete overview of the Founders' natural rights theory and its policy implications

The American Counter-Revolution in Favor of Liberty Ivan Jankovic, 2018-12-12 This book presents the case that the origins of American liberty should not be sought in the constitutional reformist feats of its statesmen during the 1780s but rather in the political and social resistance to their efforts. There were two revolutions occurring in the late 18th century America: the modern European revolution in favour of government pursuing national unity, energetic government and centralization of power, what scholars usually dub American founding; and a conservative reactionary counter-revolution in favour of liberty, defending local rights and liberal individualism against the encroaching political authority. This is a book about this liberal counter-revolution and its ideological, political and cultural sources and central protagonists. The central analytical argument of the book is that America before the Revolution was a stateless, spontaneous political order that evolved culturally, politically and economically in isolation from the modern European trends of state building and centralization of power. The book argues then that a better model for understanding America is a decoupled modernization hypothesis in which social modernity is divested from the politics of modern state and tied with the pre-modern social institutions

Nullification Thomas E. Woods, 2010-06-28 Citizens across the country are fed up with the politicians in Washington telling us how to live our lives and then sticking us with the bill. But what can we do? Actually, we can just say no. As New York Times bestselling author Thomas E. Woods Jr explains, nullification allows states to reject unconstitutional federal laws. For many tea partiers nationwide, nullification is rapidly becoming the only way to stop an over-reaching government drunk on power. From privacy to national healthcare, Woods shows how this growing and popular movement is sweeping across America and empowering states to take action against Obama's socialist policies and big government agenda

Politics on a Human Scale Jeff Taylor, 2013-09-27 Featuring a foreword by Congressman Glen Browder, *Politics on a Human Scale* examines political decentralization in the United States from the founding of the republic to the present. Part of the desirable equilibrium is a sense of proportionality. Some sizes, some amounts, some levels are more appropriate than others. Decentralism is the best political tool to ensure equilibrium, to promote proportionality and to obtain appropriate scale. Power distribution should be as wide as possible. Government functions should be as close to the people as practicable. In this way, individual human beings are not swallowed by a monstrous Leviathan. Persons are not at the mercy of an impersonal bureaucracy led by the far away few. Decentralism gives us politics on a human scale. It gives us more democracy within the framework of a republic. The longest chapters in the book deal with crucial turning points in U.S. history, specifically when decentralists lost the upper hand in the two major

political parties Decentralism in our nation runs deep both intellectually and historically It also has considerable popular support Yet today it is a virtual political orphan In Washington neither major political party is serious about dispersing power to lower levels of government or to the people themselves Still there are dissident politicians and political movements that remain committed to the decentralist principle Power needs to be held in check partly through decentralization because power holds a great and dangerous attraction for humans Recognition of this human tendency is the first step in guarding against it and getting back on a better path

Principled Action James D. Best, 2012-03 Prior to 1776 world history was primarily written about kings and emperors The American experiment shook the world Not only did the colonies break away from the biggest and most powerful empire in history but they also took the musings of the brightest thinkers of the Enlightenment and implemented them The founding of the United States was simultaneously an armed rebellion against tyranny and a revolution of ideas ideas that changed the course of world history

The Whigs' America Joseph W. Pearson, 2020-09-01 Passionate political disagreement is as old as the American Republic and the antebellum era the thirty years before the Civil War was as rife with partisan discord as any in our history From 1834 to 1856 the Whigs battled their opponents the Jacksonian Democrats for offices prestige and power The partisan expression of America's rising middle class the Whigs boasted such famous members as Henry Clay Daniel Webster and William Henry Seward and the party supported tariffs banks internal improvements moral reform and public education In *The Whigs' America* Joseph W. Pearson explores a variety of topics including the Whigs' understanding of the role of the individual in American politics their perceptions of political power and the rule of law and their impressions of the past and what should be learned from history Long dismissed as a party bereft of ideas Pearson provides a counterbalance to this trend through an attentive examination of writings from party leaders contemporaneous newspapers and other sources Throughout he shows that the party attracted optimistic Americans seeking achievement community and meaning through collaborative effort and self control in a world growing more and more impersonal Pearson effectively demonstrates that while the Whigs never achieved the electoral success of their opponents they were rich with ideas His detailed study adds complexity and nuance to the history of the antebellum era by illuminating significant aspects of a deeply felt shared culture that informed and shaped a changing nation

The Virginia Quarterly Review, 2013

A Political History of the State of New York, Volumes 1-3 De Alva Stanwood Alexander, 2019-12-04 In *A Political History of the State of New York Volumes 1-3* De Alva Stanwood Alexander provides a comprehensive examination of New York's political evolution from its colonial origins to the late 19th century The work is characterized by its meticulous attention to detail and narrative style that harmoniously blends analytical rigor with vivid storytelling Alexander's exploration of political parties influential figures and pivotal events situates New York within the broader American political landscape reflecting the state's unique role in shaping national policy Through thorough research and contextual analysis the volumes serve as an invaluable resource for historians and political scientists alike capturing the

complexities of governance in a rapidly changing society De Alva Stanwood Alexander a historian and politician of the late 19th century was profoundly influenced by his experiences in New York's political landscape His academic background including studies at Harvard fueled his passion for understanding the intricate dynamics of state politics Alexander's firsthand observations of political discourse and contention during a transformative period in American history uniquely positioned him to craft a narrative that is both informative and engaging drawing on his extensive research and personal insights This seminal work is a must read for anyone interested in the political history of New York or American politics at large Alexander's passionate storytelling and rigorous scholarship provide a profound understanding of how political forces shaped societal change Scholars students and casual readers alike will find themselves immersed in a narrative that not only informs but also captivates making this history an essential addition to any library

Political Theory Scott John

Hammond,2008-11-30 Liberty Justice Nature Law First formulated millennia ago by the founding philosophers of the Western tradition these basic concepts of human thought remain central to our conception of ourselves our place in the world and our relationships with others that is our politics Readers encountering such broad political concepts their practical expressions in political movements and systems of government the ideas of influential ancient and modern political thinkers or simply familiar or unfamiliar catchphrases for which they would like a succinct yet informative explanation will welcome this accessible encyclopedic guide The major political concepts themes issues movements groups and schools that have developed over time and shaped our modern world appear here in all their diversity along with biographical entries and articles on the principal works of political theorists from Plato to John Rawls Further serious students and browsers alike will delight in the numerous entries on familiar quotations and political catchphrases from the banality of evil and Big Brother to the war of all against all

Progressive Liberalism and Neoliberalism in American Politics Riley Clare

Valentine,2024-10-28 This book examines twentieth and twenty first century American political discourse through the framework of progressive liberalism and neoliberalism Progressive liberalism and neoliberalism as forms of normative reason redefine specific political concepts which are central to American liberalism equality liberty the role of the state and the pursuit of happiness Language is how political reason and the norms accompanying it are expressed The text moves through Presidents Franklin Delano Roosevelt to Barack Obama exploring shifts in language and interpretations of political concepts through progressive liberal and neoliberal forms of normative reason A tension emerges between progressive liberalism and neoliberalism and a heterodoxy emerges The heterodoxy we find ourselves in continues the problem that is foundational to American liberalism itself liberalism is inherently a theory and discourse of rights not of need Because of this no form of liberalism can appropriately respond to human needs from a standpoint that is not informed by having a right to or a right from

International Origins of Social and Political Theory Tarak Barkawi,George Lawson,2017-04-12 This special

issue is animated by the necessary entanglement of theory and history the cortical relationship between theory and practice

and the transboundary relations that help to constitute systems of thought and practice

History of Political Theory: An Introduction George Klosko, 2013-02-08 History of Political Theory An Introduction not only explores the great works of Western political theory but demonstrates their continuing relevance Volume II traces the origin and development of liberal political theory and so the foundations for contemporary views The work provides a readable scholarly introduction to the great figures in Western political theory from Hobbes to Marx Major theorists examined include Hobbes Locke Hume Montesquieu Rousseau Burke Mill and Marx not only major figures in the liberal tradition but liberal political theory's most important critics Theorists are examined in their historical contexts with extensive quotations allowing them to speak for themselves Central concepts employed in their works are carefully examined with special attention to both how they fit together to form coherent theories and how they bear on issues of contemporary concern Major concepts examined include freedom rights political obligation and revolution Emphasizing depth rather than breadth this work is an ideal introduction tool for instructors who have been searching for a text that combines careful exposition of important political theorists and clear critical analysis

The Mormon Question Sarah Barringer Gordon, 2003-01-14 From the Mormon Church's public announcement of its sanction of polygamy in 1852 until its formal decision to abandon the practice in 1890 people on both sides of the Mormon question debated central questions of constitutional law Did principles of religious freedom and local self government protect Mormons claim to a distinct religiously based legal order Or was polygamy as its opponents claimed a new form of slavery this time for white women in Utah And did constitutional principles dictate that democracy and true liberty were founded on separation of church and state As Sarah Barringer Gordon shows the answers to these questions finally yielded an apparent victory for antipolygamists in the late nineteenth century but only after decades of argument litigation and open conflict Victory came at a price as attention and national resources poured into Utah in the late 1870s and 1880s antipolygamists turned more and more to coercion and punishment in the name of freedom They also left a legacy in constitutional law and political theory that still governs our treatment of religious life Americans are free to believe but they may well not be free to act on their beliefs

States' Rights and the Union Forrest McDonald, 2000 As McDonald shows that concept needs to be examined if we are to understand its implications for current and future debates

BOOK JACKET The American Revolution, State Sovereignty, and the American Constitutional Settlement, 1765-1800 Aaron N. Coleman, 2016-03-04 Tracing the political ideological and constitutional arguments from the imperial crisis with Britain and the drafting of the Articles of Confederation to the ratification of the Constitution and the political conflict between Federalists and Jeffersonians The American Revolution State Sovereignty and the American Constitutional Settlement 1765-1800 reveals the largely forgotten importance of state sovereignty to American constitutionalism Contrary to modern popular perceptions and works by other academics the Founding Fathers did not establish a constitutional system based upon a national popular sovereignty nor a powerful national government designed to fulfill a grand philosophical purpose Instead

most Americans throughout the period maintained that a constitutional order based upon the sovereignty of states best protected and preserved liberty Enshrining their preference for state sovereignty in Article II of the Articles of Confederation and in the Tenth and Eleventh Amendments to the federal constitution Americans also claimed that state interposition the idea that the states should intervene against any perceived threats to liberty posed by centralization was an established and accepted element of state sovereignty

19 Previous Year NDA/ NA English & General Knowledge Topic-wise Solved Papers Phase I & II (2006 - 2024) 5th Edition | 35 Authentic General Ability Test Papers | 5250 MCQs Disha Experts,2024-10-22 The 5th updated edition of the book 19 Previous Year NDA NA English General Knowledge Topic wise Solved Papers 2006 2024 contains 37 Question papers of Mathematics held from April 2006 to September 2024 The complete syllabus of NDA NA is divided into 32 Topics English 8 Topics General Knowledge 24 Topics The Book consists of more than 5550 MCQs English 1850 MCQs General Knowledge 3700 MCQs distributed among 32 Topics The strength of the book lies in the originality of its question papers and Errorless Solutions The Book provides detailed step by step solutions to provide 100% concept clarity to the students
