The Making of Modern Japan Marius B. Jansen, 2009-07-01 Magisterial in vision sweeping in scope this monumental work presents a seamless account of Japanese society during the modern era from 1600 to the present A distillation of more than fifty years engagement with Japan and its history it is the crowning work of our leading interpreter of the modern Japanese experience Since 1600 Japan has undergone three periods of wrenching social and institutional change following the imposition of hegemonic order on feudal society by the Tokugawa shogun the opening of Japan s ports by Commodore Perry and defeat in World War II The Making of Modern Japan charts these changes the social engineering begun with the founding of the shogunate in 1600 the emergence of village and castle towns with consumer populations and the diffusion of samurai values in the culture Marius Jansen covers the making of the modern state the adaptation of Western models growing international trade the broadening opportunity in Japanese society with industrialization and the postwar occupation reforms imposed by General MacArthur Throughout the book gives voice to the individuals and views that have shaped the actions and beliefs of the Japanese with writers artists and thinkers as well as political leaders given their due The story this book tells though

marked by profound changes is also one of remarkable consistency in which continuities outweigh upheavals in the development of society and successive waves of outside influence have only served to strengthen a sense of what is unique and native to Japanese experience. The Making of Modern Japan takes us to the core of this experience as it illuminates one of the contemporary world's most compelling transformations.

The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University Hoover Institution on War, Revolution, and Peace, 1969 [Japanese Historians and the National Myths, 1600-1945](#) John S. Brownlee, 2011-11-01 Ancient tales tell of Japan's creation in the Age of the Gods and of Jinmu a direct descendant of the Sun Goddess and first emperor of the imperial line. These founding myths went unchallenged until Confucian scholars in the Tokugawa period initiated a reassessment of the ancient history of Japan. The application of Western theories of modern scientific history in the Meiji period further intensified the attacks on traditional beliefs. However, with the rise of ultranationalism following the Meiji Constitution of 1889, official state ideology insisted on the literal truth of these myths, and scholars who argued otherwise soon met with public hostility and government suppression. In Japanese Historians and the National Myths, John Brownlee examines how Japanese historians between 1600 and 1945 interpreted the ancient myths of their origins. These myths lay at the core of Japanese identity and provided legitimacy for the imperial state. Focusing on the theme of conflict and accommodation between scholars on one side and government and society on the other, Brownlee follows the historians' reactions to pressure and trends and their eventual understanding of history as a science in the service of the Japanese nation. This is the first comprehensive study of modern Japanese historians and their relationship to nationalism. It breaks new ground in its treatment of Japanese intellectual history and provides new insights into the development of Japan as a nation. Japanese Historians and the National Myths will prove invaluable to scholars of Japanese history on both sides of the Pacific as well as to those interested in political ideology, nationalism, censorship, and mythology.

Knowledge Production in Cold War Asia Yuka Tsuchiya Moriguchi, Shin Kawashima, Somei Kobayashi, 2025-04-01 From the end of the Second World War to the early 1970s, new paradigms began to form in academic, scientific, and professional knowledge in various disciplines and fields, not only in the United States but also in East Asia. Drawing on a wealth of archival documents from East Asia, Knowledge Production in Cold War Asia focuses on the building and rebuilding of these different forms of knowledge in or about East Asia during the first half of the Cold War. It explores how this newly constructed knowledge came to assume certain norms; professionals and bureaucrats of these countries tried to comply with and sometimes wrestled with. The essays within this collection explore a wide variety of this knowledge production: state-centered promotions of construction and normalization of knowledge; the ways in which non-state actors were involved in the construction and normalization of knowledge; and how individuals and groups who resisted or protested the hegemonic knowledge were constructed by state or non-state actors. A distinctive look at the Cold War through the research and perspectives of scholars from East Asia, Knowledge Production in Cold War Asia insightfully highlights the

role of knowledge production normalization and resistance in the Cold War era contributing to a fuller understanding of international relations

Malay Ideas on Development: From Feudal Lord to Capitalist Shahrudin Maaruf, 2022-12-06 Formally speaking the New Economy Policy had been replaced by the New Economic Order which had been promulgated in the name of liberalism Thus it may seem that the issues and concerns addressed by the book had been rendered irrelevant by the shift in policy Against such proposition I must say that my book addresses itself to the question of ideas principles and weltanschauung beyond mere policies and formality It is therefore too early in the day to conclude that the new liberalism has definitively replaced the New Economic Policy NEP as an era and ethos throwing into question the relevance of this book It may well turn out to be that the issues and concerns of the book transcend superficial policy changes in a more fundamental way Shahrudin Maaruf University of Malaya 15 April 2014 The sweep through the history of Malay political ideas which is to be encountered in Malay Ideas on Development from Feudal Lord to Capitalist a sweep achieved with analytic skill and clarity will stimulate new readers to seek more detailed examination of one targeted writer or another Creating such desire is an indication of the book s effectiveness Juxtaposing one thinker with another setting modern debate in the context of traditional political thought proposing categories or streams of political thinking capitalistic nationalism traditionalistic nationalism and so forth is the best possible way of promoting a greater interest in the history of Malay political thinking and not just as an academic enterprise Shahrudin Maaruf is one of a small handful of scholarly pioneers whose work has the capacity to enrich the quality of political debate in Malaysia Anthony Milner Basham Professor for Asian History Australian National University

〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇 : 田中 51-61 日本 (Japan),1992 The Warrior's Camera Stephen Prince,1999-11-14 The Japanese film director Akira Kurosawa who died at the age of 88 has been internationally acclaimed as a giant of world cinema Rashomon which won both the Venice Film Festival s grand prize and an Academy Award for best foreign language film helped ignite Western interest in the Japanese cinema Seven Samurai and Yojimbo remain enormously popular both in Japan and abroad In this newly revised and expanded edition of his study of Kurosawa s films Stephen Prince provides two new chapters that examine Kurosawa s remaining films placing him in the context of cinema history Prince also discusses how Kurosawa furnished a template for some well known Hollywood directors including Martin Scorsese Steven Spielberg and George Lucas Providing a new and comprehensive look at this master filmmaker The Warrior s Camera probes the complex visual structure of Kurosawa s work The book shows how Kurosawa attempted to symbolize on film a course of national development for post war Japan and it traces the ways that he tied his social visions to a dynamic system of visual and narrative forms The author analyzes Kurosawa s entire career and places the films in context by drawing on the director s autobiography a fascinating work that presents Kurosawa as a Kurosawa character and the story of his life as the kind of spiritual odyssey witnessed so often in his films After examining the development of Kurosawa s visual style in his early work The Warrior s Camera explains how he used this style in subsequent films to forge a politically committed model of filmmaking It then demonstrates how the collapse of Kurosawa s efforts to participate as a filmmaker in the tasks of social reconstruction led to the very different cinematic style evident in his most recent films works of pessimism that view the world as resistant to change The British Library General Catalogue of Printed Books to 1975 British Library (London),Jim Emmett,1979
