Breaking Bad David P. Pierson, 2013-11-21 *Breaking Bad Critical Essays on the Contexts Politics Style and Reception of the Television Series* edited by David P Pierson explores the contexts politics and style of AMC's original series *Breaking Bad*. The book's first section locates and addresses the series from several contemporary social contexts including neo liberalism its discourses and policies the cultural obsession with the economy of time and its manipulation and the epistemological principles and assumptions of Walter White's criminal alias Heisenberg. Section two investigates how the series characterizes and intersects with current cultural politics such as male angst and the re emergence of hegemonic masculinity the complex portrayal of Latinos and the depiction of physical and mental impairment and disability. The final section takes a close look at the series distinctive visual aural and narrative stylistics. Under examination are *Breaking Bad*'s unique visual style whereby image dominates sound the distinct role and use of beginning teaser segments to disorient and enlighten audiences the representation of geographic space and place the position of narrative songs to complicate viewer identification and the integral part that emotions play as a form of dramatic action in the series.

The Methods of Breaking Bad Jacob Blevins, Dafydd Wood, 2015-01-02 Vince Gilligan's *Breaking Bad* is a central work in the recent renaissance in television making. The visionary scope and complexity of the series demand rigorous critical analysis. This collection of new essays focuses on a variety of themes. Walter White is discussed as father psychopath and scientist and as an example of masculinity. The essayists examine the series in terms of gender neo liberal politics and health care reform as well as the more traditional aesthetic categories of narrative construction experimentation allusion and genre. With television the dominant artistic medium of early 21st century America *Breaking Bad* should be viewed as a superbly designed work reflecting widespread cultural concerns.

Breaking Down Breaking Bad Matt Wanat, Leonard Engel, 2016-05-15 *Breaking bad* the story of Walter White's transformation from an underappreciated high school chemistry teacher to a murderous drug lord has captured the imagination of television viewers around the world. This collection of essays sets the series in the context of American culture analyzing its reinvention of classic themes in literature. Publisher description

Mediating Sexual Citizenship Anita Brady, Kellie Burns, Cristyn Davies, 2017-07-06 Mediating Sexual Citizenship considers how the neoliberal imperatives of adaptation improvement and transformation that inform the shifting artistic and industrial landscape of television are increasingly indexed to performed disruptions in the norms of sexuality and gender Drawing on examples from a range of television genres quality drama reality television talk shows sitcoms and outlets network cable subscription video on demand the analysis in this book demonstrates how as one of the most dominant cultural technologies television plays a critical role in the production maintenance and potential reconfiguring of the social organisation of embodiment be it within gender identities kinship structures or the categorisation of sexual desire It suggests that in order to understand television's role in producing gendered and sexual citizenship we must pay critical attention to the significant shifts in how television is produced broadcast and consumed

The Bible in Crime Fiction and Drama Caroline Blyth, Alison Jack, 2019-01-24 The Bible has always enjoyed notoriety within the genres of crime fiction and drama numerous authors have explicitly drawn on biblical traditions as thematic foci to explore social anxieties about violence religion and the search for justice and truth The Bible in Crime Fiction and Drama brings together a multi disciplinary scholarship from the fields of biblical interpretation literary criticism criminology and studies in film and television to discuss international texts and media spanning the beginning of the 20th century to the present day The volume concludes with an afterword by crime writer and academic Liam McIvanney These essays explore both explicit and implicit engagements between biblical texts and crime narratives analysing the multiple layers of meaning that such engagements can produce cross referencing Sherlock Holmes with the murder mystery in the Book of Tobit observing biblical violence through the eyes of Christian fundamentalists in Henning Mankell's Before the Frost catching the thread of homily in the serial murders of Se7en or analysing biblical sexual violence in light of television crime procedurals The contributors also raise intriguing questions about the significance of the Bible as a religious and cultural text its association with the culturally pervasive themes of violence morality and redemption and its relevance as a symbol of the often fraught location that religion occupies within

The Library Journal Book Review R. R. Bowker LLC,1977 *The Switch Image* Lorenz Engell,2021-04-22 Television is the most powerful system of images in the late 20th and early 21st centuries Nonetheless TV has attained only little philosophical attention so far especially compared to other visual media such as film This book looks at TV as what happens on the screen and beyond it which is mainly the operation of switching images It therefore proposes a new definition of TV as the first picture that can be switched on off and over which stresses that TV is more tactile than visual Through the operation of switching TV figures the world from within and as the course of its figuration This is grasped here by the term of ontography Through the ongoing interlacing and bridging of TV 1 0 the image is being switched and TV 2 0 the image is a switch TV exponentially increases the production and circulation of images It transforms the world and itself from an analogue state to a digital one and from central perspectivism to pluri perspective In terms of time through switching and the switch it develops and reworks new temporal orderings such as instantaneity synchronicity flow and seriality TV makes its own history In space it creates a mediasphere as its habitat and hence new forms of being in the world of proximity and distance and scale Anthropologically it works on what a subject and an object is on what makes the human being and ontographically how it is possible that there is something at all instead of nothing through switch images

delivered media content and is continually expanding access across a host of platforms and mobile devices Despite its transformative role however Netflix has drawn very little critical attention far less than competitors such as YouTube Apple Amazon Comcast and HBO This collection addresses this gap as the essays are designed to critically explore the breadth and diversity of Netflix s effect from a variety of different scholarly perspectives a necessary approach considering the hybrid nature of Netflix its inextricable links to new models of media production distribution viewer engagement and consumer behavior its relationship to existing media conglomerates and consumer electronics its capabilities as a web based service provider and data network and its reliance on a broader technological infrastructure
