The Truth War Right now Truth is under attack and much is at stake Christians are caught in the crossfire of alternative Christian histories emerging faulty texts and a cultural push to eliminate absolute Truth altogether As a result many churches and Christians have been deceived Worse still they propagate the deception that poses itself as Truth In The Truth War John MacArthur reclaims the unwavering certainty of God s Truth and anchors Christians in the eternal immovable promises that are found in His Word Strange Fire What would God say about those who blatantly misrepresent His Holy Spirit who exchange true worship for chaotic fits of mindless ecstasy who replace the biblical gospel with vain illusions of health and wealth who claim to prophesy in His name yet speak errors and who sell false hope to desperate people for millions of dollars In Strange Fire bestselling author and pastor John MacArthur chronicles the unsavory history behind the modern Charismatic movement He lays out a chilling case for rejecting its false prophets speaking out against their errors showing true reverence to the Holy Spirit and above all clinging to the Bible as the inerrant authoritative Word of God and the one true standard by which all truth claims must be tested

Forms of the Visible Philippe Descola,2025-11-25 Imagery and figuration are not just figments of an artist s imagination Perception and imagination are always shaped by what habit has taught us to discern The visual path we spontaneously trace through the world depends on where we are situated in the four regions of the ontological archipelago animism naturalism totemism or analogism Each of these four regions corresponds to a way of conceiving the objects that make up the world of perceiving the continuities and discontinuities in the folds of the world and of drawing the dividing lines between humans and nonhumans From Alaskan Yup ik masks and Aboriginal bark paintings to miniature landscapes from the Song dynasty and Dutch Golden Age interior scenes each image reveals through what it shows or fails to show a certain figurative regime identifiable by the formal means it uses and by the device through which it can unleash its power to act The figurative regime enables us to grasp sometimes better than words can the contrasting ways of living that characterize the human condition and its relation to the nonhuman By comparing a great diversity of visual images and artworks Descola masterfully lays the theoretical foundations for an anthropology of figuration One of the world s leading anthropologists Philippe Descola has developed a comparative anthropology of relations between humans and nonhumans that has revolutionized both the human sciences and our ways of thinking about the great ecological issues of our time His new book will be of great value to students and scholars of anthropology visual art and art history and to anyone interested in art culture and the relations between the human and nonhuman worlds
