Grimes, 1998 Analyzes the traditional metaphor of the library as the heart of institutions of higher learning drawing on organizational theory and on interviews with a cohort of leaders in higher education to learn their expectations for the role of the academic library Annotation c by Book News Inc Portlan      **Spanning the Theory-Practice Divide in Library and Information Science** William A. Crowley, 2005 Reveals how practitioners consultants and faculty can derive theories from actual experience and use such theories in solving real world problems Bill Crowley explores why theory in particular theory developed by university and college faculty is too little used in the off campus world The volume examines the importance of solving the theory irrelevance problem and drawing on a broad spectrum of research and theoretical insights it provides suggestions for overcoming the not so hidden secret of the academic world why theory with little or no perceived relevance to off campus environments can be absolutely essential to advancing faculty careers It also addresses the implications for theory development of fundamental aspects of the American culture and economy including the American ambivalence towards intellectuals the rise in the theory unfriendly environments of for profit educational institutions and public demands for enhanced accountability      **The Academic Library in the United States** Mark L. McCallon, John Mark Tucker, 2022-10-10 This book advances the belief that the library more than any other cultural institution collects curates and distributes the results of human thought Essays broaden the debate about academic libraries beyond only professional circles promoting the

library as a vital resource for the whole of higher education Topics range from library histories to explorations of changing media Essayists connect modern libraries to the remarkable dream of Alexandria s ancient library facilitating groundbreaking research in every imaginable field of human interest past present and future Academic librarians who are most familiar with historical traditions are best qualified to promote the library as an important aspect of teaching and learning as well as to develop resources that will enlighten future generations of readers The intellectual tools for compelling constructive conversation come from the narrative of the library in its many iterations from the largest research university to the smallest liberal arts or community college      Research in Education ,1969      **Libraries as Dysfunctional**

**Organizations and Workplaces** Spencer Acadia,2022-11-30 Libraries as Dysfunctional Organizations and Workplaces expands the dysfunctional concept in the professional and academic LIS discourse by exposing the internal problematics of libraries especially at the social and organizational levels Including contributions written by LIS professionals and scholars the book demonstrates that although many libraries do well at attending to users and managing external information they often fail at taking care of their own employees and addressing internal workplace issues Acadia and the contributing authors explore the problem of dysfunctional libraries so that the LIS profession can come to terms with the systemic dysfunction in their institutions and begin solution oriented progress toward new and sustainable functionality The book analyzes the dysfunctional nature of modern libraries while simultaneously proposing solutions to reduce and alleviate dysfunction Through theory and application it takes an explicit practice based approach with the intent to inform and explain dysfunction as experienced in the library workplace at individual and structural levels and perspectives Libraries as Dysfunctional Organizations and Workplaces brings the dysfunction discourse to the attention of LIS academics and scholars so that further theoretical and empirical research can proceed from and subsequently be addressed in library and information schools The book will also be essential reading for librarians and LIS students currently working or preparing to work in public college and university libraries      Library Journal ,1917      **Advances in Library Administration and**
