Library Of Liturgical Reform After Vatican Orthodoxy:

Liturgical Reform after Vatican II Nicholas E. Denysenko, 2015-12-01 Sacrosanctum Concilium SC was the first document promulgated by the Second Vatican Council. The impact of this document was broad and ecumenical: the liturgical reforms approved by the Council reverberated throughout Christendom, impacting the order and experience of worship in Reformed and Orthodox Churches. Unrecognized in most studies, the Orthodox Churches were also active participants in the liturgical movement that gained momentum through the Catholic and Protestant Churches in the twentieth century. This study examines Orthodox liturgical reform after Vatican II through the lens of Catholic-Orthodox ecumenical dialogue. After establishing the retrieval of the priesthood of the laity and active liturgical participation as the rationales for liturgical reform, the study presents the history of liturgical reform through four models: the liturgical reforms of Alexander Schmemmann, the alternative liturgical center in the Russian Orthodox Church Outside of Russia (ROCOR), the symposia on liturgical rebirth authorized by the Church of Greece, and the renewed liturgy of New Skete Monastery. Following a discussion of the main features of liturgical reform—catechesis, *ars celebrandi*, and the role of the clergy—Denysenko concludes with suggestions for implementing liturgical reform in the challenges of postmodernity and in fidelity to the contributions of Catholic-Orthodox ecumenical dialogue.

Icon of the Kingdom of God Radu Bordeianu, 2023-05-19 What is the Church? Some would answer this question by studying the Scriptures, the history of the Church, and contemporary theologians, thus addressing the theological nature of the Church. Others would answer based on statistics, interviews, and personal observation, thus focusing on the experience of the Church. These theological and experiential perspectives are in tension or at times even opposed. Whereas the first might speak about the local church as the diocese gathered in the Liturgy presided over by its bishop, the latter would describe the local church as the parish community celebrating the Liturgy together with the parish priest, never experiencing a sole liturgy that gathers an entire diocese around its bishop. Whereas a theologian might abstractly describe the Church as a reflection of the Trinity, a regular church member might concretely experience the Church as a community that manifests the Kingdom of God in its outreach ministries. Radu Bordeianu attempts to bring these two perspectives together, starting from the concrete experience of the Church, engaging this experience with the theological tradition of the Church, extracting ecclesiological principles from this combined approach, and then highlighting concrete situations that reflect those standards or proposing correctives when necessary. Without pretending to be a complete Orthodox ecclesiology, *Icon of the Kingdom of God* addresses the most important topics related to the Church. It progresses according to one's experience of the Church, from baptism to the family parish, Liturgy and priesthood, followed by analyses of synodality and nationality. Arguing that the Church is an icon of the Kingdom of God, this volume brings together the past theological heritage and the present experience of the Church while having three methodological characteristics: experiential, Kingdom-centered, and ecumenical.

Confessing and Commending the Faith Alan P.F. Sell, 2006-09-01 Since Christianity is a way and not simply a theory commending the faith to others is an activity in which every Christian participates Confessing and Commending the Faith discusses the presuppositions which underlie the intellectual commendation of Christianity in the face of the philosophical challenges of the present day Following his earlier books John Locke and the Eighteenth Century Divines and Philosophical Idealism and Christian Belief Alan Sell proposes a way of proceeding with Christian apologetics in the twenty first century He discusses what Christians wish to proclaim asks whether these claims are reasonable and examines what is involved in the intellectual commendation of the Christian faith

Confessing and Commending the Faith makes extensive use of the historical tradition of apologetics and brings this work to bear on contemporary questions such as the meaning use and reference of religious language and the question of transcendence in relation to history Alan Sell argues that if the intellectual commendation of Christianity's claim to truth is to be viable contemporary apologetics must draw upon reason revelation and experience to do justice to Christianity's basic confession of Christ as Saviour and Lord

The Liturgy of the Gospel Wolfgang Vondey, 2025-09-12 Vondey argues that theological hermeneutics in Pentecostal perspective is the interpretation of the world explicitly and specifically informed by the liturgy of the gospel This book identifies the corresponding hermeneutical questions that have dominated the formation of a liturgical Pentecostal horizon of interpretation since the twentieth century Pentecostals are acutely aware that the claim of their interpretive position shows not only a fusion of horizons but also a rejection of the dominant descriptive mechanisms How this tension in the history of Pentecostal theology is resolved and contributes to the emergence of Pentecostalism as a hermeneutical tradition is the subject of three critical inquiries 1 the question of truth in the Pentecostal tradition 2 the extension of the question of truth to hermeneutical experience and 3 the ontological shift of Pentecostal hermeneutics Vondey identifies how Pentecostal hermeneutics emerged not only thematically and historically but experientially and subjectively through the themes of the full gospel This book shows that rather than by the dominance of language the dynamic hermeneutical positioning in the narrative of this gospel originated and continues to be shaped liturgically
