Law Librarianship in the Digital Age Ellyssa Kroski, 2013-11-14. It is absolutely essential that today's law librarians are digitally literate in addition to possessing an understanding and awareness of recent advancements and trends in information technology as they pertain to the library field. *Law Libraries in the Digital Age* offers a one-stop comprehensive guide to achieving both of those goals. This go-to resource covers the most cutting-edge developments that face today's modern law libraries, including e-Books, mobile device management, Web-scale discovery, cloud computing, social software, and much more. These critical issues and concepts are approached from the perspective of tech-savvy library leaders who each discuss how forward-thinking libraries are tackling such traditional library practices as reference, collection development, technical services, and administration in this new digital age. Each chapter explores the key concepts and issues that are currently being discussed at major law library conferences and events today and looks ahead to what's on the horizon for law libraries in the future. Chapters have been written by the field's top innovators from all areas of legal librarianship, including academic, government, and private law libraries who have strived to provide inspiration and guidance to tomorrow's law library leaders.

Library and Information Science Education in the Indian Job Market. A Study of Indian Universities and Corporate Libraries Bobby Goswami Baruah, 2019-07-09. Doctoral Thesis Dissertation from the year 2014 in the subject Library Science / Information Documentation Science, grade A, language English, abstract. This study examines the Information Science Education of Indian Universities and Corporate Libraries with a specific focus on how

the criteria of the Indian job Market are met within the context of this education The Library and Information Science curriculum needs to adapt to the changes in today s job market requirement The job market demands much more competencies including information and communication skills However various studies reported a lacuna in the profession in terms of being fully compatible to the job requirement or in other words the profession fails to meet the expectations of the job market Here the enquiry arises as to who is accountable Are the LIS curricula in the universities offering Library and Information Science courses not up to date and practical oriented or not at par with the job descriptions for LIS professionals in different sectors This big question is affecting the whole profession globally but steps have been taken in some developing countries to streamline the curricula with diverse job requirements When we talk in terms of India a lot has been discussed and talked about the current library and information science professionals in the context of the emerging Indian job market But steps to modify remodel and implement the curricula as per national and global necessities are yet to be done This is the main problem in statement There are two major concerns firstly the inclusion of ICT and non ICT course contents in the curricula and secondly the job requirements of corporate and university libraries The critical examination of the specific needs of the corporate employees should be given due consideration in redesigning the curricula The non lucrativeness of jobs for the LIS professionals could also be an issue that concerns the fraternity that can be solved by dealing first with the course contents The rationale behind this study is not only to critically examine the curriculum of the post graduate levels currently followed in India and study the job requirements of university and corporate libraries but also to identify the discrepancies and thereby come up with some concrete measures A review of the results on earlier empirical studies carried out in India indicates that the variables in the study curriculum and job requirement are examined from different perspectives of narrower scales but no studies of the intended magnitude and landscape are done so far
