Graham, Şuhnaz Yılmaz, 2023-12-22. This book advances our understanding of security and its intricate interactions with geopolitics and the environment in Eurasia. Norman A. Graham and Şuhnaz Yılmaz focus on Eurasia where the energy, water

food nexus has emerged as a vital aspect of political economy and increasingly as a decisive factor for human security. As clearly revealed during the Russian invasion of Ukraine, this nexus rests on a precarious balance. Graham and Yilmaz argue that Central Eurasia is currently running on empty and highlight the key environmental challenges including water quantity and quality and food security. The authors draw on their extensive fieldwork in countries including Azerbaijan, China, Georgia, Kazakhstan, the Russian Federation, Turkey, and Uzbekistan to assess the interests and impact of pivotal actors and evaluate the competition and complementarities of these actors regarding water, energy, food security, and foreign policy imperatives. They also examine the broader interaction and implications of security at multiple levels by analyzing the local, national, and international factors in light of geopolitical and environmental challenges. Taking a novel and highly interdisciplinary approach, this book will be an important resource for students and scholars of energy and food security, political economy, international conflict and cooperation, and natural resource politics.

*Breaking Free of Neoliberalism: Canada's Challenge* ALEX HIMELFARB, 2024-09-13 Neoliberalism idealizing free market capitalism sets the boundaries for how we are governed in Canada no matter who is in power Author ALEX HIMELFARB explores why these ideas persist when the need for dramatic action on issues like inequality and global warming is obvious to all Neoliberalism free market capitalism and the view that freedom is society's highest value has become embedded in the fabric of Canadian government and society Neoliberal theorists marginalized for decades after the Second World War saw their ideas embraced by Margaret Thatcher and Ronald Reagan who implemented their policies in the 1980s and 90s Neoliberalism arrived in Ottawa with the Mulroney government in 1984 and has continued as widely accepted common sense about government until today Neoliberalism's basic tenets reduce public services in favour of privatization cut taxes to benefit business demonize government deficits limit government regulation and enable corporations to self regulate continue to be promoted by its corporate champions and think tank advocates Yet the experiences of the last decade in Canada and internationally have demonstrated the emptiness of neoliberalism and demonstrated the crucial role government plays in society Challenges from financial market crises to the COVID 19 pandemic and climate change underscore how vital government action can be in our lives
