**Managing eBook Metadata in Academic Libraries** Donna E Frederick, 2016-01-07 Managing ebook Metadata in Academic Libraries Taming the Tiger tackles the topic of ebooks in academic libraries a trend that has been welcomed by students faculty researchers and library staff However at the same time the reality of acquiring ebooks making them discoverable and managing them presents library staff with many new challenges Traditional methods of cataloging and managing library resources are no longer relevant where the purchasing of ebooks in packages and demand driven acquisitions are the predominant models for acquiring new content Most academic libraries have a complex metadata environment wherein multiple systems draw upon the same metadata for different purposes This complexity makes the need for standards based interoperable metadata more important than ever In addition to complexity the nature of the metadata environment itself typically varies slightly from library to library making it difficult to recommend a single set of practices and procedures which would be relevant to and effective in all academic libraries Considering all of these factors together it is not surprising when academic libraries find it difficult to create and manage the metadata for their ebook collections This book is written as a guide for metadata librarians other technical services librarians and ancillary library staff who manage ebook collections to help them understand the requirements for ebook metadata in their specific library context to create a vision for ebook metadata management and to develop a plan which addresses the relevant issues in metadata management at all stages of the lifecycle of ebooks in academic libraries from selection to deselection or preservation Explores the reasons behind creating records for our resources and challenges libraries to think about what that means for their context Discusses the complex nature of academic libraries and the electronic resources they require Encourages librarians to find their own way to manage metadata Sunday School Library Bulletin, 1894 **Libraries, Literacy, and African American Youth** Sandra Hughes-Hassell, Pauletta Brown Bracy, Casey H. Rawson, 2016-10-31 This important book is a call to action for the library community to address the literacy and life outcome gaps impacting African American youth It provides strategies that enable school and public librarians to transform their services programs and collections to be more responsive to the literacy strengths experiences and needs of African American youth According to National Assessment of Educational Progress NEAP only 18 percent of African American fourth graders and 17 percent of African American eighth graders performed at or above

proficiency in reading in 2013 This book draws on research from various academic fields to explore the issues surrounding African American literacy and to aid in developing culturally responsive school and library programs with the goal of helping to close the achievement gap and improve the quality of life for African American youth The book merges the work of its three authors along with the findings of other researchers and practitioners highlighting exemplary programs such as the award winning Pearl Bailey Library Program the Maker Jawn initiative at the Free Library of Philadelphia and the Blue Ribbon Mentor Advocate writing institute in the Chapel Hill Carrboro City Schools among others Readers will understand how these culturally responsive programs put theory and research based best practices into local action and see how to adapt them to meet the needs of their communities Library & Information Science Abstracts ,2008 Bursting the Big Data Bubble Jay Liebowitz,2014-07-25 As we get caught up in the quagmire of Big Data and analytics it remains critically important to be able to reflect and apply insights experience and intuition to your decision making process In fact a recent research study at Tel Aviv University found that executives who relied on their intuition were 90 percent accurate in their decisions Bu **THE LIBRARY JOURNAL** ,1878 Electrical Experimenter ,1928 The Library Journal Book Review ,1977 *Collier's* ,1922 **Information Systems** Christine Urquhart,Faten Hamad,Dina Tbaishat,Alison Yeoman,2017-12-21 This new book takes a holistic view of information architecture to offer information professionals a vital critical analysis of library and information service architecture with discussion of methods tools techniques and trends The editors argue that library assessment literature has primarily dealt with performance measurement and change management strategies leaving little on the ways of looking at the process architecture of library and information services and on methods for business process analysis Information Systems Process and practice aims to fill that gap with a combination of theory and supporting case studies written by an international line up of contributors This book discusses research and methods that help libraries and information services work from strategic business objectives through to the organisation of processes that support the information services offeredopens a new area of research investigation on the link between information behaviour research and information systems and architecture illustrated by case studies and projectsuses introductory sections and chapter commentary from the editors to draw the discussions together This will be essential reading for researchers in Information Science specifically in the areas of digital libraries information architecture and information systems It will also be useful for practitioners and students in these areas seeking to understand research issues and challenges and to discover how they have been handled in practice elsewhere **Encyclopedia of Library and Information Science, Second Edition** - Miriam Drake,2003-05-20 A revitalized version of the popular classic the Encyclopedia of Library and Information Science Second Edition targets new and dynamic movements in the distribution acquisition and development of print and online media compiling articles from more than 450 information specialists on topics including program planning in the digital era recruitment information management advances in digital technology and
