Morello, Paraskevi Rountos**

Library Of Marvelous Mini Lessons Teaching Nonfiction Jamison:

Marvelous Minilessons for Teaching Nonfiction Writing K-3 Lori Jamison Rog, 2015-12-11 Today's young learners know more about their world than ever before. This remarkable book shows that even our youngest writers can consider audience and purpose as they use nonfiction writing to document their ideas and share those ideas with others. But if students are going to be able to use writing to learn, they must have opportunities for learning to write. That's what this book is for. A wealth of hands-on minilessons offer strategies for writing informational, persuasive, and procedural text. Each lesson starts with a learning goal and follows an I do, we do, you do format. Teachers will find a wealth of ideas for guiding young students to write about what they know and care about.

Marvelous Minilessons for Teaching Intermediate Writing Grades 3-8 Lori Jamison Rog, 2018-02-15 This timely book offers a host of minilessons that focus on comprehensive written communication as one of the essential skills for success. These fresh minilessons explore how to help students go beyond fuzzy thinking and generic voice and organize their thoughts, solve problems, identify key ideas, and reflect on different perspectives. The book argues that writing is important to help students communicate ideas to others as well as document their own thoughts. This buffet of minilessons gives teachers ideas to add to their teaching repertoire so they can help their students work shine a little brighter.

30 Big-idea Lessons for Small Groups Michael Rafferty, Colleen Morello, Paraskevi Rountos, 2016 Intermediate grade readers are not an M, an N, or an O; they're idea wranglers ready to comprehend when we honor who they are as thinkers first. In *30 Big Idea Lessons for Small Groups*, educators Rafferty, Morello, and Rountos provide an amazing framework that gets students interacting with texts. You prompt and guide, but they think. Big Idea groups are the piece that's been missing from small group instruction: engagement from the get-go. Follow this unique 4-part process to develop students' literal, inferential, evaluative, and analytical skills:

1. Engage Before Reading: Using a tactile tool like a topic card or a pyramid, readers literally move ideas around on their small group table as they debate a question related to the text and to big ideas about courage, persistence, love, and honesty, and more.
2. Discuss During Reading: Students read and mark up a short text exploring questions that get at the author's take on the big idea, noticing key vocabulary, text structure, moments of inference, and more.
3. Deep See Think After Reading: Students re-read, synthesize, and revise their interpretations together and tweak the tactile tool based on questions that probe the big idea in new and deeper ways.
4. Connect After Reading: Students summarize and begin to transfer their understandings to other texts in independent reading and the world beyond, primed for this all-important transfer because they've been engaged in topics that clearly relate to their lives.

Tap into 30 lessons organized by text complexity, reproducible forms, assessments, and a bank of engagement tools so you can switch it up. Use these lessons across the year as a warm-up to a whole-class novel to augment your core reading program to challenge your capable readers and bring your striving readers in to rich yet accessible reading experiences.
