many lotto winners who becomes instant millionaires loses most of their money because they don't have the proper mindset to maintain or grow their money You ll discover why some of your money beliefs might be wrong and that could be holding you back you need to consider what are the principles and what behaviors the rich have that you do not have Laura Maya takes this idea and breaks it into sixteen chapters You wouldn't find a recipe to turn rich overnight Rather the book provides a solid foundation for setting the psychological stage for strong financial habits Studying hard getting nice grades and getting a job is not enough to be rich That's one lie which we have been fed with since our childhood There is a difference between scholastic professional and financial education The book further analyzes the root cause of why you are not rich It all boils down to your education You were never taught about how to be rich at school Forget that you never even learned personal finance or how to handle money It further touches upon how you can get smart with personal finance Perhaps the biggest argument Laura makes is the fact that everything can change if you change your mindset Buying that expensive dress impulsive buying etc are all signs of a poor mentality. If you make changes to your lifestyle and spending habits today you will reap the benefits tomorrow On making money Laura's approach is simple she emphasizes on investing spend less and plan for a long term This isn t something new We have all heard it But we never implement it Laura gives real life examples of how you can start your journey to being rich by investing for a long term planning your finances and by staying on a budget Last but not the least she focuses on self investment by developing your mental financial and emotional intelligence To sum up Laura has come up with a book that truly focuses on the core problem today financial planning and money making is simply not taught at schools The book truly provides a step by step guide to change your thinking about money set realistic goals and embark a journey towards riches **Insight Into a Bright Mind Nicole Tetreault**, Ph.D., 2021-03-30 Are you bright Do you know someone who is Among the bright population many social emotional and intellectual abilities are unrecognized Bright people are misunderstood and mislabeled as awkward geeks mad scientists maladjusted poets oversensitive artists hyperactive clowns or antisocial misfits Do you want to understand the science behind why intelligent sensitive and highly creative brains are simply different In Insight into a Bright Mind Dr Nicole Tetreault translates recent groundbreaking research examining the minds of the most highly intelligent creative and intense brains and explores new directions for the neurodiverse experiences of humans You will learn how your brain is as unique as your fingerprint and how your experience is elevated because you are simply hard wired differently Insight into a Bright Mind is intensely argued in favor of neuroindividuality superbly researched with the latest scientific data and deeply invested in engaging with a myriad of bright minds capturing their essence through storytelling and voice Be liberated to embrace your essence with greater self compassion and awareness and unlock your unconventional mind
