both guidance and self reflection In other words it is written by experienced LSP practitioners for aspiring LSP practitioners about how they see themselves and what effort they make to meet the challenges of their jobs As proof that LSP practice is a global challenge papers have been collected from many European countries the USA Uruguay Even though most papers are naturally concerned with English being the lingua franca of today the collection also features guidelines for teaching Spanish French and Dutch for specific purposes Moreover the target disciplines these languages are taught for encompass business engineering sociology or medicine thus supporting the assumption of the universal character of problems LSP practitioners deal with
