U.S. Militarism and the Terrain of Memory John Bechtold,2024-08-01 This book analyzes how the Iraqi city of Fallujah became registered as a setting for military heroics in American memory In 2004 the U S military conducted two disastrous assaults in Fallujah Iraq More than 1 000 citizens were killed and according to the military s own estimate upwards of 200 000 people were displaced because of the violence Yet despite this human catastrophe the kind of

information that emerged in the public domain during the battle foregrounded the soldier's experience in war while effacing the destruction of Iraqi bodies. This tendency to foreground the soldier body is a direct result of the military's intervention in what they conceptualize as the information environment. This book draws from the second assault in Fallujah as a case study to explicate the military's investment in this perspectival space which is a consequence both of the mediatization of contemporary war and of the need to influence knowledge considered unfavorable to military operations. In short, the military enlists the media in their targeting process to produce information that is then deployed as persuasive force to modify the beliefs of specific target populations. When the cultural texts produced by the media are remediated in the public domain after war, they can be thought of as martial constructs because they originated during war through the military's systemized attempt to influence knowledge. That is, these texts trace to a specific battlefield objective. This book reframes the notion of propaganda as a generalized public relations strategy into a more acute and coordinated attempt to decontextualize specific knowledge in the information environment. This book will be of much interest to students of media and communication studies, war studies, memory studies, and international relations.

At War with Corruption Michael J.

Hightower, 2021-07-13 *At War with Corruption* began as a biography of Bill Price, the U.S. attorney and Republican candidate for high office who spearheaded prosecutions in the most pervasive public corruption spectacle in American history: the Oklahoma county commissioner scandal. Price's determination to root out the rascals and restore faith in governance branded him as the biggest corruption buster in the state's history. Price's career in law and politics serves as a portal into corruption in Oklahoma. Episodes in that narrative include land swindles, soonerism at the dawn of Oklahoma history, theft of Native Americans' property, and steamrolling of their cultures that reached a nadir in the Osage murders, the Supreme Court scandal of 1964-65, Leo Winters' alleged misuse of state taxes, what was the treasurer doing with the people's money, Governor David Hall's trial and conviction on charges of extortion, prosecutions of drug syndicates, Penn Square Bank insiders, and Oklahoma Corporation Commissioners on the take and the systemic bribery in county governance that inspired this book. Price shatters the myth that Oklahomans have been uniquely tolerant of and susceptible to corruption. He blames structural flaws and inadequate legislation for tempting law-abiding citizens to heed the call of their darker angels. Although Price failed in his gubernatorial and congressional campaigns, he has influenced policy through philanthropies that set a high bar for civic engagement. *At War with Corruption* reveals the sinister side of human nature. Yet its intention is not to depress but rather to uplift and to show what is possible when public servants work together to frame effective laws and promote justice.
