Governance In Post Conflict Societies Rebuilding Fragile States:

Governance in Post-Conflict Societies Derick W. Brinkerhoff, 2007-01-24 This volume explores questions of rebuilding governance in post conflict societies from an interdisciplinary perspective focusing on three interconnected gaps that arise in fragile states deficits in legitimacy effectiveness and security *Policy and Governance in Post-Conflict Settings* Puthsodary Tat, 2019-08-13 Post conflict societies are commonly constructed as weak fragile and failed states Economic recovery risks of renewed violent conflict natural resource degradation and poverty alleviation become prioritized agendas of donor countries and international institutions Billions of dollars on development policy and governance reform have been invested However misapplication ineffectiveness and foreign aid dependency have become a controversial debate on whose policy whose governance and whose outcomes To understand the problems the author employs a blend of social constructionism and discourse theory to establish a platform for understanding and discussing hegemonic aid conditionality on recipient governments The theories also help analyze how the meanings of post conflict governance are socially economically and politically constructed and used in state building state apparatuses institutional building and policy making process He reveals that the philosophical and theoretical knowledge that underlies the interface between the mode of governance and policy design create the consensus of values norms and indicators between experts public servants donors and communities in post conflict settings The author also shares illuminating case studies by way of his considerable wealth of experience leading reconstructive efforts in Afghanistan and Cambodia **Guiding Principles for Stabilization and Reconstruction**

United States Institute of Peace, 2009 Claude Chabrol s second film follows the fortunes of two cousins Charles a hard working student who has arrived in Paris from his small hometown and Paul the dedicated hedonist who puts him up Despite their differences in temperament the two young men strike up a close friendship until an attractive woman comes between them [Guide to Rebuilding Public Sector Services in Stability Operations](#) Derick W. Brinkerhoff, Ronald W.

Johnson, Richard Hill, 2009 This guide examines the role of restoration of public services within the broader context of stability operations The extent to which public service reconstruction takes place depends on the mission the level of resources and the host country context This paper provides guidance helpful to U S peacekeeping personnel in planning and executing stability operations tasks related to restoration of public sector services and infrastructure It is designed to supplement existing and emerging guidance and is specifically relevant to addressing the needs of public sector rebuilding in a post conflict situation by peacekeeping forces The material presented here draws both from theory and analytic frameworks and from on the ground experience of practitioners Page v *Post-conflict Reconstruction and Local Government* Paul Jackson, Gareth Wall, 2020-06-09 The subject of local government and post conflict reconstruction sits at the intersection of several interrelated research areas notably conflict peacebuilding governance and political economy This volume addresses a gap in the academic literature whilst decentralisation is frequently included in peace agreements the

actual scope and role of local government is far less frequently discussed This gap remains despite a considerable literature on local government in developing countries more generally particularly with regard to decentralisation but also despite a considerable and growing literature on post conflict reconstruction This volume provides a mixture of case study cross case studies practitioner reflection and conceptual material on the function of local government in the context of decentralisation in post conflict countries from both academics and policy makers This collection of in depth single and multi country case study analysis is complemented by practitioner reflections and framed within the 2030 Agenda building on the New Urban Agenda and particularly the Sustainable Development Goal 16 to promote peaceful and inclusive societies for sustainable development provide access to justice for all and build effective accountable and inclusive institutions at all levels The chapters in this book were originally published in the online journal Third World Thematics

Reconstructing our Understanding of State Legitimacy in Post-conflict States Ruby Dagher, 2021-02-20 This book reassesses performance legitimacy in the context of statebuilding and identifies the paradox between state institution building and state legitimacy by looking at the interplay between state legitimacy and leaders legitimacy The author reviews the significant weaknesses associated with the current measures of state legitimacy and uses this to demonstrate the incompatibility of these measurements with the reality faced by conflict and post conflict countries The author uses the Performance Legitimacy Theory of Transition framework to demonstrate the potential legitimacy paths that post conflict countries can embark on and proposes a new approach for building state legitimacy in post conflict countries The author also introduces new indicators to measure performance legitimacy that also reflect its non exclusive nature Essential reading for students and researchers of Peace and Conflict Studies and especially of post conflict development peacebuilding statebuilding intervention and democracy promotion Also accessible to policy makers

Public Administration in Conflict Affected Countries Juraj Nemec,Purshottama S Reddy,2021-09-08 This book highlights the main factors determining the quality of public administration in conflict affected countries and assesses to what extent the conflict determines and impacts on the performance of public administration in affected countries The main value added by this book is confirming the general expectation that there is no direct and universal link between the conflict and public administration performance and vice versa One may need to argue that each country situation differs and specific factors of internal and external environments determine the trends of public

administration performance in conflict affected countries To achieve the overarching goal of the book sixteen country studies were developed from all relevant continents America Africa Asia and Europe Bangladesh Colombia Croatia Egypt Georgia Iraq Kosovo Nigeria Palestine Paraguay Philippines Serbia South Africa Uganda Ukraine and Venezuela *Strategies for Governing* Alasdair Roberts,2020-01-15 With the fields of public administration and public management suffering a crisis of relevance Alasdair Roberts offers a provocative assessment of their shortfalls The two fields he finds no longer address urgent questions of governance in a turbulent and dangerous world *Strategies for Governing* offers a new path forward for research teaching and practice Leaders of states Roberts writes are constantly reinventing strategies for governing Experts in public administration must give advice on the design as well as execution of strategies that effective robust and principled *Strategies for Governing* challenges us to reinvigorate public administration and public management preparing the fields for the challenges of the twenty first century *The Oxford Handbook of Global Policy and Transnational Administration* Diane Stone,Kim Moloney,2019-01-10 Global policy making is unfurling in distinctive ways above traditional nation state policy processes New practices of transnational administration are emerging inside international organizations but also alongside the trans governmental networks of regulators and inside global public private partnerships Mainstream policy and public administration studies have tended to analyse the capacity of public sector hierarchies to globalize national policies By contrast this Handbook investigates new public spaces of transnational policy making the design and delivery of global public goods and services and the interdependent roles of transnational administrators who move between business bodies government agencies international organizations and professional associations This Handbook is novel in taking the concepts and theories of public administration and policy studies to get inside the black box of global governance Transnational administration is a multi actor and multi scalar endeavour having manifestations depending on the policy issue or problems at the local urban sub regional sub national regional national supranational supra regional transnational international and global scales These scales of local and global are not neatly bounded and nested spaces but are articulated together in complex patterns of policy activity These transnational patterns represent a reinvigoration of public administration and policy studies as the Handbook authors advance their analysis beyond the methodological nationalism of the nation state

Engendering Democracy in Africa Niamh Gaynor,2022-06-01 This book investigates women s political participation in Africa Going beyond the formal institutions of electoral politics it explores a range of spaces where everyday politics take place at national and at local levels In recent years there have been significant improvements in the number of women elected to parliament in Africa However there is little indication that this is translating into better developmental outcomes and indeed there is mounting evidence that it could in fact help to bolster some authoritarian regimes Starting from the premise that politics is a far broader project than securing a seat in national or local legislatures alone this book explores the opportunities for women s political participation across a number of informal spaces where women and men gather organise

and interact in a more regular and systematic manner Combining insights from political science sociology and feminist theory and drawing on detailed cases from the Congo Kenya Malawi Nigeria and Rwanda it examines how power in its multiple dimensions circulates across a range of everyday political spaces while drawing attention to the links between domestic gender inequalities and the global political economy Inviting scholars practitioners and activists to broaden their focus beyond formal electoral institutions if they want to support women to become more politically active this book provides fresh insights into major issues at the heart of African studies development studies gender and development democratisation and international relations

State Fragility, Business, and Economic Performance Belay Seyoum, 2024-01-02 The growing number of states with weak capacity to carry out basic governance functions is leading to unacceptable levels of human suffering Using Ethiopia as a case study this book acknowledges the multidimensional nature of state fragility and highlights the non political factors that drive it The first part uses institutional theory to explore how weak institutions become a source of state fragility by undermining social cohesion and the broader economic progress of countries Part two examines the role of entrepreneurship and industrial policy as a means of creating and sustaining economic and political stability trade policy as a means of increasing incomes and easing tensions and technology policy as a means of engaging people in entrepreneurship and innovation The final chapter provides lessons that fragile nations can learn from successful developing countries in Southeast Asia and Latin America This book will appeal to researchers interested in international business economic and business policy international trade and emerging markets who seek to understand how fragile states can promote sustainable peace and development

Institutional Reform and Diaspora Entrepreneurs Jennifer M. Brinkerhoff, 2016-08-08 Externally promoted institutional reform even when nominally accepted by developing country governments often fails to deliver lasting change Diasporans immigrants who still feel a connection to their country of origin may offer an In Between Advantage for institutional reform which links problem understanding with potential solutions and encompasses vision impact operational and psycho social advantages Individuals with entrepreneurial characteristics can catalyzing institutional reform Diasporans may have particular advantages for entrepreneurship as they live both psychologically and materially between the place of origin they left and the new destination they have embraced Their entrepreneurial characteristics may be accidental cultivated through the migration and diaspora experience or innate to individuals personalities This book articulates the diaspora institutional entrepreneur In Between Advantage proposes a model for understanding the characteristics and motivational influences of entrepreneurs generally and how they apply to diaspora entrepreneurs in particular and presents a staged model of institutional entrepreneur actions I test these frameworks through case narratives of social institutional reform in Egypt economic institutional reform in Ethiopia and political institutional reform in Chad In addition to identifying policy implications this book makes important theoretical contributions in three areas First it builds on existing and emerging

critiques of international development assistance that articulate prescriptions related to alternative theories of change
Second it fills an important gap in the literature by focusing squarely on the role of agency in institutional reform processes while still accounting for organizational systems and socio political contexts In doing so it integrates a more expansive view of entrepreneurship into extant understandings of institutional entrepreneurship and it sheds light on what happens in the frequently invoked black box of agency Third it demonstrates the fallacy of many theoretical frameworks that seek to order institutional change processes into neatly definable linear stages *Doing Good Or Doing Better* Monique Kremer, Peter van Lieshout, Robert Went, 2009 Development policies in the globalising world
