Governing The World Cases In Global Governance:

Governing the World? Sophie Harman, David Williams, 2013-06-07 Global governance has become a key concept in the contemporary study of international politics yet what the term means and how it works remains in question *Governing the World Cases in Global Governance* takes an alternative approach to understanding the concept by exploring how global governance works in practice through a set of case studies on both classical issues of international relations such as security labour and trade and more contemporary concerns such as the environment international development and governing the internet The book explores the processes practice and politics of global governance by taking a broad look at issues of human rights governance and focusing on detailed aspects of a topic such as torture and rendition to help explain how governance does or does not work to students and researchers of international politics alike Bringing together a diverse and international group of scholars each chapter responds to a set of questions as to what is being governed how and who by and offers issue specific case studies and recommended reading to develop a full understanding of the issue explored and what it means for global governance *Governing the World* David Williams, 2013 **Rethinking Global Governance** Justin

Jennings, 2023-05-09 This book argues that long ignored non western political systems from the distant and more recent past can provide critical insights into improving global governance These societies show how successful collective action can occur by dividing sovereignty consensus building power from below and other mechanisms For a better tomorrow we need to free ourselves of the colonial constraints on our political imagination A pandemic war in Europe and another year of climatic anomalies are among the many indications of the limits of global governance today To meet these challenges we must look far beyond the status quo to the thousands of successful mechanisms for collective action that have been cast aside a priori because they do not fit into Western traditions of how people should be organized Coming from long past or still enduring societies often dismissed as savages and primitives until well into the twentieth century the political systems in this book were often seen as too acephalous compartmentalized heterarchical or anarchic to be of use Yet as globalization makes international relations more chaotic long ignored governance alternatives may be better suited to today's changing realities Understanding how the Zulu Trypillian Alur and other collectives worked might be humanity's best hope for survival This book will be of interest both to those seeking to apply archaeological and ethnographic data to issues of broad contemporary concern and to academics politicians policy makers students and the general public seeking possible alternatives to conventional thinking in global governance **The Oxford Handbook of the International Law of Global Security**

Robin Geiß, Nils Melzer, 2021-02-16 Understanding the global security environment and delivering the necessary governance responses is a central challenge of the 21st century On a global scale the central regulatory tool for such responses is public international law But what is the state role and relevance of public international law in today's complex and highly dynamic global security environment Which concepts of security are anchored in international law How is the global security

environment shaping international law and how is international law in turn influencing other normative frameworks The Oxford Handbook of the International Law of Global Security provides a ground breaking overview of the relationship between international law and global security It constitutes a comprehensive and systematic mapping of the various sub fields of international law dealing with global security challenges and offers authoritative guidance on key trends and debates around the relationship between public international law and global security governance This Handbook highlights the central role of public international law in an effective global security architecture and in doing so addresses some of the most pressing legal and policy challenges of our time The Handbook features original contributions by leading scholars and practitioners from a wide range of professional and disciplinary backgrounds reflecting the fluidity of the concept of global security and the diversity of scholarship in this area *Critical Perspectives on the Crisis of Global Governance* S. Gill, 2015-01-02 The contributors highlight alternative imaginaries and social forces harnessing new organizational and political forms to counter and displace dominant strategies of rule They suggest that to address intensifying economic ecological and ethical crises far more effective legitimate and far sighted forms of global governance are required

Governing the World? Thomas G Weiss, 2015-11-17 Problems posed by Syria's chemical weapons attacks Egypt's ouster of an elected government and myriad other global dilemmas beg the question of whether and how the world can be governed The challenge is addressing what former UN Secretary General Kofi Annan called Problems without Passports environmental economic humanitarian and political crises that threaten stability prosperity and even human survival Everything is globalized everything except politics which remain imprisoned behind national borders The world has changed but our basic way of managing it has not We pursue fitful tactical short term and local responses for actual or looming threats that require sustained strategic longer run and global actions With clarity and passion Thomas G Weiss argues for a diversity of organizational arrangements some centralized some decentralized and a plurality of problem solving strategies some worldwide some local He proposes a three pronged strategy the expansion of the formidable amount of practical global governance that already exists the harnessing of political and economic possibilities opened by the communications revolution and the recommitment by states to a fundamental revamping of the United Nations *Teaching International Organizations* Kent J. Kille, 2025-01-09 This essential book provides conceptual explorations of what to cover when teaching international organizations and the best practices for teaching about them Together with a group of expert contributors Kent J Kille addresses key topics debates frameworks perspectives and a range of instructional approaches to incorporate when teaching in the field *Local Politics, Global Impacts* Olivier Charnoz, Virginie Diaz Pedregal, 2016-05-06 Serving as a touchstone for a much needed research program on social scales this volume challenges disciplinary boundaries and brings into focus a paradoxical state of affairs in contemporary thought the domain of local global interactions has not yet been identified as an object of analysis in its own right despite engaging a large multi disciplinary research community with strong

potential for cross fertilization Bringing together internationally renowned as well as emerging scholars this book presents concrete case studies framed by theoretical concern with the issue of scale It demonstrates that a diverse array of theoretical methodological and empirical perspectives can productively converge on a common set of problems related to social temporal and spatial scales and contemporary globalization Local Politics Global Impacts will stimulate empirical and theoretical research that focuses on understanding how political concepts practices and instruments translate across scales and contribute to the emergence of a self aware community of scholars and practitioners focusing explicitly on modelling the dynamics of local regional global interactions

The Handbook of Global Health Policy Garrett W. Brown, Gavin Yamey, Sarah Wamala, 2014-04-08 The Handbook of Global Health Policy provides a definitive source of the key areas in the field It examines the ethical and practical dimensions of new and current policy models and their effect on the future development of global health and policy Maps out key debates and policy structures involved in all areas of global health policy Isolates and examines new policy initiatives in global health policy Provides an examination of these initiatives that captures both the ethical critical as well as practical empirical dimensions involved with global health policy global health policy formation and its implications Confronts the theoretical and practical questions of who gets what and why and how when and where Captures the views of a wide array of scholars and practitioners including from low and middle income countries to ensure an inclusive view of current policy debates

Local Politics, Global Impacts Dr Olivier Charnoz, Dr Virginie Diaz Pedregal, Professor Alan L Kolata, 2015-12-28 Serving as a touchstone for a much needed research program on social scales this volume challenges disciplinary boundaries and brings into focus a paradoxical state of affairs in contemporary thought the domain of local global interactions has not yet been identified as an object of analysis in its own right despite engaging a large multi disciplinary research community with strong potential for cross fertilization Bringing together internationally renowned as well as emerging scholars this book presents concrete case studies framed by theoretical concern with the issue of scale It demonstrates that a diverse array of theoretical methodological and empirical perspectives can productively converge on a common set of problems related to social temporal and spatial scales and contemporary globalization Local Politics Global Impacts will stimulate empirical and theoretical research that focuses on understanding how political concepts practices and instruments translate across scales and contribute to the emergence of a self aware community of scholars and practitioners focusing explicitly on modelling the dynamics of local regional global interactions

The Routledge Handbook to Global Political Economy Ernesto Vivares, 2020-04-16 The Routledge Handbook to Global Political Economy provides a comprehensive guide to how Global Political Economy GPE is conceptualized and researched around the world Including contributions that range from traditional International Political Economy IPE to GPE approaches the Handbook gathers the investigations varying perspectives and innovative research of more than sixty scholars from all over the world Providing undergraduates postgraduates teachers and researchers with a

complete set of traditional contending and regional perspectives the book explores current issues conceptual tools key research debates and different methodological approaches taken Structured in five parts methodologically correlated the book presents GPE as a field of global regional and national research historical waves and diverse ontological axes major theoretical perspectives beyond traditional perspectives regional inquiries research arenas Carefully selected contributions from both established and upcoming scholars ensure that this is an eclectic pluralist and multidisciplinary work and an essential resource for all those with an interest in this complex and rapidly evolving field of study

Global Governance of Civil Aviation Safety Nilgun Ozgur, 2022-09-30 This book indicates the shortcomings of the current international legal system and customary international norms that govern international aviation law to comply with contemporary air transport market realities As the air transport market develops globally the safety regime of civil aviation should also be governed and applied globally In this book the author departs from current international legal norms to examine the emerging legal field of global administrative law Through that lens the possibility of reconstructing the set of legal mechanisms that govern domestic and international administrative interaction in the global field of aviation safety is explored This book demonstrates that a legal system is never complete but always develops in tandem with changing needs i e the participation of the affected parties Exploring the principles of GAL theory contributes to addressing the contemporary legal issues relating to state compliance with international aviation safety standards that would otherwise not be covered by customary international law In particular the principles of GAL theory regarding global governance and the public character of global regulations the role of individuals and states in global governance and state sovereignty are considered valuable contributions to contemporary global aviation safety issues in practice It is asserted in this book that proper checks and balances in global aviation safety can be improved by making these accessible to individuals by way of national courts Finally establishing public awareness of global aviation safety standards will eventually create greater pressure on states to implement and enforce them This book is in an area increasing academic and research interest of practitioners of public international aviation law global administrative law global governance and global aviation safety global air transport market regulations

The United Nations in the 21st Century Karen A. Mingst, Margaret P. Karns, Alynna J. Lyon, 2022-03-30 The United Nations in the 21st Century Sixth Edition provides a comprehensive yet accessible introduction to the UN It explores the historical institutional and theoretical foundations of the UN as well as major global trends and challenges facing the organization today including changing major power dynamics new threats to peace and security the migration and refugee crises the COVID 19 pandemic and the existential challenges of climate change and sustainability Thoroughly revised and expanded it contains two new chapters on the UN and the environment and on human security including issues of health food security global migration and human trafficking There is enhanced analysis of theoretical perspectives on post colonialism feminist theory constructivism and non Western views New content has also been added on the UN s budget crisis public private partnerships and the role

of women in the organization By examining the UN as an intergovernmental organization facing the broader need for global cooperation to address economic social and environmental interdependencies alongside the threats posed by rising nationalism and populism this popular text is the perfect reference for all students and practitioners of international organizations global governance and international relations Governing the World Economy Willem Molle,2013-09-05 The major problems the world faces have increased since the turn of the millennium Recurrent storms on the financial markets have ravaged many countries poverty is still widespread notwithstanding decades of massive development aid the environment remains in acute jeopardy and the major world institutions have often reached an impasse in attempting to combat these difficulties The issues ask for rapid and consistent action by policy makers but the interests of international organizations such as the WTO World Bank and Kyoto protocol have become too diversified to come to multilateral agreements setting uniform rules and asking for strict compliance with these rules Alternative solutions are sought and development in the future is likely to be characterized by fuzzy and complex interactions between flexible groups of actors seeking agreements on the solutions for the most pressing new problems Progress will become rather unpredictable and will depend on time place and subject specific cases as well as convergence of interests This need not be only negative Flexible solutions have the advantage that they can be easily adapted in case the conditions change In this new book the follow up to his Global Economic Institutions Willem Molle maps out the unfolding of this process **Corruption Scandals and their Global Impacts** Omar E. Hawthorne,Stephen Magu,2018-05-11 Corruption scandals receive significant press coverage and scrutiny from practitioners of global governance and bilateral and multilateral donors Across the globe the annual publication of TI s CPI and World Bank s Worldwide Governance Indicators elicits spirited denials and accusations of targeting of neo colonialism Poor measures on corruption indices and the ensuing negative publicity can have serious consequences both externally through a freeze or retraction of donor funding and internally through reducing the availability of public funds and harming the credibility of serving governments and institutions Corruption Scandals and their Global Impacts tracks several major corruption scandals across the world in a comparative analysis to assess the full impact of global corruption Over the course of the book the contributors deliberate the exposure and reporting of corruption scandals demonstrate how corruption inhibits development on different levels and across different countries the impact it has on the country in question how citizens and authorities respond to corruption and some local regional and global policy and legislative measures to combat corruption The chapters examine the transnational manifestation of corruption scandals around the world from developed countries and regions such as the United States and the European Union to BRIC countries Brazil and Russia to developing countries such as Belarus Jamaica Kenya and Nigeria In each case chapters highlight the scandal its impact the local regional and global responses and the subsequent global perceptions of the country Concluding with a review of the global impacts of corruption scandals this book provides an important comparative analysis which will be

useful to students and scholars of international development and politics as well as to development practitioners donors politicians and policy makers

Region-Building in Africa Daniel H. Levine, Dawn Nagar, 2016-05-19 This landmark book is the first of its kind to assess the challenges of African region building and regional integration across all five African sub regions and more than five decades of experience considering both political and economic aspects Leading scholars and practitioners come together to analyze a range of entwined topics including the theoretical underpinnings that have informed Africa's regional integration trajectory the political economy of integration including the sources of different waves of integration in pan Africanism and the reaction to neo liberal economic pressures the complexities of integration in a context of weak states and the informal regionalization that often occurs in borderlands the increasing salience of Africa's relationships with rising extra regional economic powers including China and India and comparative lessons from non African regional blocs including the EU ASEAN and the Southern Common Market A core argument of this book running through all chapters is that region building must be recognized as a political project as much as if not more than an economic one successful region building in Africa will need to include the complex political tasks of strengthening state capacity including states capacity as developmental states that can actively engage in economic planning resolving long standing conflicts over resources and political dominance improving democratic governance and developing trans national political structures that are legitimate and inclusive

The Social Construction of Global Corruption Elitza Katzarova, 2018-12-06 This book offers new ways of thinking about corruption by examining the two distinct ways in which policy approaches and discourse on corruption developed in the UN and the OECD One of these approaches extrapolated transnational bribery as the main form of corrupt practices and advocated a limited scope offense while the other approach tackled the broader structure of the global economic system and advocated curbing the increasing power of multinational corporations Developing nations in particular Chile initiated and contributed much to these early debates but the US sponsored issue of transnational bribery came to dominate the international agenda In the process the corrupt corporation was supplanted by the corrupt politician the corrupt public official and their international counterpart the corrupt country This book sheds light on these processes and the way in which they reconfigured our understanding of the state as an economic actor and the multinational corporation as a political actor

Regulatory Theory Peter Drahos, 2017-02-23 This volume introduces readers to regulatory theory Aimed at practitioners postgraduate students and those interested in regulation as a cross cutting theme in the social sciences Regulatory Theory includes chapters on the social psychological foundations of regulation as well as theories of regulation such as responsive regulation smart regulation and nodal governance It explores the key themes of compliance legal pluralism meta regulation the rule of law risk accountability globalisation and regulatory capitalism The environment crime health human rights investment migration and tax are among the fields of regulation considered in this ground breaking book Each chapter introduces the reader to key concepts and ideas and contains

suggestions for further reading The contributors who either are or have been connected to the Regulatory Institutions Network RegNet at The Australian National University include John Braithwaite Valerie Braithwaite Peter Grabosky Neil Gunningham Fiona Haines Terry Halliday David Levi Faur Christine Parker Colin Scott and Clifford Shearing

The Palgrave Handbook of Contemporary International Political Economy Timothy M. Shaw, Laura C. Mahrenbach, Renu Modi, Xu Yi-chong, 2018-12-19 Published 35 years after Palgrave Macmillan's landmark International Political Economy IPE series was first founded this Handbook captures the state of the art of contemporary IPE It draws on the series history of focusing on the oft neglected study of the global South Providing interdisciplinary perspectives from scholars hailing from the global North and South the Handbook illustrates the theoretical innovations and empirical richness necessary to explain today's ever changing world This is a world in which the global South and North are not only being transformed by the end of bipolarity and the rise of the BRICS but also by diverse global crises and growing cross border challenges It is a world where human development governance and security are becoming ever more elusive where profoundly altered by the rise of new technologies the structure of relations between nations itself is changing becoming increasingly interconnected both digitally and physically Understanding these issues is of critical importance to better anticipate current and future global transformations This Handbook is the ideal primer for all scholars practitioners and policy makers looking to do so

[Global Encyclopedia of Public Administration, Public Policy, and Governance](#) Ali Farazmand, 2023-04-05 This global encyclopedic work serves as a comprehensive collection of global scholarship regarding the vast fields of public administration public policy governance and management Written and edited by leading international scholars and practitioners this exhaustive resource covers all areas of the above fields and their numerous subfields of study In keeping with the multidisciplinary spirit of these fields and subfields the entries make use of various theoretical empirical analytical practical and methodological bases of knowledge Expanded and updated the second edition includes over a thousand of new entries representing the most current research in public administration public policy governance nonprofit and nongovernmental organizations and management covering such important sub areas as 1 organization theory behavior change and development 2 administrative theory and practice 3 Bureaucracy 4 public budgeting and financial management 5 public economy and public management 6 public personnel administration and labor management relations 7 crisis and emergency management 8 institutional theory and public administration 9 law and regulations 10 ethics and accountability 11 public governance and private governance 12 Nonprofit management and nongovernmental organizations 13 Social health and environmental policy areas 14 pandemic and crisis management 15 administrative and governance reforms 16 comparative public administration and governance 17 globalization and international issues 18 performance management 19 geographical areas of the world with country focused entries like Japan China Latin America Europe Asia Africa the Middle East Russia and Eastern Europe North America and 20 a lot more Relevant to professionals experts scholars general readers researchers policy makers and manager and students
