*Citizens, Civil Society, and Activism under the EPRDF Regime in Ethiopia* Camille Louise Pellerin, Logan Cochrane, 2023-07-15 In 2014 15 the Ethiopian government together with many academics and observers was surprised by the outbreak of anti government protests as large scale public contestation of the Ethiopian People's Revolutionary Democratic Front EPRDF had been largely absent in the regime's history The dominant narrative about the EPRDF regime was that it was a top down government using authoritarian methods to ensure the population abided by its visions and directives and describing its role in paternalistic ways such as being the protector and guardian of the people Changing this narrative *Citizens Civil Society and Activism under the EPRDF Regime in Ethiopia* considers how citizens and civil society expressed their interests and exerted their agency in an authoritarian setting Focusing on the EPRDF regime over a period of three decades up to 2019 the book explores civic activism in Ethiopia presenting diverse examples of how citizens have re shaped the country Challenging state centric readings of state society relations under EPRDF governance this collection provides a counternarrative that emphasizes the role and agency of citizens and civil society The contributing authors draw on a heuristic analytical framework that examines different types of interactions between civil society and state actors co optation co operation coexistence and contestation and captures the ways in which civil society actors make their voices heard At a time when authoritarian forms of governance are increasingly prevalent across the world this critically important collection offers insight into how citizens claim their agency and challenge state power in apparently top down contexts

What if we all governed the Internet? Van der Spuy, Anri, 2017-11-13      Civil Society, Religion and Global Governance Helen James, 2007-04-11 This is one of the first books to explore the nexus between civil society religion and global governance their impact on human security and well being and significance for current debates in international politics The contributors examine salient aspects of the secular state whose monopoly on and control of institutional violence has reified its use of power to such an extent that the modernistic separation of church and state is being called into question as institutional limits are sought to the abuse of that power The volume is clearly divided into six key sections human security

and human rights the politics of civil religion the ethics of civil development civil society and global governance cross cultural perspectives on institutional development for civil society international civil society Within these sections the illuminating case studies span a wide geographical extent from Central and Eastern Europe to Egypt to Latin America Iran Bangladesh Australia the Pacific and East and Southeast Asia Civil Society Religion and Global Governance will be of strong interest to students policy makers and researchers in the fields of human rights religion political science and sociology
