*An overview on local alternative ingredients, aquafeed supply and feeding management in selected African countries* Food and Agriculture Organization of the United Nations, Garcia Sampaio, F. (ed.); Hasan, M.R. (ed.); El-Sayed, A-F.M. (ed.), Aquaculture plays a vital role in enhancing food security in Africa but faces challenges in the fed aquaculture sector particularly in accessing and producing high quality aquafeeds To address this FAO organized the Expert Workshop on Local Alternative Ingredients Aquafeed Supply and Feeding Management in Egypt in 2023 Experts and stakeholders from nine African countries Cameroon Egypt Ghana Kenya Malawi Nigeria Uganda the United Republic of Tanzania and Zambia participated alongside representatives from governments academia development agencies the private sector and farming communities Pre workshop questionnaires informed national reports on feed ingredient supply feed manufacturing and feeding management practices These reports

along with workshop discussions form the basis of this technical document comprising nine country analyses and a regional synthesis Common challenges identified include limited access to alternative feed ingredients poor feed preparation and storage practices inadequate monitoring of on farm feeding lack of investment for small scale producers low technical capacity among farmers poor feed quality and weak regulatory frameworks The synthesis report recommends key actions stabilizing feed ingredient supply and costs promoting training for feed producers and farmers improving on farm feed and water quality management enhancing data collection and analysis expanding access to finance and storage facilities and strengthening collaboration among stakeholders These measures aim to build a more efficient sustainable and resilient aquaculture sector across the region

#### **Alternative Dispute Resolution in Energy Industries**

Mustafa Oğuz  
Tuna,2022-04-03 The disputes that arise between host states and investors in the energy sector put a high number of valuable and vital projects in the countries at risk Investment treaty arbitration mechanisms as the traditional remedy have provided a solution to these problems for decades However as the number of disputes increases the sufficiency of arbitration in responding to disputes became questionable in addition to the long lasting and costly cases Accordingly ADR mechanisms outside the arbitration cannon have triggered growing interest among practitioners Despite the attraction and the apparent benefits of ADR such as being cheaper faster and with better outcomes compared to arbitration there are also hurdles in front that hinder the application of ADR This has lead to the underuse of ADR in appropriate contexts This study has been conducted to research the gap for the applicability of the ADR methods for investment disputes in the energy sector with the doctrinal analysis of the existing literature either promoting or opposing ADR Its findings provide guidance for alternative dispute resolution practitioners on when to use ADR how to use ADR and on what disputes ADR to be used to resolve conflicts in International Energy Investment

#### **The State and the Advocate**

Teresita Rosario,2014-07-11 This book seeks to demonstrate the role of public policy in support of equitable and inclusive development The achievement of this overarching goal rests on an assumption that development does not happen by chance or by accident but rather through the deliberate application of analytical tools which public policy is able to provide Set within an Asian context the book emphasizes the role of public policy in reducing poverty eliminating deprivation promoting equity and ensuring social justice

The book likewise aims to provide an argument for the developmental role of the state one which has been the subject of a long standing debate among development scholars In addition the book accounts for the role of civil society organizations particularly their involvement in multi stakeholder participation Through different case studies this book explains the outcome of public policy decisions as combinations of efforts among government and civil society actors to ensure the creation of the most optimal public good Finally the book takes a comparative perspective i e there are cases that directly or indirectly implicate the regional character of public policies that result in the creation and distribution of regional public goods

**The Radical Left in Europe in the Age of Austerity** Babak Amini,2017-10-02 The complex trajectory of Europe after the 2008 global financial crisis has led to the catastrophic failure of deep austerity measures that swept across the Union and is reflected in the rise of some radical left parties such as SYRIZA as well as an unfortunate rise in far right and nationalist parties and movements This collection brings together a group of European scholars and activists from various European countries to discuss the recent economic political and electoral changes in respective countries and the current status and future plans of radical left parties and movements This book fills a significant gap within the current literature in the English speaking world on post 2008 Europe featuring a nation based European wide survey of the current activities and plans of radical Left parties and movements in relation to the mounting social political and economic problems in Europe This book contributes to the discussion by presenting a realistic depiction of the existing radical Left forces in Europe This title was previously published as a special issue of Socialism and Democracy

**The Failure of Socialism in South Korea** Yunjong Kim,2015-07-03 Despite the fact that socialist parties have proved to be a major political force across the world this has not been the case in Asian countries Socialism in South Korea is a quintessential example of this failure Despite the existence of a socialist party and what would seem to be the right conditions for development the Korean socialist tendency has failed to become a meaningful force in politics This book explores why and under what conditions Korean socialism has failed to develop into a social democrat movement in the post war period Within the context of the integration of structural and agency factors it goes beyond the generally accepted view that the left failed because of suppression by the state and proffers that the real reason why socialism failed lay with its inability to develop beyond revolutionary socialism and build a more pragmatic social democracy that could develop a broad alliance within Korean society Also drawing on examples from Western Europe and Latin America where left wing forces have achieved power this book will be of huge interest not only to students and scholars of Asian and Korean politics but also socialism comparative and international politics alike

**Digital Technologies and the Evolving African Newsroom** Hayes Mabweazara,2016-04-14 African newsrooms are experiencing the disruptive impact of new digital technologies on the way they generate and disseminate news Indeed newsrooms are being forced to adapt in various ways and there are clear dimensions of localized creativity and adaptations by journalists to the digital revolution In the same way the influences of digitization Internet and social media are changing the informational

needs of readers including how they engage with news. These developments nonetheless remain on the margins of mainstream journalism research. Very few researchers have sought to qualitatively capture the implications of developments in digital technologies on the routine practices of African journalists especially in their natural habitat the newsroom. In this light this edited volume interrogates the changing ecology of newsmaking in Africa in the context of rapid technological changes in newsrooms as well as in the wider social context of news production. It brings together six contributions drawn from five countries: Egypt, Mozambique, South Africa, Nigeria, and Zimbabwe to explore practices, challenges, and professional normative dilemmas emerging with the adoption and appropriation of new technologies. While the studies point to dimensions of localised new technology appropriations as defined by the complex socio-political structures in which African journalists operate, they are not rigidly confined to Africa. They are expressly in dialogue with theoretical observations largely emerging from Western scholarship. In this sense the book goes beyond simply mainstreaming African perspectives; it engages directly with dominant theoretical observations and offers a point of departure for developing what could loosely be branded as an African digital journalism epistemology. This book was originally published as a special issue of *Digital Journalism*. **Youth and Inequality in Education** Michael Heathfield, Dana Fusco, 2015-07-30. The transition to adulthood for many is mediated by class, culture, and local/global influences on identity. This volume analyzes the global injustices that create inequities and restrict future opportunities for young people during this transitional time, including poverty, unemployment, human rights, race, ethnicity, and location. It critically examines global instances of youth discrimination, offering positive strategies and practices such as youth work that successfully remediate these injustices. With international contributions from Aotearoa, New Zealand, Australia, England, Malaysia, Peru, Philippines, Portugal, Morocco, Jordan, and the U.S., this volume is particularly important to researchers and scholars in the fields of youth studies, education, and social work. Unfinished Business Joe Moran, 2013-08-01. With social and community services coming under increasing pressure as austerity continues, *Unfinished Business* examines how social policy has operated in Ireland and how it has been affected by consistent government cutbacks. It examines a wide range of issues important to social care students, such as poverty, homelessness, disability, immigrants, mental health, and many other issues pertinent to Irish society today. This book is the first Irish social policy textbook written for social care students. It poses important questions about not only social policy approaches but also policy failings and makes the case for a move towards social policy regulation. It is useful to students from other disciplines such as community work, early childhood studies, nursing, addiction studies, and child protection studies. It is written in a clear and accessible style and laid out in a user-friendly manner. The book is aimed at undergraduate students in social studies, social science, and public administration and will also prove useful to practitioners who seek to broaden their understanding of social care. *Independent Chinese Documentary* Dan Edwards, 2015-05-15. Through detailed analyses of key contemporary documentary titles, this book reveals the ways in which independent films probe, question, and challenge the dominant ideas.

and narratives circulating in China's state sanctioned media

**The New Politics of Strategic Resources** David Steven, Emily O'Brien, Bruce D. Jones, 2014-11-21 Since 2008 energy and food markets those most fundamental to human existence have remained in turmoil Resource scarcity has had a much bigger global impact in recent years than has been predicted with ongoing volatility a sign that the world is only part way through navigating a treacherous transition in the way it uses resources Scarcity and perceptions of scarcity increase political risks while geopolitical turmoil exacerbates shortages and complicates the search for solutions The New Politics of Strategic Resources examines the political dimensions of strategic resource challenges at the domestic and international levels For better or worse energy and food markets are shaped by perceptions of national interest and do not behave as traditional market goods So while markets are an essential part of any response to tighter resource supplies governments also will play a key role David Steven Emily O'Brien Bruce Jones and their colleagues discuss what those roles are and what they should be The architecture for coordinating multilateral responses to these dynamics has fallen short raising questions about the effective international management of these issues Politics impede here too as the major powers must negotiate political and security trade offs to cooperate on the design of more robust international regimes and mechanisms for resource security and the provision of global public goods This timely volume includes chapters on major powers United States India China and key suppliers Russia Saudi Arabia The contributors also address thematic topics such as the interaction between oil and state fragility the changing political dynamics of climate change and the politics of resource subsidies

**Public Affairs and Administration: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2015-05-31 Effective administration of government and governmental organizations is a crucial part of achieving success in those organizations To develop and implement best practices policymakers and leaders must first understand the fundamental tenants and recent advances in public administration Public Affairs and Administration Concepts Methodologies Tools and Applications explores the concept of governmental management public policy and politics at all levels of organizational governance With chapters on topics ranging from privacy and surveillance to the impact of new media on political participation this multi volume reference work is an important resource for policymakers government officials and academicians and students of political science

**Marxism** Amiya Bagchi, Amita Chatterjee, 2015-06-03 This book offers a unique re conceptualization of Marxism in bringing together leading scholars across disciplines history philosophy economics politics sociology and literary and culture studies into one comprehensive corpus It demonstrates the engaging relevance of the perspectives and techniques of the analyses adopted by Karl Marx Frederick Engels and contemporary Marxists and will be immensely useful to scholars and researchers across social sciences as well as general readers interested in Marxism

Citizen Publications in China Before the Internet S. Jiang, 2015-06-16 This book presents the first panoramic study of minkan citizen publications in China before the Internet This recent history of citizen publications contributes to the reclamation of a lost past of resistance It is

an exercise in remembering a past that has been marginalized by official history and recovering ideas obliterated by state power
