Worship Frames Deborah J. Kapp, 2008-09-16 Worship is a congregation's most important practice In worship we encounter God's gracious presence and come face to face with the frailty goodness and potential of our humanity We are comforted corrected forgiven healed challenged and sometimes even disturbed by the divine and one another We are morally formed and sent by God into the world The mysterious and uncontrollable work of the Spirit is at the heart of all genuine worship Yet worshipers and leaders work hard to worship In *Worship Frames* Deborah Kapp explores how the sociological concept of frames can help us better understand the social and human dynamics of worship Frames are interpretive schemes or ideas that help people locate understand and identify their experiences For example opening a service with a period of silent reflection followed by a sober hymn is a different frame for worship than opening with congregational announcements and a loud call and response session She has found that this theory has opened her eyes to dynamics in worship she had not noticed before and best helped her understand differences in worship styles By understanding our frames we can learn how to reframe worship to give fuller and richer expression to our faith Kapp shares her insights with congregations and worship leaders so they will gain new perspectives from which to analyze and design worship and deepen their perceptions about the

role worship plays in faith communities

Public Theology and Violent Rhetoric Examined in a Queer Womanist

Critical Ethnography Teresa L. Smallwood, 2025-01-23 Public theology is an emerging constructive tool In its inception public theology was largely contextualized as the public church However this thoughtful and empathetic book situates our publics everywhere Smallwood contends that those who have been harmed by violent rhetoric from speech actors who would other them retain the capacity to have and hold a theology This different entry point allows for people of faith those who are and those who are not associated with a particular communion of faith or denominational affiliation to claim public space for theologizing Here public theology is about the capacity of those who are othered to affirmatively express their faith and to critically engage with those who would deny and denigrate their ontology Enduring hardship as a good soldier does not mean exposing oneself to verbal abuse week after week Many LGBTQIA persons are assaulted degraded humiliated and derogated from the pulpits and podiums of places of worship This abuse caused many to turn away from their faith Those who withstood protracted verbal abuse turned it inward and began to hate themselves Through ethnography Smallwood tackles these tough truths and engages with LGBTQIA persons This book critically examines both the harm done to them and the help that is to come from a paradigmatic shift in care Smallwood emphasises how spiritual self assessment ritual and indigenous spiritual practices offer a way to wholeness and healing Drawing from Yoruba epistemology this work offers a framework for rebirth renewal and reclamation
