Lisa Waddington, Anna Lawson

Governance Sistema Persona Disabilitfamiglia:

The UN Convention on the Rights of Persons with Disabilities in Practice Lisa Waddington, Anna Lawson, 2018-05-24 Introduced in 2008 the UN Convention on the Rights of Persons with Disabilities has existed for nearly a decade This comprehensive study examines how courts in thirteen different jurisdictions make use of the Convention The first sustained comparative international law analysis of the CRPD Waddington and Lawsons ground breaking text illuminates the intersection between human rights law disability law and international law through an examination of the role of courts The first part of the book contains chapters specific to each jurisdiction The second part consists of comparative chapters which draw on the rich analysis of the jurisdiction specific chapters These chapters reflect on emerging patterns of judicial usage and interpretation of the CRPD and on the wider implications for human rights theory and the nascent field of international comparative human rights law This volume is a vital and thought provoking addition to the literature on comparative international law and disability rights

Family Care of Older People in Europe Ian Philp, 2001 Developing appropriate responses to an ageing population is recognized by policy makers throughout the developed world as a top priority as is the vital contribution made by family caregivers However cultural demographic and organizational differences between countries have encouraged diverse patterns of response to this common challenge This book provides a systematic cross cultural analysis of contemporary patterns and future trends in all major countries of the European Union Additional interest is provided by including Poland emerging from the post Communist block as the country at the forefront for joining the European Union The book should be useful to European policy makers and academics involved in studying the health and social care needs of older people and the capacity contribution and needs of family caregivers who provide care to older people The book is also relevant for policy makers and researchers in other countries mostly in North America and Australia who wish to study European approaches to supporting older people and family caregivers
