### ENLIGHTENMENT ERA (1600 – 1800)

- The Enlightenment was a 17th century intellectual movement.
- It worked to limit the power of monarch governments (kings and queens) and religious leaders.
- Other important Enlightenment ideas include popular sovereignty and natural rights.
- John Locke believed the job of government was to protect the rights of people or be overthrown, and his ideas greatly influenced the American colonists.
- Major Enlightenment thinkers:
  - Locke = Natural Rights
  - Montesquieu = Separation of Powers
  - Voltaire = Freedom of Speech
- Enlightenment ideas led to the American Revolutionary War, the Declaration of Independence, U.S. Constitution, Bill of Rights, and the French Revolution.

### INDUSTRIAL REVOLUTION (CONTINUED)

- Urbanization led to several negative effects:
  - Pollution
  - Dangerous working conditions
  - Long hours and low wages
  - Child labor
  - Slums and poor housing conditions
  - Cramped living spaces and rampant diseases
- Labor unions formed to combat terrible working conditions in factories and sought better pay, shorter hours, and improved conditions.
- Henry Ford – founder of the Ford Motor Company – used the assembly line to produce his cars fast and cheap. This revolutionized manufacturing and gave rise to specialized labor.

### INDUSTRIAL REVOLUTION (1750 – 1900)

- The Industrial Revolution took place in the late 1700s in Europe and in the early 1800s in America, and it was a time of technological innovation.
- Improved agricultural technology, like steam-powered tractors and large-scale food processing factories led to increased food yields.
- Railroad linked cities, brought materials to factories more efficiently, increased trade between cities and countries, and allowed people to move more freely.
- Many people moved from rural areas to cities to find work in newly built factories, a movement known as urbanization.

**The meaning of public authority under the Human Rights Act** Great Britain: Parliament: Joint Committee on Human Rights, 2007-03-28 Section 6 of the Human Rights Act HRA makes it unlawful for public authorities to act in breach of Convention rights UK courts have adopted a restrictive interpretation of the meaning of public authority potentially depriving numerous often vulnerable people from the human rights protection afforded by the HRA There has been little evidence of progress since the previous report on this matter HL 39 HC 382 7th report session 2003 4 ISBN 9780104004173 Chapter 2 examines developments in case law since 2004 and the Committee considers the Government s 2005 guidance on contracting for services in the light of the Human Rights Act takes a very negative approach to the difficulties facing the use of contracts to secure better the protection of human rights lacks accessibility and is difficult to understand and has little or no influence on the procurement policies of local authorities In Chapter 3 the Committee considers the case for further action to overcome the problems arising from a narrow interpretation of public authority It concludes that the practical implications of the current case law are such that some service users are deprived of a right to an effective remedy for any violation of their Convention rights The Committee has not seen any convincing evidence that providers would leave the public services market if they were subject to the duty to act compatibly with Convention rights despite the Government s premature and unsupported concerns about market flight In Chapter 4 the Committee considers steps which could be taken to resolve the problems identified including use of legislation to clarify the meaning of public authority in section 6 HRA through a separate supplementary and interpretative statute
