*The EU Economic and Social Model in the Global Crisis* Dagmar Schiek, 2016-02-11 This book addresses the viability of the EU economic and social model within and after the global economic crisis It identifies four key issues which warrant further discussion 1 the asymmetry of the legal and policy framework of the euro and potential recalibration 2 substantive tensions between the EU economic constitution and its normative aim of social justice and impacts on national policy 3 the role of civil society including the two sides of industry in overcoming these tensions and 4 the EU's global aspirations towards the creation of a viable socio economic model Its chapters offer two perspectives on each of the four main issues In drawing these debates together the book provides a broad understanding as well as starting points for future research Bringing together different disciplinary approaches ranging from legal studies to political economy sociology and macroeconomics it is a valuable contribution to the debate on the European social model and introduces new insights by focusing on legal and political tensions the impact of the financial crisis and other economic contexts as well as global dimensions

Democratising the EU from Below? Ulrike Liebert, Alexander Gattig, 2016-05-23 For the European Union of the 21st century the search for sustainable prosperity and stability includes the challenge of reconciling democratic ideals and practices with the construction of a European constitutional order From the 2001 Laeken Summit to the 2009 Lisbon Treaty and beyond EU leaders have repeatedly set out

to bring citizens closer to EU governance by making it more democratic and effective yet several national ratification referendums have shown that publics are divided about whether and why to endorse or veto complex EU reform packages imposed from the top down Despite these limitations people do effectively engage in the making of a European polity By initiating national court proceedings active citizens are promoting fundamental European rights in Member States practices As party members they contribute to shaping mass media communication about and national publics understanding of European political alternatives As civil society activists citizens help build social networks for contesting certain EU reforms or advocating others Last but not least as voters in national and European elections they choose between competing party visions and national parliamentary stances regarding the role of democratic citizenship This original contribution to the debate about democratic citizenship vis vis the challenges of economic globalization and European political integration presents critical explorations of different fields of direct representative participatory and deliberative democratic citizenship practices that affect the transformation of Europe

#### **Labour Migration in the European Union** Gönül Oğuz, 2020-03-12

No analysis of migration in Europe today can avoid consideration of the role of the EU institutions as well as the member states in policy making This is because the obstacles for labour mobility which have confronted the EU in the post enlargement period have been multi dimensional in nature have encompassed many different aspects of European integration process and have operated at many different levels Recent developments in the free movement of labour in Europe entail a comprehensive analysis of the dynamic of migration policy process contextualising institutional change cooperation control and competition between the EU institutions and the member states This book provides a picture of how governance of labour migration is constructed managed negotiated and decided at the European level It brings together in an informed and well organized way some of the key issues in the face of current migration crises and Brexit

The European Union as a Global Regulator? Alasdair Young, 2017-10-02 The European Union is often depicted as a dominant global regulator The purpose of this volume is to move beyond establishing that the EU influences global regulation to being to identify under what conditions it exerts that influence Toward that end it focuses on the EU s active efforts both bilateral and multilateral to shape regulations beyond its borders The empirical chapters in this volume are explicitly comparative among foreign partners across international contexts over time and across issues The more conceptual contributions posit an explanation for the EU s choice of regulatory cooperation strategy and take stock of Market Power Europe as a dynamic conceptual framework for understanding and researching the EU as a power Collectively this volume advances three arguments the utility of the EU s regulatory power resources is context specific debates about what kind of power the EU is at least as currently conceived are unproductive and that the EU s engagement in the world is better explained through general theories of international political economy This book was published as a special issue of the Journal of European Public Policy

*European Union Constitutionalism in Crisis* Nicole Scicluna, 2014-10-17 Several years after the first Greek

bailout the integration project of the European Union faces an interlocking set of political economic legal and social challenges that go to the very core of its existence Austerity is the order of the day and citizens in both debtor and creditor states increasingly turn to the political movements of the far left and right anti politics and street protests to vent their frustration This book demonstrates the limits of constitutionalism in the EU It explores the twin crises the failure of the Constitutional Treaty in 2005 and the more recent Eurozone crisis to illuminate both the possibilities and pitfalls of the integration project It argues that European integration overburdened law in an attempt to overcome deep seated political deficiencies It further contends that the EU shifted from an unsuccessful attempt at democratisation via politicisation the Constitutional Treaty to an unintended politicisation without democratisation the Eurozone crisis only a few years later The book makes the case that this course is unsustainable and threatens the goal of European unity This text will be of key interest to students and scholars in the fields of EU studies EU law democracy studies constitutional studies and international relations

The European Union beyond the Crisis Boyka M Stefanova, 2014-11-14 This volume explores institutional and policy developments in the EU and its member states in a parallel examination of citizens views of the effectiveness of crisis response reflected in public trust output legitimacy and satisfaction with democracy Our approach to understanding the crisis posits EU level governance and institutional change national level policymaking and domestic politics as interrelated interdependent domains of political action and public spheres that collectively shape the political landscape of post crisis Europe The volume sheds new light on the relationship among the institutional policy and polity consequences of the crisis The book has two fundamental aims The first is to demonstrate the interconnected nature of European governance domestic reform and democratic politics The unprecedented complexity of the financial sovereign debt economic and social crises in Europe has led to a political crisis that reflects the struggle to effectively address its various causes and effects The second objective is to present a theoretically informed assessment of the consequences of the European crises for state society relations and democratic legitimacy Our analysis of the crisis in a variety of national contexts and European governance highlights the difficulties faced by political decision makers We find that the domestic policy process is selectively affected or disconnected from the process of rule making at the EU level that public opinion still matters in the process of policy formation and EU crisis response and that the salience of the EU agenda in the domestic public sphere increasingly depends on the preferences of political actors Public response to the crisis has become increasingly complex as well ranging from declining trust in the political institutions emerging national stereotypes changing expectations of the EU level of crisis response growing disconnect between political parties and voters and evolving intra regional distinctions across the EU s east west divide

The New Intergovernmentalism Christopher J. Bickerton, Dermot Hodson, Uwe Puetter, 2015 The twenty years since the signing of the Maastricht Treaty have been marked by an integration paradox although the scope of European Union EU activity has increased at an unprecedented pace this increase has largely

taken place in the absence of significant new transfers of power to supranational institutions along traditional lines. Conventional theories of European integration struggle to explain this paradox because they equate integration with the empowerment of specific supranational institutions under the traditional Community method. New governance scholars meanwhile have not filled this intellectual void preferring instead to focus on specific deviations from the Community method rather than theorizing about the evolving nature of the European project. The New Intergovernmentalism challenges established assumptions about how member states behave, what supranational institutions want and where the dividing line between high and low politics is located and develops a new theoretical framework known as the new intergovernmentalism. The fifteen chapters in this volume by leading political scientists, political economists and legal scholars explore the scope and limits of the new intergovernmentalism as a theory of post Maastricht integration and draw conclusions about the profound state of political disequilibrium in which the EU operates. This book is of relevance to EU specialists seeking new ways of thinking about European integration and policy making and general readers who wish to understand what has happened to the EU in the two troubled decades since 1992.

### **The European Union's Evolving External Engagement**

Chad Damrosch, Siegfried Grottel, Simon Schunz, 2017-11-07. In recent decades the external action of the European Union (EU) has been undergoing considerable change. An expansion of the EU's external policy portfolio can be observed in many areas as previous policies for internal purposes such as competition, energy, the environment, justice and home affairs or monetary governance but also gender, science, culture or higher education have developed external dimensions. This book addresses the EU's potential to become a more joined-up global actor in its external engagement. It uses a single and innovative analytical framework to examine three clusters of policies: EU internal, sectoral and cross-cutting policies with long-standing external engagement; those which have been undergoing considerable change; and originally internal policies whose external dimensions are comparatively more recent. It identifies key explanatory factors for the emergence of certain forms of EU external engagement and identifies patterns of the evolving relations between EU internal and external sectoral policies. As such, the book examines and assesses exciting new empirical and theoretical research avenues into European integration studies and offers insights into the extent to which the EU may be considered a more joined-up global actor developing sectoral diplomacies. This text will be of key interest to scholars and students as well as practitioners in the fields of European Union politics, European Union foreign policy, European Politics, diplomacy studies and more broadly law and international relations.

### **European Public Diplomacy** Mai'a K. Davis Cross, Jan Melissen, 2015-12-11

Do the various aspects of Europe's multi-levelled public diplomacy form a coherent overall image or do they work against each other to some extent? European Public Diplomacy pushes the literature on public diplomacy forward through a multifaceted exploration of the European case.

### European Integration Since the 1920s

Mark Hewitson, 2024-10-14. Brexit, populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration. This book re

examines why the European Union and its forerunners were created and investigates how and why they have changed. It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences. The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states. After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens. As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation. The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union. It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have. The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union.

The Palgrave Handbook of EU Crises Marianne Riddervold, Jarle Trondal, Akasemi Newsome, 2020-12-21. This handbook comprehensively explores the European Union's institutional and policy responses to crises across policy domains and institutions including the Euro crisis, Brexit, the Ukraine crisis, the refugee crisis, as well as the global health crisis resulting from COVID-19. It contributes to our understanding of how crisis affects institutional change and continuity, decision making behavior and processes and public policy making. It offers a systematic discussion of how the existing repertoire of theories understand crisis and how well they capture times of unrest and events of disintegration. More generally, the handbook looks at how public organizations cope with crises and thus probes how sustainable and resilient public organizations are in times of crisis and unrest.

*The European Union* Ingeborg Toemmel, 2017-08-24. The European Union affects the lives of Europeans in many and varied ways yet in spite of its reach it often appears a constrained political system struggling for internal consensus, reliant on the agreement of national governments and hampered by the scepticism of electorates. These issues have become even more acute in the wake of the global economic and eurozone crises. This new text provides a concise and up to date introduction to the nature of the European Union giving an account of its evolution and structure that makes sense of its current challenges. The text analyses the EU's institutional structure and decision making procedures and highlights the manifold conflicts as well as the sophisticated mechanisms for consensus building among the core institutions.

It explains the ways in which the EU differs from other forms of political order and how this leads to political processes that are characterized by cooperation and conflict. In providing this context the author invites readers to a critical assessment of the functioning of the European Union and of the implications of this for its democratic legitimacy and future prospects. **A European Central Bank Standing Guard over a European Currency Union** Jan Meyers, 2024-04-26 In this year of the euro's 25th anniversary the book revisits the architecture of the European currency union as it continues to evolve and faces today's concurrent challenges posed by its members' high and diverging government debt levels, debt sustainability concerns and the considerable public expenditures, investments and reforms needed in particular to address climate change and the green transition. Key components reviewed include the single monetary policy for the eurozone, the common rules and processes for keeping a measure of discipline and orderliness in the members' economic and budgetary policies, the containment of financial fragmentation within the eurozone and stability support for members under financial stress. The book focuses on the central role of the European Central Bank (ECB) and considers such issues as how the ECB has defined its monetary policy mandate and calibrated its actions within the matrix of broadly worded objectives and constraints set by the EU Treaties, the possible tensions and trade-offs between the ECB's primary mission of inflation control and the episodic need to avert risks to financial stability, contain financial fragmentation and preserve the cohesion of the European currency union, the difficulties of a single monetary policy interacting with the relative heterogeneity of economic characteristics and national fiscal policies across the eurozone, the ECB's possible role in supporting the transition to a lower carbon economy and how judicial review by the European Court of Justice has to contend with the complexities and inherent uncertainties of monetary analysis and the ECB's need of a broad margin of policy judgment. As part of the EU's incomplete economic and monetary union, the currency union remains a work in progress. The challenges and choices at hand present serious legal questions that cannot be viewed in isolation from the economic and political issues: a kind of 3D combination puzzle to be solved. *The EU* John R. Gillingham III, 2016-05-02 With Britain leaving the EU now is the time for an obituary for the EU as an institution. In this short, rigorously argued book updated after Brexit, John R. Gillingham tells the history of an idea that has soured and withered away. He reveals the failures from its postwar origins to set out what the EU was, the role that Delors played in creating the neoliberal monster it is today and the contemporary crises: refugees, Brexit, the Euro, that the current institution fails to deal with. *Regional Developmentalism through Law* Jonathan Bashi Rudahindwa, 2018-05-20 Offering a study of regionalism in Africa and investigating the ways in which law can be used to address the issues raised by regional processes on the continent, this book examines the African Economic Community, considering that it has been entrusted to coordinate and to harmonize policies between various Regional Economic Communities (RECs) across the continent, thereby influencing the continent's approach towards regional integration. It seeks to identify how law can be used to strengthen the African RECs while ensuring that they achieve their goal of promoting regional development across the

continent Drawing upon economic and political theories and using a critical doctrinal analysis of legal texts and norms the book uncovers the legal and economic underpinnings of the model of regional integration followed by the regional schemes operating under the banner of the AEC aiming to contribute to the search for effective methods to ensure the success of these various initiatives Proposing the concept of Regional Developmentalism Through Law as the most suitable conceptual framework to support the effective establishment of an African Economic Community this book will be of interest to researchers academics and policy makers interested in the correlation between law regional integration and development in Africa *Oxford Principles of European Union Law* Robert Schütze, Takis Tridimas, 2018-02-23 Since the 1957 Rome Treaty the European Union has changed dramatically in terms of its composition scope and depth Originally established by six Western European States the EU today has 28 Members and covers almost the entire European continent and while initially confined to establishing a common market the EU has come to influence all areas of political economic and social life In parallel with this enormous geographic and thematic expansion the constitutional and legislative principles underpinning the European Union have constantly evolved This three volume study aims to provide an authoritative academic treatment of European Union law Written by leading scholars and practitioners each chapter offers a comprehensive and critical assessment of the state of the law Doctrinal in presentation each volume nonetheless tries to present a broader historical and comparative perspective Volume I provides an analysis of the constitutional principles governing the European Union It covers the history of the EU the constitutional foundations the institutional framework legislative and executive governance judicial protection and external relations Volume II explores the structure of the internal market while Volume III finally analyses the internal and external substantive policies of the EU **Leadership in the Eurozone** Magnus G.

Schoeller, 2019-03-01 Leadership of powerful states and organizations is crucial for the success of regional integration projects This book offers a theoretical model explaining such leadership By applying the model to eurozone governance and reform the book combines innovative theorizing on leadership in regional and international affairs with original research on Economic and Monetary Union politics Six in depth case studies analyze the non leadership of Germany and EU institutions in eurozone crisis management Moreover the book evaluates the eurozone s leadership record since the outbreak of its crisis and helps readers understand the leadership of collective actors and the extent to which they can contribute to overcoming crisis and fostering European integration In particular the book investigates the under researched questions of who provided leadership in the eurozone crisis and why and which conditions are required to achieve successful leadership in the EU

*Social Policy and EU Polity-building Through Crises and Beyond* Anna Kyriazi, Joan Miró, Marcello Natili, Stefano Ronchi, 2024-10-28 This volume sets out to explain the conditions that have favoured the expansion of the European social dimension during the turbulent decade of 2010 20 when Europe was confronting strong countervailing pressures including the euro crisis the refugee crisis and the COVID 19 pandemic The study begins by diagnosing a widespread although slow

burning crisis across the European Union EU resulting from the cumulation of social problems and the systemic tension between EU market integration on the one hand and nationally bounded welfare states and the other Eight in depth case studies analyse the political dynamics behind a variety of EU social initiatives aimed at addressing the consequences of free movement of workers youth unemployment poverty eroding wages environment and climate change and the COVID 19 pandemic To identify the specific drivers of EU social policymaking empirically the authors have reconstructed the struggles over concrete policy proposals as they unfolded in the European multilevel setting The volume introduces a novel analytical framework for interpreting the transformation of the EU social dimension in times of crisis when some degree of social coordination becomes crucial to bond deeply different welfare states together This in depth study offers an invaluable analysis for researchers academics and professionals interested in the functioning of the European polity The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
