Rethinking and Reviving Subject English Pete Bennett, Louise Lambert, Rob Smith, 2022-09-27 This book invites readers to engage with the rich and complex debates of contemporary English education outlining new possibilities to revive the teaching of English. Bringing together diverse voices and insights from educators in English across the primary, secondary, further and higher education phases, the book offers reflections and critical engagement with the lived experiences of English teachers and pupils in contemporary educational spaces. Each chapter includes example vignettes from classrooms which tell something of the story of English teaching today. The book considers how politics and policy have worked to close the opportunities of the English classroom for self-expression and critical engagement with the world at large. The authors then offer an exploration of the opportunities for a re-imagining of English: the murmurs of teachers and pupils that resist such closures. The chapters explore new thinking, new practices and new possibilities for English classrooms as inclusive, emancipatory, critical and creative spaces. Offering a thoughtful and hopeful dialogue from practising English teacher-researchers, the book will be essential reading for researchers and students of English language and literature education as well as trainee teachers of English.
