## **Lost In Transmission Studies Of Trauma Across Generations:**

**Lost in Transmission** M. Gerard Fromm, 2018-06-04 This book is about how traumatic psychological injury is passed down to the children and grandchildren of those who originally experienced it and about finding the shared humanity in families in psychotherapy in society and in memories of the past that repairs the damage people do to one another

*Lost in Transmission* M Gerard Fromm, Taylor & Francis Group, 2019-07-17 A central thesis of this volume is that what human beings cannot contain of their experience what has been traumatically overwhelming unbearable unthinkable falls out of social discourse but very often onto and into the next generation as an affective sensitivity or a chaotic urgency What appears to be a person's symptom may turn out to be a symbol in the context of this book a symbol of an unconscious mission to repair a parent or avenge a humiliation assigned by the preceding generation These tasks may be more or less idiosyncratic to a given family suffering its own personal trauma or collective in response to societal trauma

**Lost in Transmission** Gerard Fromm, 2012

Trans-generational Trauma and the Other Sue Grand, Jill Salberg, 2016-12-19 Often our trans generational legacies are stories of us and them that never reach their terminus We carry fixed narratives and the ghosts of our perpetrators and of our victims We long to be subjects in our own history but keep reconstituting the Other as an object in their own history Trans generational Trauma and the Other argues that healing requires us to engage with the Other who carries a corresponding pre history Without this dialogue alienated ghosts can become persecutory objects in psyche politics and culture This volume examines the violent loyalties of the past the barriers to dialogue with our Other and complicates the inter subjectivity of Big History Identifying our inherited narratives and relinquishing splitting these authors ask how we can recast our Other and move beyond dysfunctional repetitions in our individual lives and in society Featuring rich clinical material Trans generational Trauma and the Other provides an invaluable guide to expanding the application of trans generational transmission in psychoanalysis It will appeal to psychoanalysts psychoanalytic psychotherapists and trauma experts

Healing the Wounds of Gukurahundi in Zimbabwe Dumisani Ngwenya, 2017-12-14 This book is based on a participatory action research project carried out with a group of former Zimbabwe People's revolutionary Army ZPRA which was the armed wing of the Zimbabwe African People's Union ZAPU which was led by the late Joshua Nkomo ZPRA was the primary target of Gukurahundi a pogrom by the Mugabe government which left an estimated 20 000 civilians dead and countless others tortured in the early 1980s in Matebeleland Zimbabwe It has been almost 30 years since the violence ended but there has never been an official healing and reconciliation programme or truth commission into the atrocities The government chose the path of amnesia by granting a blanket amnesty to all involved The regime has enforced a culture of silence over the event through repression and intimidation The book is a culmination of a two year journey by the group and the author of an exploration of group based self healing approaches to the pain caused by the violence of Gukurahundi

*Collective Trauma and the Armenian Genocide* Pamela Steiner, 2021-02-25 In this pathbreaking study Pamela Steiner

deconstructs the psychological obstacles that have prevented peaceful settlements to longstanding issues. The book re-examines more than 100 years of destructive ethno-religious relations among Armenians, Turks, and Azerbaijanis through the novel lens of collective trauma. The author argues that a focus on embedded transgenerational collective trauma is essential to achieving more trusting, productive, and stable relationships in this and similar contexts. The book takes a deep dive into history, analysing the traumatic events, examining and positing how they motivated the actions of key players, both victims and perpetrators, and revealing how profoundly these traumas continue to manifest today among the three peoples, stymying healing and inhibiting achievement of a basis for positive change. The author then proposes a bold new approach to conflict resolution as a complement to other perspectives such as power-based analyses and international human rights. Addressing the psychological core of the conflict, the author argues that a focus on embedded collective trauma is essential in this and similar arenas.

**Demons in the Consulting Room** Adrienne Harris, Margery Kalb, Susan Klebanoff, 2016-08-05. *Demons in the Consulting Room: Echoes of Genocide, Slavery, and Extreme Trauma in Psychoanalytic Practice* is the second of two volumes addressing the overwhelming, often unmetabolizable feelings related to mourning both on an individual and mass scale. Authors in this volume explore the potency of ghosts, ghostliness, and the darker, often grotesque aspects of these phenomena. While ghosts can be spectral presences that we feel protective of, demons haunt in a particularly virulent way, distorting experience, our sense of reality, and our character. Bringing together a collection of clinical and theoretical papers, *Demons in the Consulting Room* reveals how the most extreme types of trauma can continue to have effects across generations and how these effects manifest in the consulting room. Essays in this volume consider traumas that have affected multiple generations of people, such as the Holocaust, experiences in the gulags, and the experience of slavery. Authors here consider the clinical challenges of working with the demonic force in severe childhood abuse and the effects of serious and prolonged physical injury and illness. Inevitably, there is in such difficult clinical work the combined effects of hauntings in the analysts and in patients, and often in the surrounding culture. In this book, distinguished psychoanalysts explore the myriad forms of ghosts and the demonic which interfere and disrupt the endlessly difficult psychic work of mourning. It will be of interest to psychotherapists and psychoanalysts as well as social workers, family therapists, psychologists, and psychiatrists. *Demons in the Consulting Room* will appeal to those specializing in bereavement and trauma, and on a broader level to sociologists and historians interested in understanding means of coping with loss and grief on both an individual and larger scale basis.

interrupting and healing the transmission of trauma across the generations Within a longer historical framework this book also explores the Cultural Revolution as a defensive compulsory repetition of the traumas that China had previously experienced on a political and cultural level Bearing witness to a personal process of transforming a wound into work this first person account offers in depth understanding and guidance for psychotherapists and psychoanalysts engaged in interrupting and healing the trans generational transmission of trauma
