*The Woodhen* Clifford Frith, 2013-06-12 This book tells the fascinating success story of saving the flightless Woodhen of Lord Howe Island This unique large rail an iconic and highly endangered Australian bird was at the very brink of extinction with just 15 individuals found in 1980 when bold and risky actions were taken to save it The book begins with the discovery and ecology of Lord Howe Island It then details the history of the Woodhen its place among the rails and their evolution of flightlessness the planning implementation and trials tribulations and successes of the captive breeding programme and the

way in which the wild population recovered The ecology behaviour and breeding biology of this unique flightless island rail are also discussed The text is accompanied by numerous photographs and drawings This is a story of survival yet the bird remains highly endangered as it is under constant potential threat which could tip it over the brink and to extinction The Woodhen provides gripping insights into the potential for both losing and saving vertebrate species Winner of a 2014 Whitley Awards Certificate of Commendation for Historical Zoology Natural Encounters Bruce M. Beehler, 2019-05-21 A twelve month excursion through nature s seasons as recounted by a lifetime naturalist In this personal encyclopedia of nature s seasons lifetime naturalist Bruce Beehler reflects on his three decades of encountering nature in Washington D C The author takes the reader on a year long journey through the seasons as he describes the wildlife seen and special natural places savored in his travels up and down the Potomac River and other localities in the eastern and central United States Some of these experiences are as familiar as observing ducks on the National Mall in Washington D C or as unexpected as collecting fifty million year old fossils on a Potomac beach Beyond our nation s capital Beehler describes trips to nature s most beautiful green spaces up and down the East Coast that he says should be on every nature lover s bucket list Combining diary entries riffs on natural subjects field trips photographs and beautiful half tone wash drawings this book shows how many outdoor adventures are out there waiting in one s own backyard The author inspires the reader to embrace nature to achieve a more peaceful existence Engaged Anthropology Stuart Kirsch, 2018-03-30 Does anthropology have more to offer than just its texts In this timely and remarkable book Stuart Kirsch shows how anthropology can and why it should become more engaged with the problems of the world Engaged Anthropology draws on the author s experiences working with indigenous peoples fighting for their environment land rights and political sovereignty Including both short interventions and collaborations spanning decades it recounts interactions with lawyers and courts nongovernmental organizations scientific experts and transnational corporations This unflinchingly honest account addresses the unexamined backstage of engaged anthropology Coming at a time when some question the viability of the discipline the message of this powerful and original work is especially welcome as it not only promotes a new way of doing anthropology but also compellingly articulates a new rationale for why anthropology matters **Australia's Lost World** Michael Archer, Suzanne Hand, Suzanne J. Hand, Henk Godthelp, 2000 In Queensland in northeast Australia lies one of the most significant fossil deposits in the world Riversleigh Here the remains of many thousands of weird and wonderful prehistoric animals have been superbly preserved in the limestone outcrops There are marsupial lions carnivorous kangaroos 23 foot long pythons primitive platypuses and early ancestors of the now extinct Tasmanian tiger So important is this site to our understanding of what has happened to Australia and its living cargo over the last 25 million years that Riversleigh has been inscribed on the World Heritage List Michael Archer Suzanne J Hand and Henk Godthelp the principal scientists on a remarkable excavation since 1976 explain the vast environmental and geographic changes that have occurred in this area since Australia broke away from the

supercontinent of Gondwana and how the animals on board this continental raft evolved through the ages Photographs and evocative artwork bring to life the teeming tropical world that once existed in the now arid wastes of Riversleigh and the authors discuss some of the unusual techniques used on a dig They describe how to recognize fossils how to date them and how to reconstruct extinct animals from them Originally published as Riversleigh The Story of Animals in Ancient Rainforests of Inland Australia this award winning book is being issued for the first time in the United States **Official Meeting**
