

A close-up photograph of a mole, likely a European mole (Talpa europaea), resting in a field of vibrant green grass. The mole's dark, velvety fur is covered in fine, light-colored hairs, giving it a textured appearance. Its small, dark eyes are visible, and its pinkish-brown snout is pointed towards the left. The grass blades are long and thin, some showing signs of being eaten. The background is a soft-focus green, emphasizing the mole as the central subject.
