Modern Drama and the Rhetoric of Theater W. B. Worthen, 2015-01-30

The history of drama is typically viewed as a series of inert styles Tracing British and American stage drama from the 1880s onward W B Worthen instead sees drama as the interplay of text stage production and audience How are audiences manipulated What makes drama meaningful Worthen identifies three rhetorical strategies that distinguish an O Neill play from a Yeats or these two from a Brecht Where realistic theater relies on the natural qualities of the stage scene poetic theater uses the poet s word the text to control performance Modern political theater by contrast openly places the audience at the center of its rhetorical designs and the drama of the postwar period is shown to develop a range of post Brechtian practices that make the audience the subject of the play Worthen s book deserves the attention of any literary critic or serious theatergoer interested in the relationship between modern drama and the spectator

Brecht and Political Theatre Laura Bradley, 2006-06-29 This production history of *The Mother* provides substantial new insights into Bertolt Brecht s theatre and drama his impact on political theatre and the relationship between text performance and politico cultural context As the only play which Brecht staged in the Weimar Republic during his exile and in the GDR *The Mother* offers a unique opportunity to

compare his theatrical practice in contrasting settings and at different points in his career Through detailed analysis of original archival evidence Bradley shows how Brecht became far more sensitive to his spectators political views and cultural expectations even making major tactical concessions in his 1951 production at the Berliner Ensemble These compromises indicate that his mature staging should not be regarded as definitive for it was tailored to a unique and delicate situation The Mother has appealed strongly to politically committed theatre practitioners both in and beyond Germany By exploiting the text s generic hybridity and the interplay between Brecht s epic and dramatic elements directors have interpreted it in radically different ways So although Brecht s 1951 production stagnated into an affirmative GDR heritage piece post Brechtian directors have used The Mother to promote their own political and theatrical concerns from anti authoritarian theatre to reflections on the legacies of state Socialism Their ideological and theatrical subversion have helped Brecht s text to outlive the political system that it came to uphold
