Gregory Palamas The Triads Classics Of Western Spirituality

Daniel E. Wilson Ph.D.

Gregory Palamas The Triads Classics Of Western Spirituality:

The Triads Saint Gregory Palamas, 1296-1359 monk, archbishop and theologian was a major figure in 14th century Orthodox Byzantium. This his greatest work presents a defense in support of the monastic groups known as the hesychasts, the originators of the Jesus Prayer. **Spirituality** Philip Sheldrake, 2013-01-22 Engagingly written by one of the world's leading scholars in this field, this comprehensively revised edition tells the story of Christian spirituality from its origins in the New Testament right up to the present day. Charts the main figures, ideas, images and historical periods showing how and why spirituality has changed and developed over the centuries. Includes new chapters on the nature and meaning of spirituality and on spirituality in the 21st century and an account of the development and main features of devotional spirituality. Provides new coverage of Christian spirituality's relationship to other faiths throughout history and their influence and impact on Christian beliefs and practices. Features expanded sections on mysticism, its relationship to spirituality, the key mystical figures and the development of ideas of the mystical. Explores the interplay between culture, geography and spirituality, taking a global perspective by tracing spiritual developments across continents. **The Spiritual Way** Philip Sheldrake, 2019-09-06 In *The Spiritual Way: Classic Traditions and Contemporary Practice*, Philip Sheldrake aims to make the wisdom of Christian spirituality better known to contemporary readers. After an introductory chapter on the foundations of Christian spirituality, Sheldrake describes its diverse riches through the centuries in terms of five distinctive types of Christian spiritual wisdom, illustrated by a rich selection of classical examples. The five types are: The Way of Discipline, The Contemplative Mystical Way, The Way of Practical Action, The Way of Beauty, and The Prophetic Way. This book also briefly explores the contemporary interest in spirituality within and beyond conventional religion and suggests how we might engage with these five types on our spiritual journeys in today's world. **Christian Charismatic Movements** Andrzej Siemienieński, Mirosław Kiwka, 2021-10-11 The New Testament shows the early Church as having both stable institutions and dynamic growth in charismatic ministries. In the twenty-first century, although many historically determined essentials have changed, the Church's structure remains fundamentally the same. This study looks at New Testament ministries: Eph 4:11-12, Baptism in the Holy Spirit, and the history of the gift of tongues from the Acts of the Apostles through to the charismatics of our time, to see how these elements contribute to the fast-paced global phenomenon we call the pentecostalization of modern Christianity. Our research shows that much of what appears to be novel in current ecclesial movements is the fruit of charisms that have been poured out from the beginning. The disciples of Christ are still bringing out of his treasure what is new and old. **Deification and the Rule of Faith** Daniel E. Wilson Ph.D., 2015-11-05 Evangelicals are often surprised or maybe even shocked whenever they encounter the early Church Fathers' description of salvation in terms of deification, divinization, or apotheosis. It was Athanasius the Great, the champion of Nicene orthodoxy, who coined the phrase in his *On the Incarnation*: God became man so that man might become God. Hundreds of years before

Athanasius Irenaeus disciple of Polycarp disciple of the Apostle John wrote of Christ's salvific provision for humanity using similar deification type concepts. Why did these Church Fathers use such seemingly foreign biblical concepts? Could it be that influential theologian Adolf Harnack is right and these church Fathers' implementation of deification reveals that the gospel changed from what Jesus originally intended after being exposed to Hellenistic culture? Not at all at least that is what this work argues. It does so first by comparing an overall understanding of deification in both Athanasius and Irenaeus' respective writings. This section encompasses the first three chapters which exhibit how the Fathers' use of deification is immersed in their respective descriptions of salvation history, the Trinity and Christology. Further, this work assesses Harnack's proposal by comparing the Fathers' respective descriptions of deification with that of many Greek and Roman philosophers. Finally, this work seeks to propose that both Irenaeus and Athanasius contextualize the gospel by comparing the Fathers' respective descriptions of deification with their respective understandings of scriptural authority and the rule of faith.

The Divine Imprint Russell Stannard, 2017-04-20. The so-called New Atheists receive much publicity but their demand to be provided with incontrovertible evidence for the existence of God and that such evidence must come from a scientific examination of the physical world is the wrong approach. As many theologians and philosophers have claimed, the search for God begins by looking inwards into oneself. But what does that mean? Surely looking inwards we find nothing but the contents of one's own mind. Where does God come in? It is by the examination of the contents of the mind and trying to understand how they got there that one seeks clues about God's influence on the mind. Our consciousness bears a resemblance to that Consciousness from which it is directly derived. It bears his imprint. It is from the characteristics of that imprint we get to know what kind of God we are dealing with. Only then can we be open to realising how that other creation of his, the physical world, also bears his imprint.

Paths To The Heart: Sufism And The Chris James S. Cutsinger, 2010-08-01. Despite the long and well-known history of conflict between Christians and Muslims, their mystical traditions, especially in the Christian East and in Sufism, have shared for centuries many of the same spiritual methods and goals. The purpose of this book, the first major publication of its kind, is to promote precisely this more inward kind of ecumenical perspective. These essays point to a spiritual heart in which the deeper meaning of Christian and Muslim beliefs and practices come alive and where spiritual pilgrims may discover beyond the level of seemingly contradictory forms an inner commonality with those who follow other paths.

Snatched into Paradise (2 Cor 12:1-10) James Buchanan Wallace, 2011-01-27 Recent scholars have tended to interpret 2 Corinthians 12 1 10 as an attempt to belittle ecstatic experiences such as Paul s ascent to paradise in favor of suffering in the service of the gospel This study offers an alternative An analysis of ascent traditions in the Greco Roman and Jewish worlds investigates ascent as both a literary motif and a religious practice This analysis probes several issues relevant to 2 Cor 12 1 10 including dynamics of ascent and suffering The study turns next to religious experiences Paul believes he and his communities have undergone A pattern emerges in which extraordinary experiences provide the basis for suffering and service Moreover Paul expects his communities to have had experiences similar to if less dramatic than his ascent to heaven The author argues that in its context in 2 Corinthians Paul s ascent should be understood as an encounter with Christ that transcends human language and endows Paul with divine power which must be refined through suffering With the help of four premodern interpreters the study further explores the theological relevance of Paul s ascent For Paul mystical encounter with Christ forms the precondition for suffering and service because it enables self transcending love for God and neighbors

Arius on Carillon Avenue Peter Carnley, 2023-11-09 In this book and its companion volume The Subordinate Substitute Peter Carnley unpicks logical knots and entanglements of argument found today in contemporary expressions of belief in the eternal functional submissiveness of the Son to the Father Trinitarian subordinationism and complementarianism is characteristically found along with associated conservative evangelical beliefs in the subordination of women to men and the theology of redemption known as the penal substitutionary theory of the atonement This theological package is energetically promoted amongst conservative evangelical Christians most notably members of the Southern Baptist Church and Presbyterians of the Westminster Tradition in the United States and Britain and very significantly amongst conservatively minded Anglicans of the Diocese of Sydney and elsewhere across Australia All the while the argument of this book is driven by the question of whether this popular phenomenon of contemporary evangelical Christianity is fairly and legitimately categorized as a modern form of the ancient heresy of Arianism
