Disclaimer a few of our mnemonics might not be appropriate for kids some contain adult language or situations Over 950 of the words in this book appear in our other mnemonics book SAT Vocab Capacity So if you're easily offended the SAT version might be a better choice

Why This Book Is Different If you're studying for the GRE SAT or for any other standardized test that measures your vocabulary you may be feeling a little bit anxious especially if you've taken a practice test and encountered words you didn't know or maybe never even saw before Whether you have seven days or seven months to

prepare for the test you're going to want to boost your vocabulary. But it's not that simple; you've got to remember the words you learn. And on many GRE text completion and sentence equivalence questions, getting the right answer comes down to knowing the precise definition of the words. You could make vocabulary flashcards. You could look up words you don't know. You could read a book with lots of big words. But unless you give your brain a way to hold on to the words you learn, it will probably have a harder time remembering them when they appear on the test. That's the problem with most vocabulary books: the definitions and sentences in the books aren't especially memorable. That's where this book is different. We've not only clearly defined the words but we've also created sentences designed to help you remember the words through a variety of associations using mnemonics.

Mnemonic Examples

A mnemonic is just a memory device. It works by creating a link in your brain to something else so that recall of one thing helps recall of the other. This can be done in many ways, but the strongest links are through senses, emotions, rhymes, and patterns. Consider this example: **Quash** (verb) to completely stop from happening. Think **squash**. The best way to quash an invasion of ants in your kitchen is simple: squash them. Now your brain has a link from the word **quash**, which it may not have known, to the word **squash**, which it probably knows. Both words sound and look the same, so it's easy to create a visual and aural link. If you picture someone squashing ants and maybe get grossed out, you also have another visual link and an emotional link. Here's another example: **Eschew** (verb) to avoid. Think **ah, choo**. **Eschew** people who say **ah, choo** unless you want to catch their colds. The word **eschew** sounds similar to a sneeze **ah, choo**, so your brain will now link the two sounds. If you picture yourself avoiding someone who is about to sneeze in your face, even better. Again, the more connections you make in your brain to the new word, the better.

GRE Word List: Vocabulary with Memory Triggers Dr. Prasad Raju, 2014-09-09. Like a target, Dr. Raju's GRE word list gets ingrained in your mind. This proven methodology is based on more than a decade's practical research on vocabulary acquisition, retention, and usage. Many students have no idea of the advanced university-level vocabulary that appears on the GRE tests. If you are one of them, you found the right book. **GRE Wordlist: Vocabulary with Memory Triggers** will teach you the words you just need to know, sharply and efficiently. Absorb the words, not just acquaint with them, which is what most vocabulary books do. Try memory triggers guaranteed to fix each word and its meaning permanently in your mind and be a GRE word wizard.

How to use this book: Each word consists of four elements:

1. **The Word:** The word you wish to learn, followed by phonetic pronunciation and definition. Example: **aesthetic** /es-THET-ik/ concerned with beauty, artistic.
2. **The Memory Trigger:** The memory trigger is a simple word that rhymes or may signify the main word. Example: **Athletic**.
3. **Trigger Sentence:** The link connects the main word and the memory trigger in a sentence. Example: **athletic** body appears **aesthetic**.
4. **Sample Sentence:** Kumar carved an aesthetically pleasing wood sculpture.
