Things That Make You Go... Hmmm Gregg Amerman, 2016-02-09 Gregg Amerman began his quest for a better way of life and financial freedom in his mid twenties and achieved remarkable success by his early thirties He attributes his achievements to the tremendous personal growth he experienced while being mentored and coached by some of the most respected and credible individuals in business and personal success However Gregg s accomplishments did not occur overnight There were many obstacles adversities trials and tribulations along the way But he never wavered from his goals and dreams graduating from the school of hard knocks with a wealth of knowledge and documented personal achievements With a degree in Psychology Gregg began his career as a foster care social worker in New York City where he worked diligently helping people overcome their personal issues and self imposed limitations and motivating families to rebuild their futures Gregg spent the next decade of his career in sales management and sales training and ultimately trained consulted and advised sales organizations with revenues exceeding 100 million He then took his career in a new direction as he left the direct sales and networking industry to focus strictly on training With his unique style of selling motivating and coaching numerous companies began utilizing Gregg Amerman s training programs helping people across the country increase revenue productivity morale and personal fulfillment It was in 2009 that Gregg Amerman began another chapter in his professional life when he was introduced to Financial Education Services Gregg took an exclusive role as Director of Training and assembled a very talented team of individuals who created a duplicable system for all Financial Education Service agents to utilize and build a one of a kind training platform known as FES University By reading this book you will know what it takes to achieve wealth and independence understand how to eliminate excuses and overcome fears gain a new perspective on how to control and maximize time acquire the traits of an effective and powerful leader learn how to perform like a true professional and develop a definitive strategy for making excellent choices and decisions **Create a Desired Future by Working on Your Own Dream** Idowu Kotila, 2022-08-01 The book Create a Better Future by Working on Your Personal Dream is to define dreams and elaborate on what the dreams are and what dreaming is not It is a wake up call book for many people who are suffering in the midst of plenty simply because they actually have dreams and talents that can shift them to a better stage of their lives but the fear of the unknown is preventing them from making any move or use their talents to their own advantage and to the benefit of their communities and the world at large The book is also written to let many people who are talented but haven t discovered their talents to discover their talents through examples and advice given in the body of this book and to remind readers that relying on their fathers wealth or their uncles or aunties abroad cannot help their dream Possible channels for fulfilling dreams are touched in the book for as many that are on the crossroads on their way to success to study and be encouraged to put into practice This book is to remind the readers that people are poor not because they don t have money in their bank accounts but because they lack dreams vision and purpose and by exhibiting fear of

unknown in their mind Among the aim of this book is to remind the readers that borrowers are slaves to the lenders and to remind them that he who controls your time has control on your destiny and has a great influence on your life That is the case of employers to employees regardless of your position in your present jobs as employee Reasons why many university and college degree certificates holders are poor and serving as slaves to people in authority and the few rich who can take risks and work on their dreams even though they don't bag as much university degree is emphasized on in this book More also one of the major purposes of this book is to remind the brilliant students that school rewards people for their memory Life rewards people for their creativity and ability to solve problems Your degree or certificate is not the cure to poverty the cure to poverty is your ability to see and seize opportunities Possible advice to the common problems facing the university and college graduates that are struggling to make ends meet and those that are making it but want to shift to the next level of their greatness are included in chapters of this book The power of simple things is described in the chapter of this book by showing examples of simple thing that are easy for people to do to transform their lives but they keep failing to do at every point of their lives daily This is among the reasons why this book is published The constant law of wealth creation is mentioned in this book Possible and simple ways of starting and establishing businesses with possible steps to take in transiting from your regular jobs to your own business without becoming jobless in between the transit is in this book The ways to see your future are in the book Reading this book will allow employees to know that by working for people they will make a living While working on their businesses will make them a fortune The daily habits of the few rich and what they are doing daily to stay on top of the ladder and keep making people serve them and their generations are in this book The ability to turn challenges into opportunities and to diffuse the fear of the unknown in the mind of those who don't have hope in their future by letting them know that they are unstoppable by showing them how will be read in this book The way you think has a great role to play concerning what you will become in life Your thought is what you become If you cannot change your thought you cannot change your life This book was written to encourage the readers on the need to think progressively and the positive effects of progressive thinking Inclusive in this book is the need for the reader to be well informed in whatever areas in business career or community they find themselves The sure path to failure is when a man is ignorant and yet rejects every opportunity to obtain relevant knowledge If you know your assignment you will know what your needs are Where you will get to in life is determined by your assignment Reading this book will open ways for readers on how to recognize individual assignments and how to work in fulfilling the assignment rather than wasting time in doing what they were not called to do Time is such a commodity that when spent can never be recovered This book encourages readers to rise to their various challenges and reminds the readers of the importance of time management Overall this book serves as the GPS to navigate through the basic challenges of life and as a daily life devotional and motivational tool that encourages people to face and overcome the daily life challenges Many of these reasons and more to be discovered as you read on the book are
