Gregory The Great And His World:

Gregory the Great and His World R. A. Markus, 1997-10-09 Markus's new and accessible work is the first full study of Gregory the Great since that of F. H. Dudden 1905 to deal with both Gregory's life and work as well as with his thought and spirituality. With his command of Gregory's works, Markus portrays vividly the daily problems of one of the most attractive characters of the age. Gregory's culture is described in the context of the late Roman educational background and in the context of previous patristic tradition. Markus seeks to understand Gregory as a cultivated late Roman aristocrat converted to the ascetic ideal caught in the tension between his attraction to the monastic vocation and his episcopal ministry at a time of catastrophic change in the Roman world. The book deals with every aspect of his pontificate as bishop of Rome as landlord of the Church lands in his relations to the Empire and to the Western Germanic kingdoms in Spain, Gaul, and especially his mission to the English.

The Limits of Ancient Christianity Robert Austin Markus, 1999 Sixteen essays explore the end of ancient Christianity.

Reading Images from the Past Walter S. Melion, Christoph Pieper, Paul J. Smith, Anita Traninger, 2025-01-27 Reading Images from the Past is conceived as a Festschrift for Karl Enenkel. The contributors include art historians, literary scholars, and historians, and the topics cover a wide range of periods, countries, and cultural contexts. They explore the complex relation between word and image, consider the rhetorical and hermeneutic functions of various types of image making, and examine theories and practices of knowledge production across various media. They also reflect on the multi-faceted uses of the past in early modern European culture within debates on art, antiquarian studies, book culture, literature, and historiography. Throughout the volume, special attention is paid to the interaction amongst visual and textual forms and materials.

Holy Bishops in Late Antiquity Claudia Rapp, 2013-05-01 Between 300 and 600 Christianity experienced a momentous change from persecuted cult to state religion One of the consequences of this shift was the evolution of the role of the bishop as the highest Church official in his city from model Christian to model citizen Claudia Rapp's exceptionally learned innovative and groundbreaking work traces this transition with a twofold aim to deemphasize the reign of the emperor Constantine which has traditionally been regarded as a watershed in the development of the Church as an institution and to bring to the fore the continued importance of the religious underpinnings of the bishop's role as civic leader Rapp rejects Max Weber's categories of charismatic versus institutional authority that have traditionally been used to distinguish the nature of episcopal authority from that of the ascetic and holy man Instead she proposes a model of spiritual authority ascetic authority and pragmatic authority in which a bishop's visible asceticism is taken as evidence of his spiritual powers and at the same time provides the justification for his public role In clear and graceful prose Rapp provides a wholly fresh analysis of the changing dynamics of social mobility as played out in episcopal appointments

The Closing of the Western Mind Charles Freeman, 2007-12-18 A radical and powerful reappraisal of the impact of Constantine's adoption of Christianity on the later Roman world and on the subsequent development both of Christianity and of Western civilization When the Emperor Constantine converted to Christianity in 368

AD he changed the course of European history in ways that continue to have repercussions to the present day Adopting those aspects of the religion that suited his purposes he turned Rome on a course from the relatively open tolerant and pluralistic civilization of the Hellenistic world towards a culture that was based on the rule of fixed authority whether that of the Bible or the writings of Ptolemy in astronomy and of Galen and Hippocrates in medicine Only a thousand years later with the advent of the Renaissance and the emergence of modern science did Europe begin to free itself from the effects of Constantine's decision yet the effects of his establishment of Christianity as a state religion remain with us in many respects today Brilliantly wide ranging and ambitious this is a major work of history **Medieval Philosophy** Peter

Adamson,2019-09-26 Peter Adamson presents a lively introduction to six hundred years of European philosophy from the beginning of the ninth century to the end of the fourteenth century The medieval period is one of the richest in the history of philosophy yet one of the least widely known Adamson introduces us to some of the greatest thinkers of the Western intellectual tradition including Peter Abelard Anselm of Canterbury Thomas Aquinas John Duns Scotus William of Ockham and Roger Bacon And the medieval period was notable for the emergence of great women thinkers including Hildegard of Bingen Marguerite Porete and Julian of Norwich Original ideas and arguments were developed in every branch of philosophy during this period not just philosophy of religion and theology but metaphysics philosophy of logic and language moral and political theory psychology and the foundations of mathematics and natural science [The Illumination of History](#) Aaron Michael Jensen,2025-04-30 The Illumination of History is a Festschrift in honor of Glen L Thompson professor emeritus at Wisconsin Lutheran College Milwaukee Wisconsin and Asia Lutheran Seminary Hong Kong Among Thompson's works in various areas of church history are The Correspondence of Julius I 2015 In This Way We Came to Rome With Paul on the Appian Way 2023 with Mark Wilson and Jingjiao The Earliest Christian Church in China 2024 This Festschrift celebrates Thompson's broad contributions in church history with twenty two essays on New Testament history patristic history patristic historiography papal history Chinese Christian history and historical languages All of these essays serve as examples of how the study of history can provide illumination for the church **Medieval Italy** Christopher Kleinhenz,2004-08-02

Pasquarello offers something more salutary portraits of ten exemplary preachers from the Christian tradition Included in Pasquarello s gallery are Augustine of Hippo Gregory the Great Benedict Bernard of Clairvaux Bonaventure Thomas Aquinas Erasmus Hugh Latimer Martin Luther and John Calvin These excellent preachers conceived of Christian speech as a unique theological practice learned through prayerful attention to the Bible and aimed at communion with God Sacred Rhetoric invites readers to join an extended conversation with the past in order to become faithful preachers of the gospel in a post Christian society Preachers seminarians and students of Christian history will find much to learn from Pasquarello s fresh perspective and passion for the past

Bede and the End of Time Peter Darby,2016-04-15 Bede c 673 735 was the leading intellectual figure of the Anglo Saxon Church and his writings had a profound influence on the development of English Christian thought Among the many issues he wrote about eschatology the study of the day of judgment and the end of time was a recurring theme Whilst recent research has furthered our knowledge of this subject in the later Middle Ages Dr Darby s book provides the first comprehensive analysis of Bede s eschatological thought and its impact upon the Anglo Saxon period Taking account of Bede s beliefs about the end of time this book offers sophisticated insights into his life his works and the role that eschatological thought played in Anglo Saxon society Close attention is given to the historical setting of each source text consulted and original insights are advanced regarding the chronological sequence of Bede s writings The book reveals that Bede s ideas about time changed over the course of his career and it shows how Bede established himself as the foremost expert in eschatology of his age The eight chapters of this book are organised into three main thematic groups the world ages framework Bede s eschatological vision and Bede s eschatological perspective It will be of interest to those studying early medieval history theology or literature as well as anyone with a particular interest in Bede and Anglo Saxon England

history and theology as well as for the general reader **Empires of Faith** Peter Sarris,2011-10-27 A panoramic account of the history of Europe the Mediterranean and the Near East from the fall of Rome to the rise of Islam **Bede and the Future** Peter Darby,Faith Wallis,2016-04-15 Bede c 673 735 was Anglo Saxon England s most prominent scholar and his body of work is among the most important intellectual achievements of the entire Middle Ages Bede and the Future brings together an international group of Bede scholars to examine a number of questions about Bede s attitude towards and ideas about the time to come This encompasses the short term future Bede s own lifetime and the time soon after his death and the end of time Whilst recognising that these temporal perspectives may not be completely distinct the volume shows how Bede s understanding of their relationship undoubtedly changed over the course of his life Each chapter examines a distinct aspect of the subject whilst at the same time complementing the other essays resulting in a comprehensive and coherent volume In so doing the volume asks and answers new questions about Bede and his ideas about the future and will undoubtedly stimulate further research in this field *Desecularizing the Christian Past* Enrico Beltramini,2025-10-01 The essential objective of this study is to unpack the complicity between historians and secularization theory in the study of late ancient and early medieval Christianity and then suggest a way out In this work of historiography of religion Enrico Beltramini argues that religious history is inherently secular and produces distorted representations of the Christian past He suggests moving from an epistemological to a hermeneutical approach so that the supernatural worldview of the Christian past can be addressed on its own terms This work also engages Markus s saeculum and replaces Markus s secularized relationship between the Kingdom and the government of the civitas with the Augustinian association of the Kingdom and divine government
