Times Book Review **The Search for Wholeness and Diaspora Literacy in Contemporary African American Literature** Silvia Castro-Borrego, 2011-05-25 This volume has as a cohesive argument the exploration of the different manifestations of the search for wholeness and spirituality in the writings of contemporary African American women writers covering different literary genres such as fiction both novels and short stories drama and poetry Together with the issue of spirituality the African American search for wholeness is analyzed as a source of creativity and agency As expressed in the contemporary literature of black women writers starting in the 1980s the search for wholeness reflects a beauty realized through the healing of the spirit and the body and is a process that takes on dimensions of reconciling the past and the present the mythical and the real the spiritual and the physical all in the context of an emerging world view that welcomes synthesis and expects both synthesis and generative contradictions The book will be a valuable collection for scholars of African American literature comparative American Ethnic literature American literature and spirituality as well as women's studies In addition it will be an important text for both undergraduate and graduate students in those fields As Professor Johnella Butler 2006 points out the African American search for wholeness is tightly linked to the search for freedom and agency Ever since the 19th century African American writers have given expression to an African American self which functions in Western civilization simultaneously as a colonized other and an assertive self Due to the continuous ordeal of the African Diaspora this self is caught in between the binaries proposed by the material and the spiritual world seeking a balance where the person can become whole The search for wholeness feeds from cultural roots that imply the presence of ancestral spiritualism rememory and double consciousness Contemporary black women writers reflect the metaphor of building spiritual bridges seeking the possibilities of building a bridge to the archetypal African past that is carried in their memories as a presence that offers sustenance via spiritual reconnection Their works seek to bridge the gap between the myths and traditions of the past and contemporary African American culture The texts included in this collection are examples of writing as an exercise of what V v Clark calls Diaspora literacy The texts written by contemporary African American women writers explicitly show how to recognize and read the cultural signs left scattered along the road of progress In this way material acquisition is achieved along with cultural dispossession becoming a metaphor for the history of the African in America The powerful message is that one should not exclude the other *Deconstruction, Feminist Theology, and the Problem of Difference* Ellen T. Armour, 1999-06-15 The term feminism conjures up the promise of resistance to the various forms of oppression women face But feminism's ability to fulfill this promise has been undermined by its failure to deal adequately with the difference that race makes for gender In this book Ellen T Armour forges an alliance

between deconstruction and feminist theology and theory by demonstrating deconstruction's usefulness in addressing feminism's trouble with race Armour shows how the writings of Jacques Derrida and Luce Irigaray can be used to uncover feminism's white presumptions so that race and gender can be thought of differently In clear concise terms she explores the possibilities and limitations for feminist theology of Derrida's conception of woman and Irigaray's multiple woman as well as Derrida's thinking on race and Irigaray's work on religion Armour then points a way beyond the race gender divide with the help of African American theorists such as bell hooks Hortense Spillers and Patricia Hill Collins

Dante, Cinema, and Television Amilcare A. Iannucci, 2004-01-01 The Divine Comedy of Dante Alighieri 1265-1321 is one of the seminal works of western literature Its impact on modern culture has been enormous nourishing a plethora of twentieth century authors from Joyce and Borges to Kenzaburo Oe Although Dante's influence in the literary sphere is well documented very little has been written on his equally determining role in the evolution of the visual media unique to our times namely cinema and television Dante Cinema and Television corrects this oversight The essays from a broad range of disciplines cover the influence of the Divine Comedy from cinema's silent era on through to the era of sound and the advent of television as well as its impact on specific directors actors and episodes on national regional cinema and television and on genres They also consider the different modes of appropriation by cinema and television Dante Cinema and Television demonstrates the many subtle ways in which Dante's Divine Comedy has been given new life by cinema and television and underscores the tremendous extent of Dante's staying power in the modern world
