Microsoft Powerpoint 2016: The Complete Guide

Alexander Herolson, 2015-11-12 PowerPoint 2016 is a presentation program that presents information in the form of slides. This program is developed by Microsoft and was originally called Presenter released by another company Forethought Inc. It was originally launched in May 1990 and has always been a part of the Microsoft Suite. It is popularly known as a program that helps users to develop slide-based presentations and is currently the most used presentation program in the world. The purpose of this guide is to introduce users to the latest version of the Microsoft PowerPoint program. Reviews on the newest issue purport that it is new and improved, boasting redesigned and creative features. The manual will first look at the genesis of the program's manufacturer, Microsoft Inc. The Microsoft Office suite and its foundation and subsequent growth will then be discussed, followed by growth of the actual PowerPoint program.
