Darling, 2008-04-21 A commanding encyclopedia of the history and principles of spaceflight from earliest conceptions to faster-than-light galaxy hopping. Here is the first truly comprehensive guide to space exploration and propulsion from the first musings of the Greeks to current scientific speculation about interstellar travel using warp drives and wormholes. Space buffs will delight in its in-depth coverage of all key manned and unmanned missions and space vehicles past, present, and projected, and its clear explanations of the technologies involved. Over the course of more than 2,000 extensively cross-referenced entries, astronomer David Darling also provides fascinating insights into the cultural development of spaceflight. In vivid accounts of the major characters and historical events involved, he provides fascinating tales of early innovators, the cross-pollination that has long existed between science fiction and science fact, and the sometimes obscure links between geopolitics, warfare, and advances in rocketry. **Socio-Legal Integration** Agnieszka Kubal, 2016-04-01 This book examines

how contemporary migrants form and transform their involvement with the law in their host countries and which factors influence this relationship. It suggests a more comprehensive insight into the socio-legal integration of migrants by analysing the interplay between the new legal environment and migrants' existing culturally derived values, attitudes, behaviour, and social expectations towards law and law enforcement. Acknowledging the superdiversity of migration as a global issue, the book uses the case study of Polish post-2004 EU Enlargement migrants to examine values and attitudes to the rules that govern their work and residence in the UK and to the legal system in general. With wider international relevance than just Poland and the UK, this book makes a case for the meaningful employment of legal culture in socio-legal integration research and suggests far-reaching consequences for host countries and their immigrant communities. **Complete Book of**
