21st Century Communication for Insurance Agents Robert Edgin, 2013-10-31

The insurance industry has changed, consumers have changed, the competition has changed, communication has changed, BUT MOST INSURANCE AGENTS HAVE NOT. With mass marketing and over 1 BILLION dollars spent on advertising last year alone by a few of the biggest players in the insurance industry, there's not a day that goes by that your clients and prospects aren't bombarded with messages from your competitors. Unfortunately, most of those messages focus on cheap insurance, saving money, or depict the agent as outdated and useless. Consumers are being taught that the only difference between insurance providers is PRICE, and the entire industry is being commoditized by direct writers trying to push the retail agency force into extinction. Retail agents want to know how they can compete with the giants of advertising and mass marketing to keep their clients and grow their agencies. The unfortunate answer is that you simply can NOT compete in the price wars and mass marketing being done by the big industry advertisers. IF YOU TRY, YOU WILL LOSE. However, you CAN beat them by communicating with your clients and prospects in ways that the big companies cannot. You CAN use the new rules of communication and new methods to reach your clients and prospects that will set you apart as THE go-to insurance advisor in your area. Agents need to break away from the price wars and commoditization and start creating experiences and relationships with their clients that are impossible to replace. You're in a fight for your agency's life. Whether you realize it or not, change in the insurance industry is going to continue at a rapid pace over the coming years. The big discounters will continue to increase their advertising, and banks and other large corporations will join in to try and make the retail agent as irrelevant as possible. Consumers will rely more on the internet and social media for their research and communication with insurance companies and agents. Only the strongest agents who find new ways to communicate their value and set themselves apart will survive. You can do more than just survive; you can thrive in the coming years by becoming a 21st Century agent and using 21st Century Communication tools with your clients and prospects. You can be known in your community as an insurance expert and a trusted advisor that people seek out and want to do business with. You can learn:
