Consumer Culture in American Society Lisa Jacobson, 2007-12-30 Children play a crucial role in today's economy. According to some estimates, children spend or influence the spending of up to 500 billion annually. Journalists, sociologists, and media reformers often present mass marketing toward children as a recent fall from grace, but the roots of children's consumerism and the anxieties over it date back more than a century. Throughout the twentieth century, a wide variety of groups, including advertisers, retailers, parents, social reformers, child experts, public schools, and children themselves, helped to socialize children as consumers and struggled to define the proper boundaries of the market. The essays and documents in this volume illuminate the historical circumstances and cultural conflicts that helped to produce, shape, and legitimize children's consumerism. Focusing primarily on the period from the Gilded Age through the twentieth century, this book examines how and why children and adolescents acquired new economic roles as consumers and how these new roles both reflected and produced dynamic changes in family life and the culture of capitalism. This volume also reveals how children and adolescents have used consumer goods to define personal identities and peer relationships, sometimes in opposition to marketers' expectations and parental intentions.

Polish American History before 1939 Adam Walaszek, 2023-09-20 The history of private lives of the first and second generations of Polish immigrants in the United States is viewed from the perspective of migrants themselves. What did the migrants do? How did they behave? How did protagonists—men, women, children—with their own words present their experience? Their experience is compared with one of the other groups. The book discusses migration processes, formation of neighborhoods, experiences at work, daily and family lives, functioning of parishes, and tensions related to it and construction of people's identities and their constant reformulations. Migrants created mutual aid societies which played not only economic but also ideological and political roles. Experiences of immigrants, children at home and at school are presented mostly in their own words and from their own perspective. Cultural activities reflect constant changes of groups' self-identity. The book also depicts the relations between the Polish migrants and members of other ethnic groups in the streets, public spaces, politics, and within the Catholic church. People lived in pluricultural, culturally diverse contexts, and thus relations with the others were complex. The panorama ended in the year 1939, when after the Great Depression the group entered into a new period of transformation during the war.

American Immigration and Ethnicity D. Gerber, A. Kraut, 2016-04-30 This work aims to enrich studies of American immigration history by combining and comparing the experiences of both European immigration in the nineteenth and early twentieth centuries and Asian, Hispanic, Caribbean, and African immigrations in the late twentieth and twenty-first centuries.
