The IASS International Association for Scandinavian Studies is the international organization for the research of Nordic literature culture and linguistics Since 1956 the IASS conference has been organized every other year In 2016 the 31th IASS conference took place in Groningen Netherlands This 2016 conference revolved around the 21st century as an era characterized by dynamics with different implications These ongoing global transitions are reflected in the humanities the dichotomy between centre and periphery has invaded the literary discourse In many small language areas more translated literature is being published than literature written in the national language This implies that cultural mediators play a major role in the production of literature Their efforts are made visible in a transnational approach to the history of literature

The Symbolist Roots of Modern Art Michelle Facos, 2017-07-05 With the words A new manifestation of art was expected necessary inevitable Jean Mor announced the advent of the Symbolist movement in 1886 When Symbolist artists began experimenting in order to invent new visual languages appropriate for representing modern life in all its complexity they set the stage for innovation in twentieth century art Rejecting what they perceived as the superficial descriptive quality of Impressionism Naturalism and Realism Symbolist artists delved beneath the surface to express feelings ideas scientific processes and universal truths By privileging intangible concepts over perceived realities and by asserting their creative autonomy Symbolist artists broke with the past and paved the way for the heterogeneity and penchant for risk taking that characterizes modern art The essays collected here which consider artists from France to Russia and Finland to Greece argue persuasively that Symbolist approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild

experimentation but rather an inspirational point of departure for twentieth century developments
