Against the Current: Simple Chapters from a Complex Life Edward Alfred Steiner, 2022-09-15 In *Against the Current: Simple Chapters from a Complex Life* Edward Alfred Steiner offers a compelling introspection into various aspects of human experience through a series of autobiographical chapters. Written in a lyrical and accessible prose style, the book weaves together personal anecdotes with broader philosophical reflections, revealing the intricacies of Steiner's life as a thinker and observer of societal dynamics. Through vivid storytelling, Steiner effortlessly situates his narrative within the broader context of early 20th century intellectual thought, where his insights resonate with themes of identity, migration, and the search for meaning amidst societal upheaval. Edward Alfred Steiner, a philosopher, educator, and social critic, draws upon his diverse experiences as an immigrant and his intellectual journey through multiple cultures. His background in sociology and his profound engagement with social reform movements deeply inform this work, enhancing its thematic depth. Steiner's own struggles against societal currents imbue his writing with authenticity and passion, making his reflections not merely personal but universally resonant. *Against the Current* is recommended for readers who seek a thought-provoking exploration of life's complexities through the lens of personal narrative. Against the Current! Wilhelm von Kardorff, Helga Zepp-LaRouche, Anton Chaitkin, Michael Carr, A currently popular philosophy is summed up in the phrase "Don't worry, just go with the flow." This book was written by a leading member of the German Reichstag parliament, Wilhelm von Kardorff, who discovered that the flow, both of his own personal assumptions and of the universally taught doctrines of German economic philosophy and government policy, were dead wrong and leading towards a waterfall of complete destruction and impoverishment of his nation. With this book, he launched a successful campaign to redirect the flow or current with the introduction of American System economic policies into Germany. This book, originally entitled *Gegen den Strom: Eine Kritik der Handelspolitik des Deutschen Reichs an der Hand Carey'schen forshungen*, was first published in Berlin in 1875. By May of 1879, von Kardorff's campaign resulted in German Chancellor Bismarck's adoption of a new economic program, which he announced in a presentation before the Reichstag. To a large degree, Bismarck based his new program on this book, and von Kardorff's
