Halliburton S Army Halliburton S Army:

Halliburton's Army Pratap Chatterjee, 2010-03-23 Halliburton sArmy is the first book to show in shocking detail how Halliburton really does business in Iraq and around the world From its vital role as the logistical backbone of the U S occupation in Iraq without Halliburton there could be no war or occupation to its role in covering up gang rape amongst its personnel in Baghdad Halliburton sArmy is a devastating bestiary of corporate malfeasance and political cronyism Pratap Chatterjee one of the world s leading authorities on corporate crime fraud and corruption shows how Halliburton won and then lost its contracts in Iraq what Dick Cheney and Donald Rumsfeld did for it and who the company paid off in the U S Congress He brings us inside the Pentagon meetings where Cheney and Rumsfeld made the decision to send Halliburton to Iraq as well as many other hot spots including Somalia Yugoslavia Uzbekistan Afghanistan Guant mo Bay and most recently New Orleans He travels to Dubai where Halliburton has recently moved its headquarters and exposes the company s freewheeling ways executives leading the high life bribes graft skimming offshore subsidiaries and the whole arsenal of fraud Finally Chatterjee reveals the human costs of the privatization of American military affairs which is sustained almost entirely by low paid unskilled Third World workers who work in incredibly dangerous conditions without any labor protection Halliburton sArmy is a hair raising expos f one of the world s most lethal corporations essential reading for anyone concerned about the nexus of private companies government and war Jesus Was a Liberal Joseph A. Sheridan, 2006 Sheridan was provoked by the perpetual attempt of the religious right and the ultra conservative elements in America to label everything liberal as if it were an evil that had invested our entire society with the poisonous venom He feels that Jesus established the basis for precisely what the Democratic Party has espoused for the past seventy five years **Mrs. Halliburton's Troubles** Mrs. Henry Wood, 1865 **Interminable Wars vs. The Utopia Options** Gary Clifford Gibson, 2010-08 The Waveform Politics series present Gary C Gibson s essays on U S contemporary history topics with analysis of political policy trends and national interest issues The author s opinion of exclusivist broadcast media is that it is a politically corrupting tool in support of concentrating wealth within a global corporatist socialist political agenda The essays have a philosophical spin Protracted nation rebuilding conflicts in Iraq and Afghanistan and misc fiscal perfidy bust the U S public budget without necessity American Hiroshima David J. Dionisi, 2005 American Hiroshima delivers concrete ideas to defeat terrorists strengthen democracy reduce weapons of mass destruction and establish the United States as a 21st century force for peace Unprecedented Challenges United States. Congress. House. Committee on Government Reform, 2004 Rethinking Globalism Manfred B. Steger, 2004-10-26 What is the hottest American export since 9 11 The contributors to this provocative volume contend that it is Western style globalism the dominant free market ideology that determines everything from most favored nation status to the declaration of war In this much needed post September 11 analysis an interdisciplinary team of authors shows how central concepts like globalization liberty free markets and free trade are increasingly being

subordinated to and lumped together with the war on terrorism led by the U S and its allies The authors here hailing from all five continents contend that globalism is being adapted to particular social and political contexts in various parts of the world Nonetheless the impact of globalization with an ideological twist can be devastating as military operations and propaganda supplant transnational trade initiatives as the focal point of global exchange And ironically the post 9 11 framework contains a major ideological contradiction Social forces otherwise profiting from expanded global mobility and interchange must come to grips with necessary limitations on certain aspects of globalization This volume was handcrafted to outline the major lines of inquiry proposed for the new Globalization series edited by Manfred B Steger and Terrell Carver Writing in accessible engaging prose the contributors to this anchor volume consider themselves critical globalization theorists who seek to provide readers with a better understanding of how dominant beliefs about globalization fashion their realities and how these ideas can be changed to bring about more equitable social arrangements Books in the series will share the same perspective and goals
