Handbook Of Population Handbooks Of Sociology And Social Research:

Handbook of Population Dudley L. Poston Jr., 2019-04-16 The 2nd edition of the Handbook of Population covers the major topics of the discipline of demography including current substantive methodological and theoretical issues of interest as well as new and emerging topics in the field In addition to revised updated and extended chapters that were included in the 1st edition this 2nd edition of the Handbook brings to the forefront entirely new chapters covering such major themes as children adoption sexuality inequality population psychology rural demography and obesity Chapters in this Handbook will expand our knowledge of the field and will raise awareness of the causes and the consequences of demographic behavior and events in societies throughout the world This 2nd edition will also serve as a reference in the field of population studies for years to come It will generate new questions and research ideas and will positively impact the growth development and expansion of demography [A Demographic Perspective on Gender, Family and Health in Europe](#) Gabriele

Doblhammer, Jordi Gumà, 2018-02-12 This open access book examines the triangle between family gender and health in Europe from a demographic perspective It helps to understand patterns and trends in each of the three components separately as well as their interdependencies It overcomes the widely observable specialization in demographic research which usually involves researchers studying either family or fertility processes or focusing on health and mortality Coverage looks at new family and partnership forms among the young and middle aged their relationship with health and the pathways through which they act Among the old lifelong family biography and present family situation are explored Evidence is provided that partners advancing in age start to resemble each other more closely in terms of health with the health of the partner being a crucial factor of an individual's own health Gender specific health outcomes and pathways are central in the designs of the studies and the discussion of the results The book compares twelve European countries reflecting different welfare state regimes and offers country specific studies conducted in Austria Germany Italy all populations which have received less attention in the past and Sweden As a result readers discover the role of different concepts of family and health as well as comparisons within European countries and ethnic groups It will be an insightful resource for students academics policy makers and researchers that will help define future research in terms of gender and public health [Disparate Measures](#) Mary A. Armstrong, Susan L. Averett, 2024-04-09 An exploration of workplace participation and earnings patterns for diverse women in US STEM professions that upends the myth that STEM work benefits women economically Seen as part economic driver part social remedy STEM work is commonly understood to benefit both the US economy and people particularly women from underrepresented groups But what do diverse women find when they work in US STEM occupations What do STEM jobs really deliver and for whom In Disparate Measures Mary Armstrong and Susan Averett challenge the conventional wisdom that a diverse US STEM workforce will bring about economic abundance for the women who participate in it Combining intersectionality theory and critical data theory with a feminist economic analysis the authors explore how

different groups of diverse women truly fare in US STEM professions *Disparate Measures* is centered on eight unique in depth case studies each of which provides an intersectional economic analysis a term coined by the authors of diverse women working in STEM occupations Four case studies prioritize women of color and examine the STEM participation and earnings of Black women American Indian and Alaska Native women Asian and Pacific Islander women and Hispanic women Latinas four additional case studies illuminate intersections that are frequently neglected by the STEM inclusivity literature foreign born women women with disabilities Queer women and mothers What the authors find in their groundbreaking detailed analysis is that the promises of STEM are only partly true when compared to women not working in STEM most women are indeed economically elevated by STEM occupations yet when compared to white men in the same STEM occupations women s second class status is usually reaffirmed The authors conclude by offering seven big picture recommendations for rethinking STEM equity showing just how we can successfully confront the entrenched patterns of economic disadvantage faced by diverse women in STEM jobs

Religion, Power, and Society in Suriname and Guyana R. Kirtie

Algoe,2022-05-30 This book surveys the development of the religious landscape in Suriname and Guyana focusing on the interaction between Hindus Muslims and Christians and responses to Christian dominance It reflects on how and why these religiously diverse Caribbean societies are characterized by relative harmony whereas interreligious relationships in other parts of the world have been marked by extreme conflict and violence The chapters explore ideological and institutional dimensions including the role of government policies religious demography religious leadership and private religious institutions The author takes a critical stance towards a negative approach to power struggles and offers a perspective that does not necessarily consider religious diversity a hindrance for religious harmony Making valuable data accessible to scholars in the English language this volume provides a framework for the study of interreligious relations and for understanding the religious worlds of the Caribbean

Handbook of the Sociology of Mental Health Carol S.

Aneshensel,Jo C. Phelan,Alex Bierman,2012-07-16 This second edition of the *Handbook of the Sociology of Mental Health* features theory driven reviews of recent research with a comprehensive approach to the investigation of the ways in which society shapes the mental health of its members and the lives of those who have been diagnosed as having a mental illness The award winning *Handbook* is distinctive in its focus on how the organization and functioning of society influences the occurrence of mental disorder and its consequences A core issue that runs throughout the text concerns the differential distribution of mental illness across various social strata defined by status characteristics such as gender race ethnicity socioeconomic status and age The contributions to this volume shed light on the social cultural and economic factors that explain why some social groups have an elevated risk of disorder They also address the social repercussions of mental disorder for individuals including stigmatization within the larger society and for their families and social networks The second edition of this seminal volume includes substantial updates to previous chapters as well as seven new chapters on The

Handbooks Defense Documentation Center (U.S.),1962 **Privilege Lost** Jessi Streib,2020-03-30 There are two narratives of the American class structure one of a country with boundless opportunities for upward mobility and one of a rigid class system in which the rich stay rich while the poor stay poor Each of these narratives holds some truth but each overlooks another In *Privilege Lost* Jessi Streib traces the lives of over 100 youth born into the upper middle class Following them for over ten years as they transition from teens to young adults Streib examines who falls from the upper middle class how and why don't they see it coming In doing so she reveals the patterned ways that individuals resources and identities push them onto mobility paths and the complicated choices youth make between staying true to themselves and staying in their class position Engaging and eye opening *Privilege Lost* brings to life the stories of the downwardly mobile and highlights what they reveal about class privilege and American family life *Economics and Ageing* José Luis Iparraguirre,2018-12-11 This upper level textbook provides a coherent introduction to the economic implications of individual and population ageing Placing economic considerations into a wider social sciences context this is ideal reading not only for advanced undergraduate and masters students in economics health economics and the economics of ageing but also policy makers students professionals and practitioners in gerontology sociology health related sciences and social care This volume introduces the different conceptualisations of age and definitions of old age as well as the main theories of individual ageing as developed in the disciplines of biology psychology and sociology It covers the economic theories of fertility mortality and migration and describes the four main frameworks that can be used to study economics and ageing namely the life cycle the overlapping generations the perpetual youth and the dynastic models **Transnational Families in Africa** Maria C Marchetti-Mercer,Leslie Swartz,Loretta Baldassar,Thembelihle Coka,Glory Kabaghe,Sonto Madonsela,Lactricia Maja,Risuna Mathebula,Siko Moyo,Esther Price,Daniella Rafaely,Ajwang' Warri,2023-12 This is the first book to capture the poignant

stories of transnational African families and their use of Information and Communication Technologies ICTs in mediating their experiences of migration and caring across distance Transnational Families in Africa analyses the highs and lows of family separation as a result of migration in three contexts migration within South Africa from rural to urban areas migration from other African countries into South Africa and middle class South Africans emigrating to non African countries The book foregrounds the importance of kinship and support from extended family as well as both the responsibilities migratory family members feel and the experience of loss by those left behind Across the diverse circumstances explored in the book are similarities in migrants strategies for keeping in touch but also large differences in relation to access to ICTs and ease of use that highlight the digital divide and generational gaps As elsewhere in the world and in spite of the varied experiences in these kinship circles the phenomenon that is the transnational family is showing no signs of receding This book provides a groundbreaking contribution to global debates on migration from the Global South **Plant Transformation via**

Agrobacterium Tumefaciens Phetole Mangena,2022-09-02 Plant Transformation via Agrobacterium Tumefaciens compiles fundamental and specific information and procedures involving in vitro soybean transformation which forms the basis for the Agrobacterium mediated genetic manipulation of soybean using plant tissue culture This method serves as one of the most preferred reliable and cost effective mechanism of transgene expression in both leguminous recalcitrant species and non legume crops The technology is favoured due to its simplicity feasibility and high transformation rates that are so far achieved mostly in monocot plants and a few dicot genotypes This book provides a comprehensive review of plant transformation which remains necessary for many researchers who are still facing protocol related hurdles Among some of the major topics covered in Plant Transformation via Agrobacterium Tumefaciens are the history and discovery of Agrobacterium bacterium longstanding challenges causing transformation inefficiencies types and conditions of explants development of transgenic plants for stress resistance and the role of transgenic plants on animal human health including the environment Plant Transformation via Agrobacterium Tumefaciens helps the reader to understand how soybean like many other orphan legume crops faces the risk of overexploitation which may render the currently available varieties redundant and extinct should its narrow gene pool not improve Plant transformation serves as a key technique in improving the gene pool while developing varieties that are drought tolerant have enhanced nutritional value pest resistant and reduce the destruction by disease causing microorganisms This book is an essential foundation tool that is available for researchers and students to reinforce the application of Agrobacterium mediated genetic transformation in soybean COVID-19, Frontline

Responders and Mental Health Jennifer A. Horney,2023-01-23 Realizing the harsh potential realities such as a shortage of qualified workers and questions around funding and workforce development needed to ensure preparedness for the next public health emergency this playbook for delivering resilient public health systems post pandemic provides a timely oversight for future resilience **Rebuilding Communities After Displacement** Mo Hamza,Dilanthi Amaratunga,Richard

Haigh, Chamindi Malalgoda, Chathurangane Jayakody, Anuradha Senanayake, 2023-02-19 This book presents a collection of double blind peer reviewed papers under the scope of sustainable and resilient approaches for rebuilding displaced and host communities. Forced displacement is a major development challenge not only a humanitarian concern. A surge in violent conflict as well as increasing levels of disaster risk and environmental degradation driven by climate change has forced people to leave or flee their homes both internally displaced as well as refugees. The rate of forced displacement befalling in different countries all over the world today is phenomenal with an increasingly higher rate of the population being affected on daily basis than ever. These displacement situations are becoming increasingly protracted many lasting over 5 years. Therefore there is a need to develop more sustainable and resilient approaches to rebuild these displaced communities ensuring the long term satisfaction of communities and enhancing the social cohesion between the displaced and host communities. Accordingly chapters are arranged around five main themes of rebuilding communities after displacement: Response management for displaced communities, The Built environment in resettlement planning, Governance of displacement, Socio Economic interventions for sustainable resettlement. **Resilience & the City** Peter Rogers, 2016-04-08 Following the turbulent events of the first few years of the 21st century the growth of new security and disaster measures have led to significant changes to urban design and the management of urban space. This book blends the genealogical method of Foucault with the theory of rhythms by Lefebvre to examine these changes. The spatial history of urban disaster is linked to the rhythms of everyday urban experience to offer a revised understanding of the regulation of order and disorder in the city. In doing so the book highlights issues of hardening space, the drift from civil defence to civil protection to civil contingencies and resilience. This assessment realigns the potential impact of tightening security practices and resilient ways of thinking, doing and acting on societal security. This also links to growing concerns about quality of life over the use and potential abuse of security and disaster legislation for managing social unrest. Examples studied include the increased exclusion of minorities such as young people from democracy and public life, security oriented interventions in the ethnic minority communities, the use of automated technologies in policing, civil and minor offences e.g. digital plate recognition and speeding and the interplay of diverse social groups in more commercially aligned and increasingly securitised public spaces of the entrepreneurial city. This book highlights many significant problems with the direction of British democracy and suggests there may be both positive and negative results from becoming more resilient. While providing a critical appraisal of the realignment of neoliberal democracy at large it also links discussion on gentrification, revanchism and urban security to a forward looking agenda for further research. *Understanding the Context of Cognitive Aging* Jacqueline L. Angel, Mariana López Ortega, Luis Miguel Gutierrez Robledo, 2021-08-03 This book provides a bi-national portrait of dementia in the rapidly aging Mexican origin population in Mexico and the United States. It provides a comprehensive overview of critical conceptual and methodological issues in the study of cognitive aging and related mental and physical conditions. The book examines the

sources of vulnerability and their consequences for Mexican origin and for aging in place By providing a combination of new knowledge empirical evidence and fresh approaches of dementia support in later life this book will contribute to moving the field of Mexican origin aging and health forward By focusing on the serious challenges in old age support for older people with dementia and neurocognitive disorders in two different contexts this book will deepen academics researchers students and young investigators understanding of what is necessary to achieve optimal care

Marginal Urbanisms Felipe Hernández, 2017-05-11 This volume reflects on urban development strategies that have been implemented recently in Latin America Over the past twenty years there has been great improvement in governmental efficiency with local and national governments executing important projects that increase the quality of life in cities However the causes of collective disadvantage which created the problems governments attempt to resolve continue to affect many people throughout the continent Thus the essays here examine a wide range of socioeconomic political ethnic and historical issues that have influenced the emergence of marginal urbanisms in Latin American cities The argument most strongly presented in this book is that infrastructural insertions need to be considered as the baseline for urban development not as its main goal Urban infrastructure cannot be taken as the only target for urban development programmes but rather as an instrument for achieving more significant and inclusive urban transformations that respond more adequately to the realities of the people who inhabit Latin American cities

Autism Spectrum Disorder in Mid and Later Life Scott D. Wright, 2016-01-21 Bringing together a wealth of professional and academic research alongside personal insights into aging and autism this edited sourcebook looks beyond the early years and transition into adulthood with Autism Spectrum Disorders ASDs to focus instead on the challenges facing individuals with ASDs who are middle aged or older

Queering Disasters, Climate Change and Humanitarian Crises Dale Dominey-Howes, Ashleigh Rushton, William Leonard, Marcilyn Cianfarani, Lisa Overton, Haorui Wu, 2025-07-31 This book marks a significant contribution to the development of queer disaster studies exploring how disaster related experiences and needs of sexual and gender diverse LGBTIQ people manifest and differ across national cultural and regional boundaries from the Global North and South from culturally diverse communities drawing together researchers and professionals working in government non government agencies emergency management community and humanitarian organisations Uniquely it contains contributions from sexual and gender diverse people with lived experience of disasters climate change and humanitarian crises and people who have been subject to heterosexist discrimination in disaster relief and recovery related services as employees and volunteers A crucial overdue contribution to achieving the United Nations Sustainable Development Goals 5 Gender Equality this book identifies areas to further the development of just and equitable disaster climate change and humanitarian crises policy programs and services that include and address the needs of sexual and gender diverse people
