Ant Ozok,Panayiotis Zaphiris,2011-06-24 This book constitutes the refereed proceedings of the 4th International Conference on Online Communities and Social Computing OCSC 2011 held in Orlando FL USA in July 2011 in the framework of the 14th International Conference on Human Computer Interaction HCII 2011 with 10 other thematically similar conferences The 77 revised papers presented were carefully reviewed and selected from numerous submissions The papers accepted for presentation thoroughly cover the thematic area of online communities and social computing addressing the following major topics on line communities and intelligent agents in education and research blogs Wikis and Twitters social computing in business and the enterprise social computing in everyday life information management in social computing Persuasive Gaming in Context Teresa La Hera,Jeroen Jansz,Joost Raessens,Ben Schouten,2025-10-01 The rapid developments in new communication technologies have facilitated the popularization of digital games which has translated into an exponential growth of the game industry in recent decades The ubiquitous presence of digital games has resulted in an expansion of the applications of these games from mere entertainment purposes to a great variety of serious purposes In this edited volume we narrow the scope of attention by focusing on what game theorist Ian Bogost has called persuasive games that is gaming practices that combine the dissemination of information with attempts to engage players in particular attitudes and behaviors This volume offers a multifaceted reflection on persuasive gaming that is on the process of these particular games being played by players The purpose is to better understand when and how digital games can be used for persuasion by further exploring persuasive games and some other kinds of persuasive playful interaction as well The book critically integrates what has been accomplished in separate research traditions to offer a multidisciplinary approach to understanding persuasive gaming that is closely linked to developments in the industry by including the exploration of relevant case studies *ALTERNATIVE FORMS OF KNOWING (IN) MATHEMATICS* Swapna Mukhopadhyay,Wolff-Michael Roth,2012-12-28 This book grew out of a public lecture series Alternative forms of knowledge construction in mathematics conceived and organized by the first editor and held annually at Portland State University from 2006 Starting from the position that mathematics is a human construction implying that it cannot be separated from its historical cultural social and political contexts the purpose of these lectures was to provide a public intellectual space to interrogate conceptions of mathematics and mathematics education particularly by looking at mathematical practices that are not considered relevant to mainstream mathematics education One of the main thrusts was to contemplate the fundamental question of whose mathematics is to be valorized in a multicultural world a world in which as Paolo Freire said The intellectual activity of those without power is always characterized as non intellectual To date nineteen scholars including the second editor have

participated in the series All of the lectures have been streamed for global dissemination at <http://www.media.pdx.edu/dlcmedia/events/AFK> Most of the speakers contributed a chapter to this book based either on their original talk or on a related topic The book is divided into four sections dealing with Mathematics and the politics of knowledge

Ethnomathematics Learning to see mathematically Mathematics education for social justice *Well Played 3.0* Et Al,2011

Following on *Well Played 1.0* and *2.0* this book will also be full of in depth close readings of video games that parse out the various meanings to be found in the experience of playing a game Contributors will analyze sequences in a game in detail in order to illustrate and interpret how the various components of a game can come together to create fulfilling a playing experience unique to this medium Contributors will again be looking at video games some that were covered in *Well Played 1.0* and *2.0* as well as new ones in order to provide a variety of perspectives on more great games

Pleasure and Leisure in the Middle Ages and Early Modern Age Albrecht Classen,2019-08-05 Jan Huizinga and Roger Caillois have already taught us to realize how important games and play have been for pre modern civilization Recent research has begun to acknowledge the fundamental importance of these aspects in cultural religious philosophical and literary terms This volume expands on the traditional approach still very much focused on the materiality of game toys cards dice falcons dolls etc and acknowledges that game constituted also a form of coming to terms with human existence in an unstable and volatile world determined by universal randomness and fortune Whether considering blessings or horse fighting falconry or card games playing with dice or dolls we can gain a much deeper understanding of medieval and early modern society when we consider how people pursued pleasure and how they structured their leisure time The contributions examine a wide gamut of approaches to pleasure considering health issues eroticism tournaments playing music reading and listening drinking alcohol gambling and throwing dice This large issue was also relevant of course in non Christian societies and constitutes a critical concern both for the past and the present because we are all homines ludentes

Theatre, Social Media, and Meaning Making Bree Hadley,2017-09-30 This book offers the first broad based survey of the way artists audiences and society at large are making use of social media and how the emergence of social media platforms that allow two way interaction between these groups has been held up as a game changer by many in the theatre industry The first book to analyse aesthetic critical audience development marketing and assessment uptake of social media in the theatre industry in an integrated fashion *Theatre Social Media and Meaning Making* examines examples from the USA UK Europe and Australasia to provide a snapshot of this emerging niche within networked telematic immersive and participatory theatre production and reception practices A vital new resource for the field this book will appeal to scholars students and industry practitioners alike
