Handbook of Evidence-Based Treatment Manuals for Children and Adolescents Craig W. LeCroy, 2008-04-18 With the advance of evidence based practice has come the publication of numerous dense volumes reviewing the theoretical and empirical components of child and adolescent treatment There are also a variety of detailed treatment manuals that describe the step by step procedures to guide ongoing research and practice The second edition of Craig Winston LeCroy s Handbook of Evidence Based Child and Adolescent Treatment Manuals is a forceful combination of the two approaches as he gathers fifteen varied treatment manuals and brief summaries of the research supporting each to ensure that practitioners will truly understand how to implement the treatments they are using A completely revised and

expanded edition of the handbook's first edition this is an essential guide to some of the best programs for helping children and teens. Each chapter begins with an explanatory section that discusses the theoretical and empirical underpinnings of the programs. The treatment manual follows leading readers through sessions with specific details about conducting the treatment that have been refined and improved through extensive testing and research. Organized into three sections: the major clinical disorders, social problems confronting children and teens, and preventive interventions, the Handbook brings together some of the most esteemed researcher-practitioners in the child and adolescent field. The book presents an impressive variety of innovative treatment programs and techniques, including the SiHLE program intended to prevent problems confronting children and teens and preventive interventions. The Handbook brings together some of the most esteemed researcher-practitioners in the child and adolescent field. The book presents an impressive variety of innovative treatment programs and techniques, including the SiHLE program intended to prevent HIV through education and self-esteem building, the Children of Divorce Intervention Program, a therapy for younger children stressing resilience and skill building, and Strengths Oriented Family Therapy, which reaches out to substance-involved adolescents and their families. The Handbook of Evidence-Based Child and Adolescent Treatment Manuals is an indispensable reference for researchers, graduate students, and practitioners working with children and adolescents in a multitude of settings, from schools and juvenile correction centers to group homes and family service agencies.

Transforming School Mental Health Services
Beth Doll, Jack A. Cummings, 2007-09-12

This soundly structured book reinforces and enriches educators' skills in population-based mental health. It provides usable information on how to get administrative buy-in for implementing coordinated, proven prevention and intervention practices. Rich with Web connections and references, it can serve as a textbook, a practitioner's workbook, and as a tool kit for implementation. Kevin P. Dwyer, Consultant Turnaround for Children, Former President, National Association of School Psychologists.

The road map for designing and implementing effective mental health services for all students. Studies have shown that mental wellness is a key determinant of students' academic and developmental success, but simply addressing the problems of individual students is not enough. Increasingly, schools are turning to population-based models for providing mental health services to ensure that students maintain the psychological, social, and emotional competence needed for learning. This comprehensive guidebook demonstrates how to use this approach to effectively assess mental health needs and design appropriate prevention and intervention strategies that will benefit individual students, whole classrooms, and an entire school population. Drawing from a wealth of current research and backed by evidence supporting the effectiveness of the population-based approach, this wide-ranging resource offers formal and informal strategies for identifying and prioritizing a school's mental health needs, as well as risk and protective factors. Insights into creating and managing a nurturing school environment, promoting psychological well-being, and preventing mental health problems. Suggestions for engaging parents in the process of fostering mental health. Intervention strategies that address significant

behavioral problems including violence bullying depression and difficulty relating to peers An integrated ten step sequence for shifting from conventional approaches that focus only on individual problems to population based services that support all students Transforming School Mental Health Services is the ideal resource for school mental health professionals and critical decision makers looking to optimize students wellness and educational performance The Oxford Handbook of Behavioral Emergencies and Crises Phillip M. Kleespies, 2016-09-19 The Oxford Handbook of Behavioral Emergencies and Crises includes the most up to date and valuable research on the evaluation and management of the most challenging patients or clients faced by mental health providers individuals who are at high risk of suicide or of other directed violence or of becoming the victims of interpersonal violence These are cases in which the outcome can be serious injury or death and there can be negative consequences not only for the patient but also for the patient's family and friends for the assessing or treating clinician and for the patient's clinic or medical center Virtually all mental health clinicians with an active caseload will see individuals with such issues This Handbook is comprised of chapters by leading clinicians researchers and scholars in this area of practice It presents a framework for learning the skills needed for assessing and working competently with such high risk individuals Chapters draw a distinction between behavioral emergencies and crises and between emergency intervention and crisis intervention The book examines the inter related aspects of the major behavioral emergencies that is for example the degree to which interpersonal victimization may lead an individual on a pathway to later suicidal or violent behavior or the degree to which suicidal individuals and violent individuals may share certain cognitive characteristics This resource is not simply a knowledge base for behavioral emergencies it also presents a method for reducing stress and acquiring skills in working with high risk people
