Educational Psychology: Constructing Learning Dennis M McInerney, 2013-08-15 Educational Psychology Constructing Learning 6e sets the standard for educational psychology texts in Australia and New Zealand with its comprehensive authoritative and research based coverage of the subject This edition includes completely updated content to reflect recent advances in the discipline including revised theory into practice features from 39 international developmental psychologists The author has retained the constructivist approach that made previous editions so engaging and relevant to student teachers and content has been constructed around the new Australian Profession Standards for Teachers

Self-regulation of Learning and Performance Dale H. Schunk, Barry J. Zimmerman, 2023-01-06 In

recent years educators have become increasingly concerned with students attempts to manage their own learning and achievement efforts through activities that influence the instigation direction and persistence of those efforts In 1989 Zimmerman and Schunk edited the first book devoted to this topic They assembled key theorists offering a range of perspectives on how students self regulate their academic functioning One purpose of that volume was to provide theoretical direction to ongoing as well as nascent efforts to explore academic self regulatory processes Since that date there has been an exponential surge in research This second volume on academic self regulation offers the fruits of the first generation of research It also addresses a number of key issues that have arisen since then such as how self regulation differs from such related constructs as motivation and metacognition and whether students can be taught self regulatory skills The contributors reveal an interesting uplifting and at times disturbing picture of how students grapple with the day to day problems of achieving in circumstances with inherent limitations and obstacles This volume provides insight into the source of students capabilities to surmount adversities the origins of their self initiated processes designed to improve learning motivation and achievement The text is organized on the basis of a conceptual framework that analyzes academic self regulation into four major dimensions That model is presented in the first chapter and key processes that influence each of these dimensions are discussed by prominent researchers in the chapters that follow Because each chapter is written to follow a common format this work provides a level of continuity and parsimony normally found only in authored textbooks

Self-Regulated Design Learning Matthew Powers,2016-07-28 Bridges current research in educational psychology with design studio pedagogy Orientates the studio project around student self regulated learning in order to maximize problem based learning and enhance student learning and achievement Case studies explain how challenges in studio have been overcome using the self regulation techniques Includes worksheets and templates to aid educators in putting the ideas into practice in the studio situation

Handbook of Strategies and Strategic Processing Daniel L. Dinsmore,Luke K. Fryer,Meghan M. Parkinson,2020-01-27 Handbook of Strategies and Strategic Processing provides a state of the art synthesis of conceptual measurement and analytical issues regarding learning strategies and strategic processing Contributions by educational psychology experts present the clearest yet definition of this essential and quickly evolving component of numerous theoretical frameworks that operate across academic domains This volume addresses the most current research and theory on the nature of strategies and performance mechanisms for unearthing individuals strategic behaviors and both long established and emerging techniques for data analysis and interpretation

Language Education in Digital Spaces: Perspectives on Autonomy and Interaction Carolin Fuchs,Mirjam Hauck,Melinda Dooly,2021-09-09 This book brings together contributions on learner autonomy from a myriad of contexts to advance our understanding of what autonomous language learning looks like with digital tools and how this understanding is shaped by and can shape different socio institutional curricular and instructional support To this end the individual contributions in the book highlight practice

oriented empirically based research on technology mediated learner autonomy and its pedagogical implications They address how technology can support learner autonomy as process by leveraging the affordances available in social media virtual exchange self access or learning in the wild Hutchins 1995 The rapid evolution and adoption of technology in all aspects of our lives has pushed issues related to learner and teacher autonomy centre stage in the language education landscape This book tackles emergent challenges from different perspectives and diverse learning ecologies with a focus on social and educational in equality Specifically to this effect the chapters consider digital affordances of virtual exchange gaming and apps in technology mediated language learning and teaching ranging from instructed and semi instructed to self instructed contexts The volume foregrounds the concepts of critical digital literacy and social justice in relation to language learner and teacher autonomy and illustrates how this approach may contribute to institutional objectives for equality diversity and inclusion in higher education around the world and will be useful for researchers and teachers alike

Interpersonal Regulation of Learning and Motivation Simone Volet, Marja Vauras, 2013-01-03 Interpersonal Regulation of Learning and Motivation is the first book in the field to focus on major methodological advances in research on interpersonal regulation of learning and motivation Interest in developing ways of capturing the dynamics of interpersonal regulation in real life learning interactions is growing rapidly Understanding these dynamics is particularly timely given the increased use of collaborative learning activities in schools and university settings as well as through face to face and computer supported collaborative learning CSCL environments While groups and collections of individuals in social interaction are expected to bring their own motivations and goals to the learning situations it is also assumed that these are further shaped through interaction as the group activity evolves Research methodology publications in the field of learning regulation and motivation are still dominated by a focus on the individual The study of collaborative learning at both conceptual and methodological level has not incorporated the significance of social regulatory processes of learning and motivation This is a new development in the field and one covered by this book The book contains numerous illustrations of innovative Methodological approaches to study and interpret the dynamics of interpersonal regulation Data sources and data representations to capture scaffolded instruction Theory based analytic methods to investigate interactions in real life collaborative learning Coding systems and social software tools for gathering and analysing interactive data Interpersonal Regulation of Learning and Motivation brings together the work of scholars who have been studying interpersonal regulation of learning and motivation at the boundaries of the individual and the social and who have made original methodological contributions to the study of interactive learning environments In combination their work provides a range of distinctive and original conceptual and methodological contributions to this under examined and vital field of research making this an essential read for any researcher or student interested in collaborative learning and motivation

Evidence-Based Learning and Teaching Melissa Barnes, Maria Gindidis, Sivan Phillipson, 2018-05-08 Education has become a political economic and social priority for Australia with the

success of schools and teachers being an integral part of the economic and social future of the country As a result quality assurance for learning and teaching has become increasingly debated among policy makers and the broader public with a call for more evidence data and standards to ensure that schools and teachers are held accountable for students learning outcomes In response this book provides a snapshot of the types of evidence and data relating to learning outcomes that are being collected in our classrooms within Australia The chapters in this book seek to interrogate current views of learning and teaching beyond what is measured in external assessments that only capture a limited view of student learning outcomes The chapters explore a range of fundamental topics within education including positive learning environments student voice and assessment They explore and articulate the vital knowledge and skills needed for current and future teachers In addition these chapters make clear links between teaching learning and the theories that frame shape and inform these learning and teaching processes The research presented in this book provides practical and theoretical insights into learning and teaching in early years primary secondary and tertiary education

Self-regulated Learning and Second Language Writing Lin Sophie Teng, 2022-05-30 This monograph is to investigate practical applications and contributions of self regulated learning SRL to second foreign language L2 writing from sociocognitive and sociocultural perspectives It showcases a comprehensive and updated review of conceptual and methodological issues of SRL and the state of the art research on its applications to L2 learning and teaching This volume further elaborates the design and results of a large scale project which conducts observational and intervention studies investigating SRL strategies in L2 writing This book reveals that a cross disciplinary understanding of SRL strategies plays a crucial role in advancing theoretical functions of SRL and in extending its applications to L2 education in general and L2 writing in particular This book makes significant contributions to developing and validating new conceptual frameworks and tools for evaluating multidimensional structures of SRL strategies and self efficacy in L2 writing elucidating the interplay of personal behavioral environmental and psychological factors with SRL strategies and writing performance and presenting an effective self regulation instructional model for nurturing L2 learners motivation and confidence to strategize reflect and succeed in writing Teng has established herself as one of the prominent scholars in the discussion of self regulated learning strategies Her contribution to the fields of L2 writing and strategic learning are undeniable This monograph is an excellent showing of how her endeavors to bring established theories from educational psychology to applied writing research have progressed over a number of methodologically rigorous studies It should be required reading for anyone with an interest in cultivating strategic writers not only in the Chinese context but worldwide Nathan Thomas UCL Institute of Education
